# 1 Introduction

OCR entry code	Title	Qualification Number
10215	OCR Level 6 Diploma in Career Guidance and Development	600/0806/4

The information provided in this handbook is correct at the time of production. Occasionally we may update this information. Please refer to the qualification [webpage](#) for the most up-to-date information.

This handbook contains what you need to know about the planning, delivery and assessment of this qualification. Staff involved in the delivery of this qualification must have access to and understand the requirements in this handbook.

Information about the administration of this qualification is available on our [website](#).

You will find all the details about how the qualification is run, what you need to do and when. It covers everything from becoming an OCR centre, to making entries, claiming certificates, special arrangements and contacting us for advice.

You should ensure learners are informed of the title and level of the qualification they have been entered for and that Oxford Cambridge and RSA Examinations (OCR) is the awarding body for their chosen qualification.

## 1.1 Why choose OCR Level 6 Diploma in Career Guidance and Development?

---

The OCR Level 6 Diploma in Career Guidance and Development provides learners with a high quality, nationally recognised qualification. It is a vocationally-related, credit-based qualification that relates to national occupational standards (NOS) and provides valuable opportunities for individuals to develop skills, gain underpinning knowledge and understanding and demonstrate competence in the workplace or provide continued professional development.

The aim of this qualification is to give learners the opportunity to:

- develop a high level understanding of Career Guidance and Development
- develop their skills and competences in Career Guidance and Development
- achieve a nationally recognised qualification
- prepare for employment in a specific occupational sector
- continue professional development.

## 1.2 Entry requirement

---

There are no formal entry requirements for this qualification. We recommend that an initial assessment should take place to ensure the learner is capable of reaching the required standards.

This qualification is regulated for learners aged 18 years and over.

All staff involved in the assessment or delivery of this qualification should understand the requirements of the qualification and match them to the needs and capabilities of individual learners before entering them for this qualification.

This qualification has been developed so it is free from any barriers that restrict access or progression and therefore promotes equal opportunities.

## 1.3 Qualification size

---

The size of the qualification is described in terms of Guided Learning Hours (GLH) and Total Qualification Time (TQT).

GLH indicates the approximate time (in hours) that the learner will be supervised during any teaching, learning or assessment activities. We have worked with people who are experienced in delivering this qualification to determine what content needs to be taught and how long it will take to deliver.

TQT is comprised of two elements: GLH, and an estimate of the number of hours a learner will reasonably spend on any unsupervised learning or assessment activities (including homework) so they can successfully achieve their qualification.

The qualification requires 410 GLH and 600 TQT.

## 1.4 Funding

---

Some qualifications may be eligible for a loan. For more information about Advanced learner loans see the [Education and Skills Funding Agency](#).

You should use the Qualification Number (QN) when looking for public funding for learners.

If you have any queries regarding funding for this qualification contact us by email at [funding@ocr.org.uk](mailto:funding@ocr.org.uk).

## 1.5 Unique Learner Numbers (ULN)

---

This is a personal ten-digit number, which is used to ensure learner achievement information can be provided to their Personal Learning Record (PLR). ULNs are provided and administered by the Learning Records Service (LRS).

Learners over the age of 14 in UK education or training can access the PLR using their ULN. Learners keep the same ULN to access their PLR throughout their lives and whatever their level of learning.

Learners that claim certification for publically funded qualifications must have a valid ULN.

Where a learner has a ULN, you must enter their ten digit number in the ULN field when making entries via Interchange. For learners who do not have a ULN, a claim will still be accepted if you leave this field blank, but OCR will not be able to send these achievements to the PLR.

For more information, and to generate a ULN, please refer to the [Learning Records Service](#).

## 2 Qualification summary

### OCR Level 6 Diploma in Career Guidance and Development

<b>OCR entry code</b>	10215	<b>Qualification Number</b>		600/0806/4
<b>Approved age group</b>	Pre-16	16-18	18+	19+
			✓	✓

<b>Entry requirements</b>	There are no formal entry requirements for this qualification.			
<b>Total Qualification Time (TQT)</b>	600	<b>Guided Learning Hours</b>	410	
<b>Credit requirement</b>	Minimum credit is 60 credits 45 credits from 7 mandatory units and 15 credits from 16 optional units			
<b>Structure and options</b>	45 mandatory credits from mandatory group		45 credits	
	15 minimum credit from optional Groups		15 credits	
<b>Assessment model</b>	<p>This qualification is pass/fail.</p> <p>This qualification is internally assessed by your assessors and quality assurance personnel (e.g. teachers, tutors) and externally quality assured by OCR.</p>			
<b>Last date to enter learners</b>	<p>This is the operational end date for the qualification.</p> <p>If we are going to withdraw a qualification we'll set an end date for entries and certification and we'll tell you what the arrangements are for the last date to enter learners and make claims for certificates.</p>			

# 3 Structure and content

## 3.1 Qualification structure and rule of combination

---

The Rule of Combination (ROC) specifies how units can be combined and the overall number of credits to be achieved for the qualification to be awarded.

Learners do not have to achieve units in any particular order and learning programmes should be tailored to meet individual needs. It is recommended that, wherever possible, you deliver this qualification holistically by identifying opportunities to link the units and levels.

When combining units for this qualification, it is your responsibility to ensure the rule of combination is followed.

The units are available to download from our [qualification webpage](#).

### OCR Level 6 Diploma in Career Guidance and Development

---

To achieve this qualification, learners must achieve a total of 60 credits made up as follows:

- 45 credits from the 7 mandatory units
- A minimum of 15 credits from the optional units

The following tables contain the groups of mandatory and optional units.

