6 “Now I am going to give you a workplace scenario”.

(The presenter gives the learner a printed copy of the Workplace Scenario and also reads the scenario out).

Michelle, a young person, has just started work in an engineering workshop. The supervisor tells her that she will be shown how to use a degreasing bath that contains chemicals.

During initial training, Michelle was told about young people using chemicals and is worried that she might have an accident.

“Now I am going to ask you a question about the workplace scenario”.

“What can you tell Michelle about her responsibilities as a young person using chemicals and the responsibilities of her employer in this situation?”
