Dear Charlotte

As an employer which employs staff in radio production occupations as presenters, producers, sound recordists and engineers, off line and on line editors and general production crew within the media sector, I'm happy to support the new Cambridge Technicals Diplomas pathways:

Further to the units I've reviewed, listed below, in the Moving image and audio pathway for the qualifications detailed below:

- 601/7260/5, OCR Level 3 Cambridge Technical Foundation Diploma in Digital Media (VRQ)
- 601/7261/7, OCR Level 3 Cambridge Technical Diploma in Digital Media (VRQ)

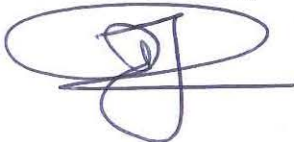

I've reviewed the skills and knowledge the students will develop in completing the pathway units listed below:

- Radio production
- UK broadcasting

We believe the skills and knowledge the students will develop in radio and broadcasting when taking these qualifications will act as a basis for progression into the workplace in this sector.

We confirm that a student completing these qualifications would develop specialist knowledge and skills at a level expected for starting work in the media industry. As such this would stand them in good stead when applying for relevant jobs.

Yours sincerely,

John Dalziel
