Dear Charlotte

As an employer which employs over 25 staff supplying leading Universities and sports science institutions in the sports science industry with equipment and services. I have been consulted from the very beginning and during the development of these courses. I have seen that my views have been taken on board in the design of the qualifications for the units making up the pathway listed below:

I have been consulted during the development and I have reviewed the content of final qualifications listed below:

601/7095/5, OCR Level 3 Cambridge Technical Foundation Diploma in Sport and Physical Activity (VRQ)

601/7096/7, OCR Level 3 Cambridge Technical Diploma in Sport and Physical Activity (VRQ)

- I believe that these qualifications cover the required skills, understanding and knowledge I expect of an 18 year old entering employment with us or entering the workplace in this sport science sector.
- I believe that these qualifications will allow a student to develop the skills and knowledge they will need to progress into employment within this sport science sector.
- I believe that these qualifications would give a student an advantage when applying for related jobs or Apprenticeships in the sports science field.
- I confirm that a student completing these qualifications would develop specialist knowledge and skills at a level expected for an 18 year old starting work in the sports science market sector. As such this would stand them in good stead when applying for relevant jobs.

Yours sincerely,

D Kerr
