INTRODUCTION

This document lists the current Cambridge Technicals Units and Learning Outcomes (LO) and maps them to the new Cambridge Technicals Units and Learning Outcomes so that you can see where each learning outcome has remained, changed, moved or been removed.

PERFORMING ARTS

The Cambridge Technicals in Performing Arts have been developed to meet the changing needs of the sector, and prepare your learners for the challenges they'll face in Higher Education, professional vocational training or employment. Designed in collaboration with experts spanning the breadth of the sector, the Cambridge Technicals in Performing Arts focuses on the skills, knowledge and understanding that today's universities, professional vocational colleges and employers demand. Your learners will practically apply their skills and knowledge in preparation for further study or the workplace.

When developing the qualifications we worked with universities and professional vocational colleges to design the content and assessment of these qualifications – ensuring that your learners are prepared and have the skills to progress.

The three Diplomas have vocational pathways that focus on the specific skills, knowledge and understanding to prepare your learners for the unique demands of different areas of the sector.

TEACHING AND LEARNING RESOURCES

New resources are being developed to support your teaching of this new qualification. These will include Delivery Guides, Resource Links, Lesson Elements, Project Approaches, a Qualifications Calculator and a Progress Tracker.
