General Certificate of Secondary Education

Unit **B013**: Principles of Child Development

Mark Scheme for January 2012

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, OCR Nationals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by Examiners. It does not indicate the details of the discussions which took place at an Examiners' meeting before marking commenced.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the Report on the Examination.

OCR will not enter into any discussion or correspondence in connection with this mark scheme.

(c)	Shelter/home Food Warmth Clothing Hygiene/cleanliness Fresh air/sunshine Love Security/safety/protection Support/encouragement/praise Role model/values/training/discipline/guidance Rest/sleep Socialisation Opportunity to learn/stimulation/play/talk to/give attention/educate Stability	4x1	

Question		Answer		Marks	Guidance
	(d)	Two types of foster care with matching descriptions required.		4	
				2x2	
		Type of foster care	Description		
		Emergency	When children at risk need somewhere safe for a few nights		
		Short term	Child looked after for a few weeks/months while plans are made for child's future/home problems are sorted/temporary/family gets paid		
		Short breaks/respice	Child with long term illness/Special needs - child stays with a family to give own family a break		
		Long term	Children who do not want to be adopted stay in long term care until adulthood		
		Specialist therapeutic	For children with complex needs/challenging behaviour		
		Family/friendship/kinship	Lives with a family member if parent/carer has died		
			Total	15	

Question			Answer	Marks	Guidance	
3	(a)	(i)	44mg.	1	Answers must include units	
		(ii)	Breast.	1		
		(iii)	1.2 g.	1	Answers must include units	
		(iv)	Damage to kidneys/kidneys not mature enough to cope with large quantities/ cause dehydration.	1		
	(b)		Three features with matching explanations required.	6 3x2		
			Wide neck Measure on the side Easy to read measures Cap/lid Clear plastic	Easy cleaning/easy to fill Accurate measuring Prevent mistakes/know how much milk baby has taken To keep teat clean Ensure bottle is clean		Can mix and match explanations as long as they are accurate
			Sealing disc Designed to allow teat to be placed upside down in bottle for travelling/storage Shaped bottle	Keep sterile/to prevent contamination/bacteria entering Prevent spillage/leakage Easier to grip/hold when feeding		

Question		Answer	Marks	Guidance
		Correct size of teat/hole of teat	Too small creates frustration, too large lets in too much air	
	(c)	Parenting problems/parents not coping Special needs child Financial problems Violence in the home Child protection/abuse/at risk Neglect Housing problems/unsafe/damp Provision of statutory services/signposting Advocacy Assessment Long term illness/death/in hospital Fostering/work with foster parents.	3x1	Illness must be qualified
	(d)	They do not know what benefits are available Not aware to what they are entitled/ignorance Forms too difficult /don't understand how to complete Language barrier/poor English Poor literacy skills/cannot read or write/illiterate Embarrassment/seen as charity or handout/too proud/think they don't deserve it Frightened to ask Don't know who to ask/where to go to ask.	2x1	
Total			15	

Question		Answer		Marks	Guidance	
					Content	Levels of response
4		Rear facing baby seat	<p>Group 0: for babies up to 10 kg (22 lbs) from birth to 6-9 months or Group 0+:for babies up to 13kg (29lbs) roughly from birth to 12-15 months. They can be used in the front or rear of the car. It is safer to put them in the rear. DO NOT put them in the front seat if there is a passenger airbag. Rearward-facing seats provide greater protection for the baby's head, neck and spine than forward-facing seats.</p>		<p>Marks are allocated according to the quality of the response. Candidates should be able to show their depth of knowledge and understanding, using correct terminology.</p> <p>In order to achieve a High Level response, both areas must be addressed in detail.</p> <p>A candidate answering only one part of the question well remains in the Limited Response level and can access up to 7 marks only. Must be answered well, with clear descriptions and/or explanations.</p> <p>If candidates respond by giving answers in a list, they remain in the Low Level response.</p> <p>Bullet point sentences can achieve up to the Limited Response level only.</p>	<p>High Level Response 13-15 The candidate describes in detail types of child restraints for children when travelling in a car and gives comprehensive explanations of the different safety labels found on items that could be bought for a child. The information will be presented in a clear and organised way. A whole range of specialist terms are used with precision. The candidate can demonstrate the accurate use of spelling, punctuation and grammar.</p> <p>Good/Satisfactory Response 9-12 The candidate describes some types of child restraints for children when travelling in a car and give some explanations of the different</p>

