1 OCR has asked ABC to provide quotations for some of its holidays and day excursions.

Using the information in the case study, calculate the price to be quoted to OCR for coach hire for ONE 10-day holiday to the Rhine Valley.

Notes:

OCR pays for all ferries and hotel accommodation directly to the suppliers.

Two single-manned 49-seat coaches will be used but your quotation must be per coach.

You must show all of your workings.

You must name each individual cost.

You must give your answers to the nearest penny.

2 OCR has asked ABC to consider the provision of feeder services for its coach holiday departures from the Lincoln Depot.

Using the information in the case study, prepare a pick-up schedule for each feeder coach for the Rhine Valley holiday, giving times of pick-up at each point.

Notes:

You should use only the three 20-seat coaches currently owned by ABC.

Each feeder coach must leave its pick-up points as late as possible, to arrive with its passengers at the Lincoln Depot at 07:30 hrs.

The average speed throughout the routes for all vehicles is 60 kph. This speed takes into account time for loading passengers and luggage at each pick-up point.
