# A Level Chemistry B (Salters)

H433/02 Scientific literacy in chemistry

Advance Notice Article – Teacher Instructions

**For issue on or after: March 13 2017**

**To prepare candidates for the examination taken on  
Monday 19 June 2017 – Morning**

This document consists of **2** pages.

## NOTES FOR GUIDANCE

1. The Advance Notice article should be issued to candidates on or after the date shown on the front cover of the Advanced Notice at the discretion and convenience of the centre. Candidates can be given the article at any point, but it is suggested that this should be at least four weeks before the examination date.
2. Candidates will need to read the article carefully. Time can be built into the teaching programme to introduce the article content. Candidates should be able to discuss the article freely and be given support and advice in the interpretation of the content so that they are able to answer the questions based on the article in the externally assessed examination. Candidates should also be encouraged to investigate the topics covered in the article for themselves.
3. Candidates will be expected to apply their knowledge and understanding the content in A Level in Chemistry B (Salters) to questions based on the article. There are 20–25 marks available on the examination paper for these questions.
4. The Advance Notice article must not be taken into the examination. The examination paper H433/02 will contain a fresh copy of the article, as an insert. Candidates should be reminded that they do not have sufficient time during the examination to read the article for the first time. They should, however, refer to the article printed in the insert in the examination paper to help them to answer the questions.

### Copyright Information

OCR is committed to seeking permission to reproduce all third-party content that it uses in its assessment materials. OCR has attempted to identify and contact all copyright holders whose work is used in this paper. To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced in the OCR Copyright Acknowledgements Booklet. This is produced for each series of examinations and is freely available to download from our public website ([www.ocr.org.uk](http://www.ocr.org.uk)) after the live examination series.

If OCR has unwittingly failed to correctly acknowledge or clear any third-party content in this assessment material, OCR will be happy to correct its mistake at the earliest possible opportunity.

For queries or further information please contact the Copyright Team, First Floor, 9 Hills Road, Cambridge CB2 1GE.