Mandatory Units					
OCR Unit Number	Unit Title	Unit Reference Number	Credit	Level	GLH
1	Preparing to work in the career information, advice and guidance sector	A/502/8432	6	4	40
2	Reflect on and improve professional practice	T/502/8428	6	6	40
3	Career guidance theory	M/502/8444	9	6	70
4	Agree the purpose of client-centred career guidance interviews and maintain communication with clients	K/502/8443	6	6	40
5	Explore and agree the career guidance and development needs of clients	L/502/8421	6	6	40
6	Use career and Labour Market Information with clients	L/502/8435	6	6	40
7	Work with other agencies for the benefit of clients and the organisation	H/502/8439	6	6	40

<b>Optional Units</b>					
<b>OCR Unit Number</b>	<b>Unit Title</b>	<b>Unit Reference Number</b>	<b>Credit</b>	<b>Level</b>	<b>GLH</b>
8	Use diagnostic and assessment tools with clients	A/502/8446	6	5	40
9	Advocate on behalf of clients	H/502/8442	4	6	40
10	Understand how to support specific client groups to overcome barriers to learning, training and work	D/502/8441	3	4	20
11	Engage with support networks to help clients to meet their career-related needs	L/502/8404	3	4	20
12	Assist clients to apply for learning, training and work	Y/502/8423	3	4	20
13	Provide ongoing support to clients	R/502/8436	2	4	15
14	Prepare to deliver services to clients in an outreach setting	M/502/8430	2	4	15
15	Source, evaluate and use Labour Market Intelligence with clients	T/502/8431	3	6	20
16	Obtain and organise career-related information to support clients	J/502/8420	3	4	20
17	Promote career-related learning to clients	F/502/8433	6	4	40
18	Plan, deliver and evaluate career-related learning in groups	D/502/8424	6	6	40
19	Evaluate service provision	H/502/8408	3	4	20
20	Undertake research on behalf of the service	J/502/8434	6	6	40
21	Lead and manage career development work in an organisation	Y/505/2625	9	6	60
22	Continuously improve career development work in an organisation	D/505/2626	6	6	40
23	Plan and design Career Related Learning Programmes	T/505/2969	5	6	20

# 4 Centre assessor and quality assurance personnel requirements

This section provides information on Centre assessor and quality assurance personnel requirements for verified qualifications.

## 4.1 Assessment centre requirements

---

The occupational knowledge and expertise of those undertaking the roles of assessment and internal quality assurance is one of the key factors underpinning valid, fair and reliable assessment. The integrity of assessments and quality assurance is of paramount importance.

Your centre must:

- make sure there are sufficient trained or qualified personnel to assess the number of expected learners
- make sure there are sufficient trained or qualified personnel to internally quality assure for the number of learners and assessors (i.e. you must have at least one assessor and one Internal Quality Assurer (IQA) to run this qualification)
- put systems and internal quality assurance personnel in place to make sure that all assessments are valid, reliable, safe and manageable and suitable to the needs of the learner
- make sure evidence is authentic and sufficient
- make sure there is a standardisation process in place to make sure that all assessments are consistent and fair
- make sure those undertaking the roles of quality assurance and assessment maintain their skills, knowledge and understanding about assessment and quality assurance and the associated qualification
- make sure there is sufficient time to conduct effective assessment and internal quality assurance
- make sure any corrective measures, identified by OCR External Quality Assurers (EQAs) and OCR, are addressed.

The occupational expertise of those undertaking the roles of assessment and internal quality assurance is one of the key factors underpinning valid, fair and reliable assessment. The integrity of assessments and quality assurances is of paramount importance. Centres must ensure that there is sufficient time to conduct effective assessment and internal quality assurance.

- Assessment decisions for criteria that must be assessed in the workplace, as identified in unit assessment requirements, must be made in a real work environment by an occupationally competent assessor.
- Assessment decisions for criteria that must be assessed in the workplace (competence based assessment criteria) must be made by an assessor with the expertise to make assessment decisions.

- Competence based assessment must include direct observation as the main source of evidence.
- Simulation may only be utilised as an assessment method for competence based assessment criteria where this is specified in the assessment requirements of the unit.
- Expert witnesses can be used for direct observation where:
  - they have occupational expertise for specialist areas, or
  - the observation is of a particularly sensitive nature.

The use of expert witnesses should be determined and agreed by the assessor.

- Assessment of criteria not identified in the unit assessment requirements as requiring assessment in the workplace may take place in or outside of a real work environment.
- Assessment decisions for knowledge based assessment criteria must be made by an occupationally knowledgeable assessor.

Assessment decisions for knowledge based assessment criteria must be made by an assessor qualified to make assessment decisions. Where assessment is electronic or undertaken according to a set grid, the assessment decisions are made by the person who has set the answers.

## 4.2 Centre assessor responsibilities

---

Assessment is an activity carried out by an individual either as a specific role or as part of a wider role, for example teacher, tutor, supervisor, manager. All centre assessors must have the role of assessor identified in their role profile.

All assessors must:

- have relevant current industry experience and competence in the occupational working area at, or above, the level being assessed. This may be evidenced through CV and references, possession of a relevant Careers or Advice and Guidance qualification, appropriate membership of a relevant professional body or Continuing Professional Development (CPD)
- have a sound understanding of the National Occupational Standards for their subject area
- hold, or be working towards, an appropriate assessor qualification (e.g. A1, CAVA, D32/33, TAQA). For those working towards an appropriate assessor qualification, it will need to be achieved within twelve months of the starting date and all decisions must be countersigned by a qualified assessor
- have direct or related relevant experience in assessment
- be committed to further training and development.

Please note that for the career guidance theory unit, assessors must hold either the QCG, DipCG, QCGD, Level 6 Diploma in Career Guidance and Development, Unit 3 of the Level 6 Diploma (Career guidance theory), Level 4 LDSS NVQ (Supporting Young People) or Level 4 Advice and Guidance NVQ. For assessors who have achieved either the LDSS or Advice and Guidance NVQ, career guidance must have been studied and applied as part of the qualification.

## 4.3 Assessment and the Data Protection Act

---

Centre assessors, who are responsible for assessing learners' evidence for internally assessed units, must make sure that learners know they must comply with the Data Protection Act 2018 and the UK General Data Protection Regulation (UK GDPR) when they are producing work for assessment. Learners must not reference another individual's personal details in any evidence produced for assessment. It is the learner's responsibility to make sure evidence that includes another individual's personal details is anonymised.

## 4.4 Internal Quality Assurance Personnel (IQA)

---

Internal quality assurance is an activity that can be performed by a dedicated individual or as part of an individual's wider role.

All Internal Quality Assurers (IQAs) must:

- be qualified as an Internal Quality Assurer (IQA) (either V1, D34 or Award in the Internal Quality Assurance of Assessment Processes and Practice)
- be occupationally knowledgeable across the range of units for which they are responsible prior to commencing the role. IQAs must also sample the assessment process and resolve differences and conflicts on assessment decisions
- ensure that assessment has been carried out by persons who are occupationally competent within the area they are assessing
- maintain their occupational knowledge by actively engaging in continuous professional development activities in order to keep up-to-date with developments within the sector.