Question		Answer	Marks	Guidance	
				Content	Levels of response
		Forward facing child seat			<p>safety labels found on items that could be bought for a child. Information will be offered to support the answer but in general terms with little detail. The information will be offered in a structured format. The candidate can use a range of specialist terms with facility. There may be occasional errors in spelling, punctuation and grammar.</p> <p>Limited Response 5-8 The candidate gives some valid types of child restraints for children when travelling in a car and/or the different safety labels found on items that could be bought for a child, but explanations may lack detail. Some information will be relevant. The candidate uses some specialist terms, although these may not always be used appropriately. There may be errors in spelling, punctuation and grammar.</p>

Question			Answer	Marks	Guidance	
					Content	Levels of response
			<p>Booster seat</p> <p>Group 2: for children weighing up to 15kg, 4 to 6 years approx. Booster seats with adult seat belt that goes around the child and the seat. So it is important that the seat belt is correctly adjusted. The basic points to note are: the belt should be worn as tight as possible, the lap belt should go over the pelvic region, not the stomach, the diagonal strap should rest over the shoulder, not the neck.</p>			<p>Low Level Response 0-4 The candidate is likely to give limited, muddled or incorrect answers generally with no real knowledge. Answers may be in the form of a list. Answers may not always relate to the question. Answers may be ambiguous or disorganised. There will be little or no use of specialist terms. Errors of grammar, punctuation and spelling may be intrusive.</p>
			<p>Booster cushion</p> <p>Up to 22kg or 6-11 years to be raised high enough to see out of window and used with an adult seat belt.</p>			

Question			Answer	Marks	Guidance	
					Content	Levels of response
		Carry cot restraints/baby safe sleeper	Must have hard sides/baby laid flat/ fitted with a special belt or harness/placed on rear seat.			
		Isofix with child seat	ISOFIX (International Standards Organisation FIX) is a new standard for car seat installation that's being adopted by car seat manufacturers worldwide. The system operates through ISOFIX points on the back of the child car seat that plug into ISOFIX fittings in the car, creating a solid link between the child's car seat and the car.			
		Child proof door locks/ child locks on door	To prevent child getting out or opening door when travelling			
		Window locks	To prevent child putting out head/limbs or climbing out			
		British Standards Kitemark/ BSI label/BSI mark/BSI	On a range equipment eg cots/prams/high chairs/car seats etc. Checks an agreed standard it will do its job safely and correctly. Tests quality/ design features/materials/ suitability.			
		BEAB	Electrical equipment, tested for electrical safety/fire risk.			

Question		Answer	Marks	Guidance	
				Content	Levels of response
		CE	Found on toys/ meets the standards of the EU. Textiles both inside and outside must be non flammable/plastics, metals and paints used are non toxic.		
		Lion mark	On toys made in the UK /meets safety requirements of the British Toy and Hobby Association.		
		Age advice Symbol	On toys unsuitable for children under 3 years old/ small parts.		
		Low Flam	On children's clothes made from terry towelling which is very flammable. Must show if they have passed a Low Flam test.		
		Keep away from fire	Written in capital red letters to show extreme care is needed as fabrics are not slow burning.		
		Warnings on food packets	Allergy advice eg nuts		
			Total	15	

Question		Answer	Marks	Guidance												
5	(a)	<p>Complete the table below.</p> <table border="1"> <thead> <tr> <th>Nutrient</th> <th>Good food source</th> <th>Use in the body</th> </tr> </thead> <tbody> <tr> <td>Iron</td> <td>Green leafy vegetables</td> <td>Making red blood cells</td> </tr> <tr> <td>Calcium</td> <td>Milk</td> <td>Strong bones/strong teeth Prevent rickets</td> </tr> <tr> <td>Fibre</td> <td>Fruit/veg/named fruit or veg/wholegrain cereals/brown rice/brown pasta/wholemeal bread/nuts</td> <td>Prevents constipation</td> </tr> </tbody> </table>	Nutrient	Good food source	Use in the body	Iron	Green leafy vegetables	Making red blood cells	Calcium	Milk	Strong bones/strong teeth Prevent rickets	Fibre	Fruit/veg/named fruit or veg/wholegrain cereals/brown rice/brown pasta/wholemeal bread/nuts	Prevents constipation	3x1	
	Nutrient	Good food source	Use in the body													
Iron	Green leafy vegetables	Making red blood cells
