Dear Ms Bosworth,

OCR Level 3 Cambridge Technicals in IT

I was pleased to have been consulted on the development of the qualifications listed below and I woul lilke you to note that my feedback has been taken on board in this development. I an also confirm that I have been provided with an opportunity to review the final content of these qualifications.

- OCR Level 3 Cambridge Technical Certificate in IT (601/7097/9)
- OCR Level 3 Cambridge Technical Extended Certificate in IT (601/7098/0)

I am happy now to support these qualifications for accreditation and recognition as Applied General qualifications on the basis that the learning provided by the units will provide a strong base of knowledge and skills from which a student could progress into higher education.

I am particularly pleased to see the inclusion of the newer technologies such as Cloud, Cyber and Mobile devices, which will enable students to progress on to the newer and more specialised courses as well as the more traditional courses all universities have.

Dependant on the mixture of modules, and as we are a practice based univesity and Faculty, I would be happy to consider applicants with these qualifications for entry onto our courses such as Computer Science, Business IT, ICT and Computer Networks.

Yours sincerely,

Mak Sharma, B.Eng, PgC, MA Ed, FHEA, MIET, MBCS.
School of Computing, Telecommunications and Networks.
Head of School.
SAS Fellow.
