asset languages

Support Pack

Welcome to your Asset Languages Support Pack. This electronic portfolio contains all the documents and files you will need to conduct full and thorough assessments for your chosen language and proficiency level. There are individual tasks for assessment in each of the skill areas of listening, speaking, reading and writing.

Using this Portfolio

You can browse the files within the portfolio using the arrow buttons to the left hand side of the screen.

To preview a file double click the image for an enlarged view. To edit or print a document you will need to extract it from the portfolio, to do this double click the image and select the 'extract file' button from the bottom of the preview.

To close a preview, click on the cross at the top right corner.

For listening assessments the portfolio contains audio files. These files can be extracted from the portfolio in exactly the same way as documents using the 'extract folder' button from the bottom of the image of the folder. These files can then be played using the standard Windows Media Player, or other audio software, installed on your computer.

Unfortunately OCR no longer officially supports this language, and so we will be unable to provide anything other than basic support in the use of these materials. However the portfolio contains everything you will need and with a few minutes familiarisation, you should find it an easy and convenient document to use.

If you would like to view other resources from OCR please visit our website at www.ocr.org.uk
