SecureClient System Requirements

Hardware	These are minimum requirements
Processor	2.33GHz or faster x86-compatible processor It is recommended that Celeron processors are avoided.
RAM	1GB
HDD Space	1GB of free space
Video	Single display Screen resolution of 1024 x 768 Graphics card with at least 128MB of memory
Peripherals	Two button mouse Keyboard Audio capability and headphones may be required for some assessments
Software	These are the supported platforms
Operating system	Windows 7 (32bit or 64bit) Windows 8 (32bit or 64bit) Windows 8.1 (32bit or 64bit)
.NET	Microsoft .NET Framework 2.0 (Service Pack 2) to Microsoft .NET Framework 3.5. NB: There is no download for .NET Framework 2.0 or 3.5 for Windows 7, 8 or 8.1 (note .NET Framework 3.5 is backwards compatible with 2.0). Though this is included with later versions, it may not be automatically installed and may need to be enabled in the Control Panel. Instructions on how to do this are available here: http://msdn.microsoft.com/en-us/library/hh506443(v=vs.110).aspx
Internet Browser	Internet Explorer 8 to 10
Adobe Reader	Adobe Reader XI (version 11.0.07)
Adobe Flash Player	Adobe Flash Player 12.0.0.038 to 15.0.0.223 <i>This needs to be the ActiveX version of Flash, ie. it needs to be installed from Internet Explorer.</i>
Bandwidth	These are minimum requirements
Bandwidth	A centre connection of 2Mbps or greater for every 30 candidate tests being sat at the same time is recommended to ensure candidates are not affected by connection issues during exam delivery. You are advised to use the Advanced Download functionality if you do not want candidates to have to wait for the exam to download at the start of the session. Please note that the use of 3G cards may not guarantee a constant bandwidth and could therefore not meet the minimum requirements.
