Date 17 August 2016

Dear Charlotte,

- 603/0322/0 OCR Level 3 Cambridge Technical Extended Diploma in Engineering 1080GLH in Mechanical, Electrical and Electronic Systems Design and Engineering
- 603/0322/0 OCR Level 3 Cambridge Technical Extended Diploma in Engineering 1080GLH in Engineering Automation Control and Manufacturing Processes

Siemens provide innovative solutions to help tackle the UK's major challenges. We work across power and gas, wind power and renewables, power generations services, energy management, building technologies, mobility, digital factory, process industries, financial services and health care sectors.

Having read the materials you have sent me I can see that the content of both pathways will enable students in the 16-19 age range to develop specialist knowledge and skills relevant to employment in this area and that the standard of knowledge and skills is suitable for an 18 year old in full time education

Siemens employ staff for roles in a wide range of engineering sectors. We believe that both pathways will enable students in the 16-19 age range to develop specialist knowledge and skills relevant to employment in this area and that the standard of knowledge and skills is suitable for an 18 year old in full time education

We are happy to support OCRs' submission for this qualification which will prepare young people for work

Yours sincerely,

Brenda Yearsley
School and Education Development Manager

About Siemens in the UK: Siemens has offices and factories throughout the UK, with its headquarters in Frimley, Surrey. The company's global headquarters is in Munich, Germany. For more information, visit www.siemens.co.uk*
