23rd September 2014

Dear Charlotte Bosworth

As an employer which employs staff in occupations within the sectors of Electrical and Electronic Engineering/Mechanical Engineering and Design/Manufacturing/Automation, Systems and Control, Jaguar Land Rover believe that the following qualifications will enable students in the 16-19 age range to develop specialist knowledge and skills relevant to employment in this area and that the standard of knowledge and skills is suitable for an 18 year old in full time education.

We believe a student who achieves one of the following qualifications should be educationally prepared for related jobs, apprenticeships, training or higher education courses:

607/4600/X OCR Level 3 Cambridge Technical Foundation Diploma in Engineering (VRQ)

**Electrical and Electronic Engineering pathway
Mechanical Engineering and Design pathway
Manufacturing pathway
Automation, Systems and Control pathway**

601/4599/7 OCR Level 3 Cambridge Technical Diploma in Engineering (VRQ)

**Electrical and Electronic Engineering pathway
Mechanical Engineering and Design pathway
Manufacturing pathway
Automation, Systems and Control pathway**

I believe the skills and knowledge the students taking these qualifications will act as a basis for further progression either in the workplace or in further study at college or university.

I support them for inclusion in the school and college performance tables for 16-19 year olds.

Yours

José Lopes MPhil CEng FIET FIMechE
Head of Technical Excellence