*Please note that for the career guidance theory unit, Internal Quality Assurers (IQAs) must hold either the QCG, DipCG, QCGD, Level 6 Diploma in Career Guidance and Development, Unit 3 of the Level 6 Diploma (Career guidance theory), Level 4 LDSS NVQ (Supporting Young People) or Level 4 Advice and Guidance NVQ. For IQAs who have achieved either the LDSS or Advice and Guidance NVQ, career guidance must have been studied and applied as part of the qualification.*

For the purpose of Internal standardisation, a member of staff needs to be nominated to take responsibility for this process.

The role of the IQA is to:

- make sure all centre assessors are assessing to the required standard
- make sure that all assessment decisions are fair, valid and reliable
- make sure feedback is given to all centre assessors and documented e.g. records of feedback
- suggest ways in which assessment may be brought into line to meet the required standards
- check that all units have been included in internal standardisation
- organise regular standardisation meetings / activities / events for the centre assessors
- provide feedback to centre assessors and identify development needs.

# 5 Verified assessment

This section provides guidance on verified assessment: how to plan and manage assessment and what controls must be applied throughout the process. Your centre must comply with [OCR's criteria for verified qualifications](#). Non-compliance with the OCR Criteria will result in sanctions and actions which your EQA will discuss with you at your visit and document on the EQA report

## 5.1 Overview of the assessment

---

This qualification is internally assessed by centre assessors and quality assured by internal quality assurance personnel and externally quality assured by OCR.

### Teaching and Learning

Where teaching content is contained within the unit, it is not exhaustive and may be expanded or tailored to particular contexts in which the unit is being taught and the assessment criteria applied.

We recommend that teaching and development of subject content and associated skills be referenced to real-life situations, using appropriate work-based contact and vocationally experienced delivery personnel.

### Evidence

When you are satisfied that your learner has met all of the requirements for a unit, you must sign an evidence record sheet to confirm the assessment process is complete.

## 5.2 Initial assessment of learners

---

It is important that you carry out an initial assessment to identify learners' level of competence, knowledge and understanding and any potential gaps that need to be addressed.

This will also:

- help you and the learners identify the most appropriate optional units
- allow you to plan the assessment
- enable learners to understand the best place to start generating evidence.

## 5.3 Planning assessment

---

Centre assessors must take responsibility for planning assessment with learners. This will involve discussing details with learners including:

- agreeing the best source of evidence to use for particular units
- determining the best way of assessing the learner
- confirming the best times, dates and places for the assessments to take place
- agreeing a flexible timetable for unit completion and assessment.

Guidance is given on each unit regarding the recommended forms of assessment which are most appropriate for that unit. Utilising a wide range of evidence formats across units should help to ensure the learner's overall portfolio is robust.

Centre assessors must make a note of their assessment planning and regularly give feedback to learners.

## 5.4 Real work

---

Real work is 'where the learner is engaged in activities that contribute to the aims of the organisation by whom they are employed' for example in paid employment or working in a voluntary capacity or work placement.

Where the learner's performance is assessed within the workplace, this evidence should naturally occur within the learner's work role. This will include the learner's application of knowledge. This principle will apply to competence units, except where simulation is acceptable (see [section 5.5 Simulation](#)).

Workplace evidence may be gathered in full, part-time, casual or voluntary employment or a 'work placement' e.g. fulltime learners placed into a working environment for a day per week).

Supporting evidence for any work experience from a supervisor or manager must add to the assessment process.

## 5.5 Simulation

---

Simulation is not allowed. However, where access to assessment is put at risk by this, guidance should be sought from us and we will decide whether simulation should be allowed.

## 5.6 Methods of assessment

---

We have identified the main assessment methods suitable for this qualification:

- observation of practice by the assessor or expert witness for occupational specific units
- questioning the learner or witness by the assessor
- professional discussion
- examining work products – e.g. reports, presentations
- examining written evidence
- examining evidence from others.

It is your responsibility to agree the best method of assessing a learner in relation to their individual circumstances.

The methods agreed must be:

- valid
- reliable
- safe and manageable
- suitable for the learner.

### Valid

---

A valid assessment method is capable of measuring the knowledge or skills in question. For example, a written test cannot measure a learner's practical skills or their ability to work well with others.

Validity can be compromised if a learner does not understand what is required of them. For example, a valid method of assessing a learner's knowledge and understanding is to question them. If the questions are not relevant to the qualification or how they are phrased makes it difficult for the learner to understand the validity of the assessment method is threatened.

As well as assessment methods being valid, the evidence presented must also be valid. For example it would not be appropriate for the learner to present the organisation's staff handbook to demonstrate Unit 1 Learning outcome 4, regarding legislation and codes of practice. It would be more appropriate for the learner and assessor to have a discussion about what legislation and codes of practice apply to the organisation and how the learner knows that he/she is working in accordance with these.

### Reliable

---

A reliable method of assessment produces consistent results across different centre assessors on each assessment occasion. Internal quality assurance personnel (IQA) must make sure that all centre assessors' decisions are consistent.

## Safe and manageable

---

Centre assessors and IQA must make sure that assessment methods used are safe and manageable and do not put unnecessary demands on the learner and/or the organisation they work for.

Suitable to the needs of the learner

We have designed this qualification so that achievement is accessible to all learners, in the context of the units.

For learners who have access requirements please see [section 8.6 Accessibility](#).

If centre staff think that any aspect of this qualification unfairly restricts access and progression, they should talk to their OCR EQA about this.

## 5.7 Authentication

---

Assessors must be confident that the work they assess is the learner's own. This does not mean that a learner must be supervised throughout the completion of all work but the assessor must exercise sufficient supervision, or introduce sufficient checks, to be in a position to judge the authenticity of the learner's work.

Wherever possible, the assessor should discuss work-in-progress with learners. This will not only make sure that work is underway in a planned and timely manner but will also provide opportunities for assessors to check authenticity of the work and provide general feedback.

Where permitted by the unit, the work of individual learners may be informed by working with others, for example, in undertaking research, but learners must provide an individual response as part of any task outcome.

