LEVEL 2

UNIT 5: Customer service in sport and physical activity

J/615/2388

Guided learning hours: 30

Essential resources required for this unit: None

This unit is internally assessed and externally moderated by OCR.

UNIT AIM

Providing excellent customer service is a key aim for everyone involved in the delivery of successful sport and physical activity. Whether you are an Assistant Fitness Instructor, Assistant Sports Coach or Leisure Assistant, understanding who your customers are and what their needs are is crucial in giving them an excellent experience.

In this unit you will learn the skills that are involved in delivering good customer service and be given the opportunity to apply these skills in sport and physical activity environments.

Regardless of the quality of service, complaints are generally inevitable. Being able to handle complaints efficiently and effectively is a sign of good customer service and so you will also demonstrate your skills in complaint handling.

TEACHING CONTENT

The unit content describes what has to be taught to ensure that learners are able to access the highest grade.

Anything which follows an i.e. details what must be taught as part of that area of content.

Anything which follows an e.g. is illustrative, it should be noted that where e.g. is used, learners must know and be able to apply relevant examples to their work though these do not need to be the same ones specified in the unit content.

SYNOPTIC ASSESSMENT

It will be possible for learners to make connections between other units over and above the unit containing the key tasks for synoptic assessment, please see section 6 of the centre handbook for more detail. We have indicated in this unit where these links are with an asterisk and provided more detail in the Assessment Guidance.

ASSESSMENT GUIDANCE

LO1: Understand what customer service involves and its importance to sport and physical activity providers

For P1, learners must describe a range (more than two) of situations in which customer service is provided and go on to describe a range (more than two) of impacts of providing excellent customer service. Learners must refer to internal and external customers.

For P2, learners must describe a range (more than two) of impacts of providing excellent customer service. Again, learners must refer to both internal and external customers.

LO2: Be able to identify how to improve the customer experience of those who use sport and physical activity facilities

For P3, learners must describe all of the customer types identified in Teaching Content 2.1.

For P4, learners must identify the needs of at least three of the different customer types and ways that sport and physical activity facilities can improve their customer experience.

For this LO, learners may benefit from drawing on learning from Unit 1 – Physical activity, health and wellbeing, LO4, Know trends in participation in sport and physical activity and Unit 2 – Physical preparation and readiness for sport and physical activity, LO4, Understand the needs of different participants in sport and physical activity

LO3: Be able to demonstrate effective communication and personal presentation skills when delivering customer service in a sport and physical activity environment

For P5, learners must demonstrate communication and personal presentation skills suitable to the sport or physical activity environment they are in. Environments can include in a leisure facility, in a gym or dance studio, in a sports hall or outdoors when delivering a coaching or activity session. The skills must be demonstrated over a period of at least two hours (broken up into parts or in one go) and can be assessed alongside Diploma pathway units that include key tasks (units 8, 11 and 13).

For M1, learners should be given the opportunity to practically demonstrate their customer service skills when dealing with at least two types of customer as outlined in the Teaching Content. These types of customer must be different from those communicated with in P3, this activity can be simulated.

For this LO, learners may benefit from drawing on learning from Unit 4 Leading sport and physical activity sessions.

LO4: Be able to handle customer complaints effectively.

For M3, learners should be given the opportunity to practically demonstrate their ability to handle a complaint in a sport and physical activity environment. To access the distinction criteria learners have to deal with three types of customer complaint e.g. straight forward, complex and requiring supervisor input. Role play scenarios could be face to face, over the phone or a written response to complaints.

Feedback to learners: you can discuss work-in-progress towards summative assessment with learners to make sure it's being done in a planned and timely manner. It also provides an opportunity for you to check the authenticity of the work. You must intervene if you feel there's a health and safety risk.

Learners should use their own words when producing evidence of their knowledge and understanding. When learners use their own words it reduces the possibility of learners' work being identified as plagiarised. If a learner does use someone else's words and ideas in their work, they must acknowledge it, and this is done through referencing. Just quoting and referencing someone else's work will not show that the learner knows or understands it. It has to be clear in the work how the learner is using the material they have referenced **to inform their** thoughts, ideas or conclusions.

For more information about internal assessment, including feedback, authentication and plagiarism, see the centre handbook. Information about how to reference is in the OCR *Guide to Referencing* available on our website: <http://www.ocr.org.uk/i-want-to/skills-guides/>.

MEANINGFUL EMPLOYER INVOLVEMENT - a requirement for Technical Certificate qualifications

These qualifications have been designed to be recognised as Technical certificates in performance tables in England. It is a requirement of these qualifications for centres to secure employer involvement through delivery and/or assessment of these qualifications for every learner.

The minimum amount of employer involvement must relate to at least one or more of the elements of the mandatory content. This unit is mandatory in the Assistant Sports Coach, Assistant Fitness Instructor and Leisure Assistant pathways.

Eligible activities and suggestions/ideas that may help you in securing meaningful employer involvement for this unit are given in the table below.

Please refer to the Qualification Handbook for further information including a list of activities that are not considered to meet this requirement.

Meaningful employer involvement – eligible activities	Suggestion/ideas for centres when delivering this unit
1. Learners undertake structured work-experience or work-placements that develop skills and knowledge relevant to the qualification.	Learners could demonstrate their ability to provide effective customer service and handle complaints in a work placement setting. Learners could also help contribute to developing the organisation's customer service charter.
2. Learners undertake project(s), exercises(s) and/or assessments/examination(s) set with input from industry practitioner(s).	Role play and complaint scenarios could be set using industry experts.
3. Learners take one or more units delivered or co-delivered by an industry practitioner(s). This could take the form of master classes or guest lectures.	A guest lecturer from the chosen sport and physical activity provider could co-deliver sessions on their customer types and how their needs are met.
4. Industry practitioners operating as 'expert witnesses' that contribute to the assessment of a learner's work or practice, operating within a specified assessment framework. This may be a specific project(s), exercise(s) or examination(s), or all assessments for a qualification.	Expert witnesses from the industry could be used when assessing role play scenarios or during work placement duties.

You can find further information on employer involvement in the delivery of qualifications in the following documents:
