Dear Charlotte,

OCR Level 2 Cambridge Technicals in Engineering:

- 603/0422/4 OCR Level 2 Cambridge Technicals Certificate in Engineering 180GLH
- 603/0423/6 OCR Level 2 Cambridge Technicals Diploma in Engineering in Design Engineering 360GLH
- 603/0423/6 OCR Level 2 Cambridge Technicals Diploma in Engineering in Production 360GLH
- 603/0423/6 OCR Level 2 Cambridge Technicals Diploma in Engineering in Systems Engineering 360GLH

The Society of Operations Engineers (SOE) works to advance Operations Engineering for the benefit of everyone through education, training, study and research. SOE also establishes and maintains standards of competence and conduct for those engaged in Operations Engineering professionally, with an emphasis on enhancing public safety.

We have reviewed the content of OCR Level 2 Cambridge Technicals in Engineering and believe that the qualifications will help learners work towards the standards of competence and conduct necessary to work in the engineering sector.

We agree that these qualifications provide the required skills, understanding and knowledge to support a 16 year old entering employment, training or the workplace in the engineering sector.

The Level 2 Cambridge Technicals in Engineering will allow a student to develop the skills and knowledge they will need to progress into training or employment within this sector and will give a student an advantage when applying for related jobs or Apprenticeships in this sector.

We are happy to support OCRs' submission for this qualification which will prepare young people for work

Yours sincerely,

Robin Bates
Professional Standards Manager