## Plagiarism

---

Learners must not plagiarise. Plagiarism is the submission of another's work as one's own and/or failure to acknowledge the source correctly. Plagiarism is considered to be malpractice and work submitted for external quality assurance where plagiarism is suspected will be reported to OCR and investigated. The outcome of the investigation may involve sanctions/penalties imposed on learners, staff and/or the centre.

Plagiarism sometimes occurs innocently when learners are unaware of the need to reference or acknowledge their sources. It is therefore important that centres make sure that learners understand that work they submit must be their own and that they understand the meaning of plagiarism and what penalties may be applied. Learners may refer to research, quotations or evidence but they must list their sources.

If learner work has been copied from a published or electronic source, and has been referenced, this can still be classed as plagiarism. Where the copied work cannot be considered to be his/her own independent work and/or does not demonstrate the learner's own practice, understanding and knowledge of the subject.

The [JCQ Plagiarism in Assessments Guidance for Teachers/Assessors](#) provides further information.

## Resubmitting work for assessment

---

While there are no restrictions on the number of times that a learner can resubmit evidence, it is the responsibility of the assessor to make sure that the details of any feedback and guidance are clearly recorded.

Resubmission at the centre assessment stage is intended to allow the learner to reflect on feedback and improve, but not to be an iterative process where they make small modifications through ongoing feedback to eventually achieve the desired level.

**Please note:** Your centre must confirm to us that the evidence produced by learners is authentic. The Evidence Record Sheet includes a declaration for learners to sign and is available from the webpage.

## 5.8 Making assessment decisions

---

Learners are not required to meet all the criteria every time they carry out an activity, but **it is necessary that all learners produce evidence to demonstrate they have met all assessment criteria in the unit.**

They must consistently provide sufficient evidence for you to be able to confirm that your learner is competent in their working environment.

Assessors should:

- plan with the learner
- assess learner performance, knowledge and understanding
- look at the evidence
- question and give feedback to the learner working towards the qualifications being assessed.

All criteria in the unit must be completed before you as centre assessor can sign the unit off as complete.

## 5.9 Generation and collection of evidence

---

Learners' evidence should be in an appropriate format to demonstrate the skills, competency, or application of knowledge and understanding, as specified in each assessment criterion within the unit in question.

Evidence can take many forms, for example, written work, audio/visual recordings, digitally formatted documents, a product or photographs (of a product).

If group work is used as evidence, the learner's contribution must be clearly identified.

Evidence can come from a number of sources. A list of the main sources of evidence is provided below:

- [Observation](#)
- [Questioning](#)
- [Professional discussion](#)
- [Work products](#) – the outcome or product of a learner's work activity
- [Witnesses testimonies](#)
- [Personal or learner statement](#)
- [Assignments, tasks, projects or tests.](#) – centre devised projects e.g. a case study
- [Simulation](#) (if allowed).

Learners should take responsibility for the development of their own portfolios, with appropriate support from tutors, employers, peers. They should be aware of the need for clear presentation and ordering as an aid to assessment and referencing once the work is submitted.

Where evidence is relevant to more than one assessment criterion in one or more units, the learner should cross-reference the evidence within their unit portfolio so that it can be considered by you as centre assessor and by the OCR External Quality Assurer (EQA) if required.

Evidence record sheets are available to download from our website. Learners can use these sheets to record their evidence and link it to the assessment criteria in one unit. You **must** use this sheet or your own suitable alternative to allow the OCR External Quality Assurer (EQA) to see which assessment criterion each piece of evidence refers to.

Learners must not reference another individual's personal details in any evidence produced for summative assessment. It is the learner's responsibility to make sure evidence that includes another individual's personal details is anonymised to comply with the Data Protection Act 2018 and the UK General Data Protection Regulation (UK GDPR).

## 5.10 How much evidence is needed?

---

It is difficult to give detailed guidance regarding the amount of evidence needed, as it depends on the type of evidence collected and the judgement of centre assessors.

It is not the quantity of the evidence produced; it is the quality and breadth of evidence, that they have produced themselves, ensuring it meets all of the assessment requirements and assessment criteria.

Centre assessors should discuss with learners the most suitable sources of evidence and ensure learners are aware of the importance of quality rather than quantity when presenting evidence for assessment. The quality and breadth of evidence presented should determine whether a centre assessor is confident that a learner has met the requirements of the unit.

Assessors must be convinced, from the evidence presented, that learners working on their own can work independently to the required standard.

## 5.11 Assessment of the evidence

---

It is the assessor's responsibility to:

- assess the evidence presented by the learner
- provide feedback to the learner
- make an assessment decision which will be confirmed through internal and external quality assurance.

Assessors will judge learners' evidence against the assessment criteria specified in the unit.

## 5.12 Observation

---

Centre assessors may carry out observations of a learner undertaking activities or tasks and make an assessment decision based on the learner's performance, i.e. what they can do or the process they have gone through.

Sometimes, the observation can also provide inferred evidence of what a learner knows.

The observation should be of naturally occurring practice within the learner's work role.

Centre Assessors and learners should plan observations together but it is the centre assessor's responsibility to record the observation. After the observation has taken place, you must record an assessment decision and the justification for the decision. This should include sufficient information about what was observed to ensure the assessment criteria has been met and enable the assessment to be quality assured. Centre assessors should also give feedback to the learner.

## 5.13 Questioning

---

Centre assessors may question a learner for the assessment of this qualification.

Questioning the learner is usually an on-going part of the assessment process, and it is necessary to:

- test a learner's knowledge of facts and procedures
- check if a learner understands principles and theories *and*
- collect information on the type and purpose of the activities a learner has been involved in.

For the most part, you should use open ended questions; i.e. questions that cannot be answered by the learner with one word responses (e.g. 'yes' or 'no'). Open ended questions require thought and detail in order to answer the question. You should be careful to avoid complicated questions which may confuse the learner.

It is important that you record assessment decisions after you have questioned the learner. You must record enough information to justify your decisions. This does not mean that you must record the questions and answers, word for word, but you must record enough detail to allow the assessment to be quality assured.

## 5.14 Professional discussion

---

Professional discussion is a structured, planned and in-depth discussion recorded by your centre assessor. It allows the learner to present evidence of competence and to demonstrate skills, knowledge and understanding through discussing the evidence and showing how it meets the requirements of the qualification.

The purpose of the discussion is to explore the level of the learner's competence and ensure their actions are based on a firm understanding of principles which underpins the competence.

You should guide the discussion by using open questioning and active listening.

## 5.15 Work products

---

Work products are produced in the workplace. They should be of naturally occurring practice within the learner's role. The evidence presented for assessment may be the actual product or a record of the product e.g.: business letter, email, plan, spreadsheet.

## 5.16 Witness statements

---

Witness statements are a record of witness testimonies. A witness statement is used to support work or evidence sourced from confidential or sensitive material e.g. data protection. It should not be used to evidence achievement of a whole unit.

The witness must not be related to the learner and must be in a position to make valid comments about their performance, e.g. tutors or workplace supervisors.

It is not acceptable for learners to produce written witness statements for witnesses to sign.

Witness statements:

- must describe what they witnessed the learner doing
- can be written or verbal accounts of the learner's performance
- do not have to be written by the witness, they may be recorded by the assessor after discussion with the witness and confirmed as accurate by the witness
- can be used to directly support work or as evidence of work based on confidential or sensitive sources e.g. data protection
- should not contain a list of skills
- should not be used as evidence of achievement for a whole unit.

A centre assessor will then judge whether the evidence presented meets the standards required by the assessment criteria for the unit. Often it will be necessary for assessors to contact witnesses to ensure:

- the witness statement is authentic
- the assessor's interpretation of the witness statement is accurate.

Where a witness provides a written statement they should include the following:

- the learner's name
- the date, time and venue of the activity
- a description of the activities performed by the learner
- the date the statement was written
- a description of their relationship to the learner
- the witness' signature and job title
- the witness' contact details (e.g. telephone number).

## 5.17 Personal or learner statement

---

This is a learner's own account of what they did.

Personal statements can be a:

- written or verbal account of specific incidents, activities or situations
- log or diary
- reflective account.

All personal statements made by learners must be authenticated, as a true account of what took place, by an appropriate witness e.g. tutor, employer, peer.

## 5.18 Assignments, tasks, projects or tests

---

For some units it may be appropriate for your centre to devise assignments, tasks, projects or tests. This provides your centre with opportunities to meet the needs of the learner and local employers.

Centres will need to ensure that any assignments, tasks, projects or tests enable learners to meet all of the assessment criteria in the units.

Your centre is best placed to decide on an appropriate context for the assessment for your learners.

Tutors must ensure learners are clear about the tasks they are to undertake and the assessment criteria which they are expected to meet.

## 5.19 Recording evidence

---

As well as collecting evidence, learners must record all their assessed evidence using:

- Evidence recording sheets (which show, per unit, the assessment criteria and the evidence which has been collected to meet them)
- Record of achievement (which shows the units the learner has completed, and which have been signed off by the assessor).

The combination of these forms provides the learner's record of what evidence has been accepted as proof of competence and where that evidence can be found, as well as recording progress towards, and achievement of units.

Completing the forms is an ongoing process involving discussion and agreement between the learner and their assessor. The learner should fill in and keep the forms while working towards their qualification, though an assessor may help the learner fill them if necessary.

OCR provides forms specifically designed for this qualification, but centres can design their own recording documents if they prefer. You should talk about any document you want to use with your EQA before you use them. [OCR Administration area - Other vocational qualifications](#) includes information and criteria for designing recording documents.

The OCR forms and recording documents which assessors and learners might want to use for this qualification can be found on the qualification [webpage](#).

E-portfolio systems, if used instead of paper portfolios, will generate evidence referencing and scoring.

## 5.20 Quality assurance – how it works

---

### Internal quality assurance

---

It is your centre's responsibility to appoint internal quality assurance personnel (See [section 4.4 Internal Quality Assurance Personnel \(IQA\)](#)) to manage the internal quality assurance (IQA) process.

The purpose of internal standardisation is to monitor standards and to ensure consistent and reliable assessment decisions across all staff, ensuring that all assessment requirements of the qualification are met. Internal standardisation provides a system for checking the quality of assessment to make sure that it is, valid, authentic, current, and reliable.

For this qualification you must carry out internal quality assurance to make sure that all learners' evidence is assessed consistently to the required standard.

A nominated member of staff (IQA) at your centre must take responsibility for the process and will:

- advise on interpretation of the standards, including feedback from previous assessments (where relevant)
- provide advice and support to centre assessors (staff who are assessing the qualification)
- monitor and observe assessment practice to ensure that all assessments are in line with the required standards.
- make sure feedback is given to all centre assessors and documented e.g. records of feedback
- maintain quality assurance documentation
- liaise with the allocated EQA.

There are three stages of assessment where internal standardisation plays a vital role: setting of assessments – including devising and/or modifying by centres, production of evidence and expectations and standardising centre staff assessment decisions.

Internal standardisation is an ongoing process and should always include the following formal stages:

- review centre devised / modified assignments, if relevant
- standardise assessment decisions
- sample assessment evidence
- review assessment practices.

[A guide to internal standardisation for vocational qualifications](#) is available on the OCR website.

## External quality assurance

---

Once you make learner registrations, we will allocate an EQA who will arrange to visit your centre to verify your assessments and internal quality assurance. OCR will contact you to request information on the learners and assessment staff is sent to the EQA.

EQA visits take place twice a year (roughly 6 months apart) and at the end of each EQA visit a provisional date is agreed for the next visit. Visits take place irrespective of whether certification claims have been made as learners are sampled mid-qualification as well as at the point of certification. When learners have completed units of the qualification and they have been assessed and internally quality assured, claims for the units or full awards can be made via OCR Interchange.

The EQA **must** interview learners, centre assessors and internal quality assurance personnel during their visits.

For each external quality assurance visit your centre must have available and provide access to the OCR EQA:

- the learner assessment records for all learners
- all evidence/portfolios for learners certificated by Direct Claims Status (DCS) since the last EQA visit
- the portfolios for learners the EQA has requested to sample
- assessments taking place for observation, when requested/arranged
- OCR's on-line claim system (Interchange)
- as requested by the EQA, learners, centre assessors and internal quality assurance personnel which may include any claims for certificates through Direct Claims Status (DCS)
- a sample signature list for all centre assessors and internal quality assurance personnel
- details of training, curriculum vitae and original certificates for new members of the assessment team. Authorised copies of original certificates and updated documents for existing assessment team members
- all centre records, see the next section for more details
- evidence of achieving action points and/or recommendations since the last EQA visit,
- if recorded evidence is used, make sure all recordings and appropriate playback equipment is available.

