**Text 2****McDonald's**

Six weeks ago James saw an advertisement for a job at McDonald's. He went into the restaurant and was given an application pack, including a job description, a person specification and a link to an online application form.

James completed the application form and emailed it to the restaurant. A manager then telephoned James and asked him to come for an interview at the restaurant. James had to bring his GCSE certificates to the interview. After the interview, James had to do a group activity where he was asked to complete a task as a member of a team.

James was very pleased to get a letter two weeks ago offering him a job. Included with the letter was a contract of employment, which he has to sign and bring with him on his first day of work. His starting wage will be £7.00 per hour, with a 10% increase after he has been fully trained.

**This document consists of 20 pages**

## MARKING INSTRUCTIONS

### PREPARATION FOR MARKING SCORIS

1. Make sure that you have accessed and completed the relevant training packages for on-screen marking: *scoris assessor Online Training; OCR Essential Guide to Marking*.
2. Make sure that you have read and understood the mark scheme and the question paper for this unit. These are posted on the RM Cambridge Assessment Support Portal <http://www.rm.com/support/ca>
3. Login to scoris and mark the required number of practice responses (“scripts”) and the number of required standardisation responses.

YOU MUST MARK 10 PRACTICE AND 10 STANDARDISATION RESPONSES BEFORE YOU CAN BE APPROVED TO MARK LIVE SCRIPTS.

### MARKING

1. Mark strictly to the mark scheme.
2. Marks awarded must relate directly to the marking criteria.
3. The schedule of dates is very important. It is essential that you meet the scoris 50% and 100% (traditional 40% Batch 1 and 100% Batch 2) deadlines. If you experience problems, you must contact your Team Leader (Supervisor) without delay.
4. If you are in any doubt about applying the mark scheme, consult your Team Leader by telephone or the scoris messaging system, or by email.
5. Work crossed out:
  - a. where a candidate crosses out an answer and provides an alternative response, the crossed out response is not marked and gains no marks
  - b. if a candidate crosses out an answer to a whole question and makes no second attempt, and if the inclusion of the answer does not cause a rubric infringement, the assessor should attempt to mark the crossed out answer and award marks appropriately.
6. Where a multiple choice question has only a single, correct response and a candidate provides two responses, then no marks should be awarded.

7. When a candidate provides contradictory responses, then no mark should be awarded even if one of the answers is correct.
8. Always check the pages (and additional objects if present) at the end of the response in case any answers have been continued there. If the candidate has continued an answer there then add a tick to confirm that the work has been seen.
9. There is a NR (No Response) option. Award NR (No Response):
- if there is nothing written at all in the answer space
  - OR if there is a comment which does not in anyway relate to the question (e.g. 'can't do', 'don't know')
  - OR if there is a mark (e.g. a dash, a question mark) which isn't an attempt at the question
- Note: Award 0 marks - for an attempt that earns no credit (including copying out the question)
10. The scoris **comments box** is used by your team leader to explain the marking of the practice responses. Please refer to these comments when checking your practice responses. **Do not use the comments box for any other reason.** If you have any questions or comments for your team leader, use the phone, the scoris messaging system, or e-mail.
11. Assistant Examiners will send a brief report on the performance of candidates to your Team Leader (Supervisor) by the end of the marking period. The Assistant Examiner's Report Form (AERF) can be found on the RM Cambridge Assessment Support Portal (and for traditional marking it is in the *Instructions for Examiners*). The report should contain notes on particular strengths displayed as well as common errors or weaknesses. Constructive criticism of the question paper/mark scheme is also appreciated.
12. For answers marked by levels of response:
- a. **To determine the level** – start at the highest level and work down until you reach the level that matches the answer
  - b. **To determine the mark within the level**, consider the following:

Descriptor	Award mark
Meets the criteria but with some slight omission or inconsistency	At bottom of level
Enough achievement on balance for this level	At middle of level
Meets the criteria for this level well	At top of level

Please note that the overall the descriptors for levels of response question have been restricted to the following:

Strong  
Good  
Limited

Where:

3 marks are available for a skill or element that is considered strongly demonstrated

2 marks are available for a good demonstration of a skill or element

1 mark is available for a skill or element that is limited in its demonstration

Where there are 3 levels but only 2 marks for a particular skill, we have used the same descriptor for that skill across two levels.

For A03b (evaluation) only limited evaluation is required for level 2, however strong evaluation is required to reach the top of level 3. This is because both of the subsequent 2 marks are available within this top level.

### 13. Annotations

Annotation	Meaning
✓ and ✗	for correct and incorrect responses
BOD	benefit of doubt
VG	vague
IRRL	irrelevant
REP	repetition
NAQ	not answering question
EG	example given
L1	Level 1
L2	Level 2
L3	Level 3

Highlighting is also available to highlight any particular points on the script.

#### ARA – Any Reasonable Answer

Where ARA is indicated within the Guidance column for any item on this mark scheme, examiners must accept any reasonable answer that in their professional opinion is as worthy of merit as those indicated, either by Indicative Content or within Exemplar Responses, on the final mark scheme post-standardisation. However, examiners should liaise with their Team Leaders / Principal Examiner wherever there remains any doubt as to whether or not a response (or part-response) should be credited.

**OFR – Own Figure Rule**

Where OFR is indicated within the Guidance column for any item on this mark scheme, (normally in an item which is assessing the use of quantitative skills, such as calculation), examiners must credit candidates for answers which demonstrate correct working for one or more subsequent marks (as guided by the mark scheme), even though an earlier calculation had produced an incorrect answer as the basis for that working. OFR will apply to all marks other than the first mark in such a response, unless reference is made to specific marks for OFR.

Question	Answer	Marks	Guidance
	<p>Just because Shamira and her husband have created it, it does not mean that it will help them achieve their objectives. Whether or not it is effective to Shirtz depends on how well, or otherwise, the business is actually managed and how well the plan is written (AO3a).</p> <p>Shamira has stated that Shirtz Ltd will need finance if it is to grow. If a good, clear business plan is shown to the bank, this might mean a bank is more likely to lend Shirtz Ltd the finance it needs. (AO3a) This will help Shirtz Ltd to meet its objective and therefore the business plan would have been very effective. (AO3b)</p> <p>The current business plan as shown on Text 3 does not have a lot of figures or financial detail, so might not have enough information to persuade a bank to lend them money. In terms of the resources they need, again the detail is quite limited e.g. 'new machinery', and more would probably be required in order to make the right decisions when buying equipment. In my opinion, the current business plan is only partially effective, because it needs more detail to help achieve Shirtz' aims and objectives. (AO3b)</p>		<p>information and/or issues to find connections and provide logical chains of reasoning. (AO3a)</p> <p><b>Strong</b> evaluation of business information and issues to demonstrate understanding of the effectiveness of Shirtz' business plan. However this depends upon if the new marketing mix is successful. If the business does not grow then the employees may not be needed and the owners may lose their investment, making them most affected <b>(3 marks)</b>.</p>		<b>ARA</b>
