15/01/2015

Dear Charlotte,

As an employer within the Child Care Sector I believe that the following qualification will enable learners to enter and progress in employment. It is reasonable to expect that a learner who successfully completes the following qualification could have an advantage when applying for jobs and apprenticeships.

**Level 2 Certificate in the Children and Young Peoples workforce. (QCF) 601/4298/4**

I believe that this qualification is a valuable part of the qualification offer as it's provides the core skills that I as employers look for in potential employees.

The skills that learners develop through the course (for instance, Contribute to Children and Young People's Health and Safety, Safeguarding the Welfare of Children and Young People and Child and Young Person Development ) will help them to prepare and succeed in employment, specifically in a role such as a Children's Support Worker, Childcare Assistant, Nursery assistant, Crèche Worker.

The content within these qualifications prepares the learners for a career in this sector and I support them for inclusion in the school and college performance tables for 16-19 year olds.

Yours

Georgina Evans

(Nursery Manager)

Where learning has never been so much fun!