## Centre records required for quality assurance

---

Your centre must make sure that internal quality assurance and learner assessment records are available for external quality assurance purposes. These records must be securely held by your centre for a minimum of three years following learner achievement of the qualification (i.e. from the date of certification).

As a minimum these must record the following information:

- the learner's name and location
- the title and level of the qualification they are taking
- the learner's start date on the programme and confirmation of learner entry

- the name of the centre assessor
- the name of the internal quality assurance personnel
- the date and outcome of the initial assessment of the learner
- dates and details of learner reviews and feedback sessions
- assessment method(s) used
- dates of all assessments and their outcomes (that is, the decision whether the learner has met the requirements or not) cross-referenced to the unit
- enough detail of the assessments to justify the decision made
- an indication of the frequency, and reason for, the use of simulation, if used
- dates and outcomes of internal quality assurance
- action resulting from internal quality assurance
- learner's achievement(s).

Records should show formative assessment decisions (ongoing decision making), summative assessment decisions and feedback to the learner.

## OCR External Quality Assurer (EQA) reports for centres

---

Our EQA will report against the [OCR criteria for verified qualifications](#). Our EQA will use the report to provide feedback to your centre and to OCR.

All EQA reports are reviewed by OCR and their actions/recommendations are considered. The final decision on the application of sanctions at Level 2 or above lies with OCR.

If your centre is found to be non-compliant with any of the OCR criteria this will result in action(s) and appropriate sanction(s) being recommended. When a sanction is recommended there will always be one or more actions for your centre to address.

If you wish to appeal a sanction or EQA decision then you should follow the link to [OCR Administration area - Post result services](#).

## 5.21 Direct Claim Status (DCS)

---

Centres who consistently meet all the required criteria and deliver high quality assessment for an individual qualification over approximately a twelve month period could be awarded DCS. This is when centres can claim certification for identified qualifications in between their EQA visits. Please see the [OCR Administration area - Direct claim status](#) for more details.

The decision on whether DCS is awarded, retained, or withdrawn lies with OCR.

In addition to the checks made by the OCR EQA during an EQA visit, OCR (not EQAs) will undertake short notice record reviews of DCS claims. OCR will contact centres and request a copy of their candidate claims record.

## Critical points regarding Direct Claim Status

---

- A **candidate claims record** must be completed and maintained for all claims made via DCS. A [template](#) is available for this or centres can create their own record or use an existing report from a management information system. The record must include learner and unit details for any DCS claims made since the centre's last quality assurance visit.
- Centres will keep assessment and internal quality assurance records relating to learners for who direct certification has been claimed for at least three years from the date of the claim. These records will include learner names and registration numbers with details of assessment decisions, internal quality assurance and claims for certification.
- Centres **must** advise OCR immediately of any staffing or resource changes. Where Internal Quality Assurers (IQAs) change, we reserve the right to remove DCS pending the evaluation of a new IQA. Direct Claim Status may be removed at any time if we believe that the above information is no longer current or the assessment and quality assurance at the centre is compromised.
- All portfolios for learners certificated via DCS since the previous quality assurance visit must be available to the EQA on request during the visit. This is in addition to the portfolios pre-selected for sampling by the EQA.
- All learners, including any who leave the centre following certification via DCS, must be asked to retain their portfolios and Cumulative Assessment Records (CARs) in good condition until the next EQA visit **for the qualification** claimed.
- Certificates issued under DCS must be confirmed through a quality assurance visit. If a portfolio is not available for sampling by the OCR EQA when requested or the work in the portfolio does not meet the required standards the certificate may be considered invalid. In these circumstance OCR may request the return of the certificate for withdrawal. Centres are expected to support learners to complete work to meet the standards and/or enable OCR to sample the portfolio.
- Please note that centre practice that has resulted in OCR issuing an invalid certificate is considered to be malpractice as defined in the JCQ Suspected Malpractice: [Policies and Procedures document](#) and which the Head of Centre may be required to investigate. This may result in sanctions and/or penalties being imposed on the centre and/or member(s) of staff in the centre.
- Centres must ensure that an EQA visit takes place before they close, withdraw from delivering the qualification and/or the last certification date of a qualification. All learners claimed by DCS since the last EQA visit must be included for sampling by the EQA at the final visit.
- Direct Claims Status will be withdrawn from all centres 3 months before the last certification date of a qualification or after the final EQA visit to the centre, whichever is sooner.
- The decision on whether DCS is awarded, retained or withdrawn lies with OCR. OCR reserves the right to remove DCS at any time without notice.

## Direct Claim Status additional quality checks

---

- Your candidate claims record will be requested and reviewed by OCR (not the EQA) **as additional short notice quality checks** of DCS claims **made by centres between EQA visits**.
- Copies of your candidate claims record may be requested over the course of the year depending on the number of DCS claims which are made.
- When requested, you will need to email us a copy of the record **within three working days**.
- We will then check your candidate claims record against your DCS claims on our system and let you know if there are any issues or not.
- Please refer to the [OCR criteria for verified qualifications](#) in respect of sanctions that may be imposed if issues are identified during a short notice quality check.

## 5.22 Reporting suspected malpractice

---

It is the responsibility of the Head of Centre<sup>1</sup> to report all cases of suspected malpractice involving centre staff or learners. A JCQ Report of Suspected Malpractice form (JCQ/M1 for learner suspected malpractice or JCQ/M2 for staff suspected malpractice) is available to download from the [JCQ website](#) and should be completed as soon as possible and emailed to [malpractice@ocr.org.uk](mailto:malpractice@ocr.org.uk).

When asked to do so by OCR, Heads of Centres are required to investigate suspected instances of malpractice promptly and report the outcomes to OCR.

More information about reporting and investigating suspected malpractice and the possible sanctions and penalties which could be imposed, is contained in the [JCQ Suspected Malpractice Policies and Procedures document](#) available from the [JCQ website](#). Centres may also like to refer to the [OCR Website](#) for more details.

---

<sup>1</sup> This is the most senior officer in the organisation, directly responsible for the delivery of OCR qualifications, e.g. the Head Teacher or Principal of a school/college. The Head of Centre accepts full responsibility for the correct administration and conduct of OCR assessments

# 6 Support

## 6.1 Free resources

---

The following materials are available on our website:

Support materials

- [Guidance for learners](#)
- [Guidance on theories, concepts and sources of research for the Level 6 unit on Career Guidance Theory](#)
- [Skills Guide portfolio](#)
- [Mapping – Level 4 Advice and Guidance NVQ to Level 6 Career Guidance and Development Diploma](#)
- [Mapping – Level 4 LDSS NVQ to Level 6 Career Guidance and Development Diploma](#)
- [Mapping – Unit 15 to Warwick University LMI on-line resource](#)
- [Mapping – Unit 6 to Warwick University LMI on-line resource](#)
- Chief Verifier annual report

Assessment recording forms which can be used in learners' portfolios:

- Evidence record sheet
- Evidence log
- Record of achievement

We recommend that your centre uses the assessment documents listed. You are free to design your own recording sheets for your learners to use, but you must make sure that they capture similar information to the OCR recording documents and are acceptable to the centre's OCR External Quality Assurer (EQA).

## 6.2 Our professional development programme

---

As part of our teacher training we offer a broad range of courses. We are constantly looking for ways to improve the support we offer you and to make our professional development programme more accessible and convenient to all.

To find out more about professional development, please visit our [website](#).

## 6.3 Useful documents and links

---

CCEA	<a href="http://ccea.org.uk/">ccea.org.uk/</a>

# 7 Certification

Learners who achieve the full qualification will receive:

- a unit certificate listing the unit or units achieved, with their related credit value and the unit reference number(s), and
- a certificate stating the full qualification title and the qualification number.

Learners who achieve one or more units but who do not meet the credit requirements for a full qualification will receive a certificate listing the units they have achieved along with their credit value.

## 7.1 Claiming certificates

---

Certificates (unit and/or full award) issued for learners will be sent to your centre for distribution. In order to make sure that these are automatically issued, you must make sure that the OCR learner number is **always** used where a learner has already achieved one or more units. For more details refer to the [OCR Administration area – Certificates](#).

Please ensure you carry out careful checks before making certification claims to avoid incorrect/invalid certificates being issued. Before submitting a claim, carefully check to make sure the correct units have been selected and the correct grades have been entered. You must check each certificate you receive before handing it to the learner.

## 7.2 Assessment review/appeals

---

Learners appealing against their assessor's assessment decision should follow the centre's appeal process.

If a centre wishes to appeal against the OCR EQA's assessment decision they should request that their EQA submit their appeal to the Chief EQA.

Centres can appeal against the outcome of a malpractice case and sanctions imposed due to non-compliance with the OCR criteria.

To find out more about these, please refer to [OCR Administration area - Post result services](#).

## 7.3 Replacement certificates

---

For details on replacement certificates refer to the [OCR Administration area – Certificates](#).

# 8 Other information

## 8.1 Avoidance of bias

---

We have taken great care in the preparation of this qualification to avoid bias of any kind. Special focus is given to the eight strands of the Equality Act with the aim of ensuring both direct and indirect discrimination is avoided.

## 8.2 Regulatory requirements

---

We will assess this qualification in accordance with the qualifications regulator's General Conditions of Recognition.

## 8.3 Mode of delivery

---

OCR does not specify the mode of study or specify a time limit for the achievement of these qualifications other than the expiry dates for entry and certification laid down by the regulatory authorities detailed in the qualification profiles.

You are free to deliver this qualification using any mode of delivery that meets the needs of your learners. Whatever mode of delivery is used, you must ensure that learners have appropriate access to the resources.

You should consider the learners' complete learning experience when designing learning programmes. This is particularly important where learners are studying part time alongside work commitments where learners may bring with them a wealth of experience that should be utilised to maximum effect by your staff.

We do not specify the mode of study or a time limit for the achievement of this qualification other than the last entry/last certification dates. If we are going to withdraw a qualification we will set an end date for entries and certification and we will tell you what the arrangements are for the last date to enter learners and make claims for certificates.

## 8.4 Delivery in Wales and Northern Ireland

---

Learners in Wales and Northern Ireland should not be disadvantaged by terms, legislation or aspects of government that are different from those in England. Where such situations might occur, we have used neutral terms so learners may apply whatever is appropriate to their own situation.

We will provide handbooks and supporting documentation in English. Only answers provided in English will be assessed.

## 8.5 Recognition of Prior Learning (RPL)

---

Recognition of prior learning (RPL) is the process for recognising learning that never received formal recognition through a qualification or certification. This includes knowledge and skills gained in school, college or university and outside formal learning situations. Evidence can draw on any aspect of a learner's prior experience including:

- domestic/family life
- education
- training
- work activities
- voluntary activities.

We encourage the use of RPL and your centre should advise learners that they can bring forward any relevant learning (gained either informally or formally) so that it can be assessed against the assessment criteria specified in the unit, or units, the learner aims to complete. It is important that your centre make it clear to learners that the RPL process is concerned with how the learner has acquired the knowledge, understanding or skills, it does not mean the learner is exempt from the assessment e.g. mandatory exams, practical/theory tests or assignments.

The currency of knowledge and ability is often important when recognising skills and competences. Where assessment is devolved to centres through assignments or portfolio-building, centre staff must judge the relevance of prior learning in all its aspects (including currency) to the qualification being assessed, before we will quality assure and authorise certification.

Evidence obtained through the RPL process must be assessed, to the same rigorous quality as evidence obtained through any other process.

## 8.6 Accessibility

---

There can be adjustments to standard assessment arrangements on the basis of the individual needs of learners.

It is important, therefore, that your centre identifies as early as possible whether learners have disabilities or particular difficulties that will put them at a disadvantage in the assessment situation and select an appropriate qualification or adjustment that will allow them to demonstrate attainment.

The responsibility for providing adjustments to assessment is shared between the centre and OCR. Please read the JCQ booklet *Access Arrangements and Reasonable Adjustments* at [www.jcq.org.uk](http://www.jcq.org.uk).

If the tutor/assessor thinks any aspect of this qualification unfairly restricts access and progression, please email or call the [OCR Customer Support Centre](#).

## 8.7 Wider issues

---

Opportunities for you to develop learners' understanding of wider issues: spiritual, moral, ethical, social, legislative, economic and cultural issues as well as an awareness of sustainable development and health and safety considerations.

### Spiritual, moral, ethical, social, legislative, economic and cultural issues

---

Centre staff delivering a course that supports this qualification would have opportunities to address spiritual, moral, ethical, social and cultural issues. For example, in Unit 1, learners will explore issues of social responsibility, courtesy and protocols when dealing with colleagues and clients. In Unit 9, learners will have to consider the moral issues surrounding their use of advocacy skills on behalf of clients. In Unit 11, learners will need to consider the ethical considerations when dealing with a wide range of people who may be able to support their clients. Unit 12 requires appreciation of correct protocols when preparing CVs and applications, and gives scope to explore issues of security and confidentiality of information. Unit 18 will give learners the opportunity to consider ethical, social and cultural implications when planning and delivering learning in groups.

Environmental issues and health and safety considerations Centre staff delivering a course that supports this qualification may have opportunities to address environmental issues and health and safety considerations depending on the method of delivery/choice of teaching materials.

There is scope within many of the units for learners to consider environment and sustainability issues when providing information and guidance to clients about their options. Learners might consider not only the nature of the work or training itself, but the organisation providing that employment or training, its location and long term future. There might be additional issues such as the client's travel arrangements, or working patterns. Unit 14 includes coverage of risk assessment when undertaking outreach work and Unit 18 will require learners to consider health and safety implications when planning and delivering group learning. Unit 15 will include evaluation of international labour markets..

# 9 Contacting us

## 9.1 Feedback and enquiries

---

We aim to provide consistently great customer service and your feedback is invaluable in helping us to achieve our goal. For questions about our qualifications, products and services, please contact the [Customer Support Centre](#). To leave your feedback on the OCR website, people and processes please use our [feedback form](#).

**Write to:** Customer Support Centre  
OCR  
Progress House  
Westwood Way  
Coventry  
CV4 8JQ

Telephone: 01223 553998

Email: [support@ocr.org.uk](mailto:support@ocr.org.uk)

Alternatively, you could visit OCR's website at [www.ocr.org.uk](http://www.ocr.org.uk) for further information about OCR qualifications.

## 9.2 Complaints

---

We are committed to providing a high quality service but understand that sometimes things can go wrong. We welcome your comments and want to resolve your complaint as efficiently as possible.

To make a complaint please follow the process set out in our complaints policy

# 10 Glossary

## 10.1 Command words

---

<b>Analyse</b>	Examine in very close detail, identify important points and main features.
<b>Critically analyse</b>	Consider the claims of theorists, governments, authorities etc., what they are based on and how far they seem to apply to a given situation.
<b>Apply</b>	Put into operation or use. Use relevant skills/knowledge/understanding appropriate to context.
<b>Assess</b>	Offer a reasoned judgement of the standard/quality of situation/skills informed by relevant facts.
<b>Compare</b>	Identify similarities and differences.
<b>Consider</b>	To think about the content of a topic, options and what to do next.
<b>Contrast</b>	Identify differences.
<b>Critique</b>	To subjectively review information/views and offer different perspectives.
<b>Demonstrate</b>	Show in an explicit way.
<b>Define</b>	State or describe the nature, scope or meaning.
<b>Deliver</b>	To provide information or activity.
<b>Describe</b>	Give an account, including all the relevant characteristics, qualities, or events.
<b>Determine</b>	Find out, decide, e.g. what is relevant. To find a solution by following a set of procedures or to obtain a numerical value by carrying out a series of calculations.
<b>Discuss</b>	Give an account that addresses a range of ideas and arguments.
<b>Establish</b>	To show something is true by confirming or determining the facts.
<b>Evaluate</b>	To consider the worth or value of something and to make a judgement by discussing its strengths and weaknesses.
<b>Critically evaluate</b>	To consider the worth or value of something and to make a judgement by discussing its strengths and weaknesses. Theories, opinions and models will be used when assessing strengths/weaknesses and making judgements.
<b>Examine(d)</b>	To look at, inspect, or scrutinise carefully, or in detail. Investigate closely.
<b>Explain</b>	To give account of the purposes or reasons.

<b>Explore</b>	To find out about something such as a process or theory.
<b>Identify</b>	Recognise, list, name or otherwise characterise.
<b>Inform</b>	To provide through different formats, facts, information or speculation.
<b>Interpret</b>	Translate information into recognisable form. Convey understanding to others, e.g. in a performance. Explain the meaning of something.
<b>Justify</b>	Present a reasoned case for actions or decisions made.
<b>Measure</b>	Establish a value using a suitable measuring instrument or technique.
<b>Monitor</b>	A method or way of checking a process, progress of an activity or record keeping.
<b>Negotiate</b>	To overcome an obstacle by discussion and compromise to reach agreement.
<b>Outline</b>	A description setting out main characteristics/points.
<b>Plan</b>	Consider, set out and communicate what is to be done.
<b>Present</b>	Produce an exposition/resumé for an audience, e.g. at the conclusion of the project to demonstrate what has been done and the outcome.
<b>Promote</b>	Put forward and emphasise a particular course of action or possible solution.
<b>Recommend</b>	Suggest/put forward as being appropriate, with reasons why.
<b>Reflect</b>	Look back upon and appraise, relate to, e.g. to stated aims. Give contemplative, balanced consideration to an issue or action.
<b>Research</b>	Investigation into and study of materials and sources to establish facts and reach conclusions.
<b>Review</b>	Survey information, methods, outcomes, conclusions, after the event, deciding what was effective or not.
<b>Summarise</b>	To sum up or to put things into your own words or to create a precis of the information discussed.
<b>Understand</b>	To interpret and make sense of the meaning of different forms of communicated information or views.
<b>Use</b>	Apply the information provided or apply prior learning. To put into service or action. Employ for a given purpose.

## 10.2 Sector specific words

---

<b>On-going support</b>	Support clients on an ongoing basis to help them to progress their plan of action This could be where the client is working directly with you or where a particular aspect of their case has been referred to another service.
<b>Referral</b>	Determine a more detailed picture of the needs of the client and then obtaining a booked appointment for the client with another agency, where the referring agency for reasons of specialism or capacity is unable to assist the client further.
<b>Signposting</b>	Where a client is simply directed to one or more appropriate sources of information, advice or guidance. An example of this would be giving the client telephone numbers of local agencies.
