Steve:	mm hmm	
Minu:	yeah (.) like before i got my ticket	30
Steve:	this years concert in the park is sold out	
Romy:	i know	
Minu:	like i i was totally terrified /kz/ the tickets went on sale (.) like the day later my friend phoned up and she was saying me and ma (.) her other friend were going to get camping tickets (.) like do you want me to get you one i	<i>35</i>
Steve:	yeah	
M inu:	i like said (.) well ill need to check my money first (.) like i DO want to go but i might need to wait a couple of weeks (1) so they got their tickets (1) i went into the like the	
Romy:	the ticket agency [<i>laughs</i>] //	40
Minu:	[laughs] yeah (.) like two days later and the girl was like (.) we havent got camping tickets left its only the saturday day tickets	
Nisreen:	are you camping	
Minu:	well yeah that was the thing (.) i came into uni like (.) OH MY GOD (.) and i went on to all the ticket websites	45
Nisreen:	do you know what	
Minu:	// and after three	
Steve:	// yeah

This is a transcription of a training video designed to teach sailing to beginners. The presenter (Damien) has arranged for a volunteer (Indra) to receive some coaching from an expert (Jon).

Discuss how language is used here by the three main speakers (Damien, Indra and Jon) to help a beginner to understand the basics of sailing. Support your answer by referring to specific examples from the transcription. [30]

Voice 1:	erm its an adventure and it gives you a sense of freedom	
Voice 2:	i dont want to do anything too energetic (.) i just like erm the sound of the water on the boat (.) wind in the sails	
Voice 3:	you can be as serious about it as you want to be	
Voice 4:	it stops you sitting on the beach and just doing nothing all summer	5
Voice 5:	and ive been out of there for three hours and loved every minute of it	
Voice 6:	you can go from being a total novice to someone whos got a reasonably good idea by the end of one week	
Indra:	when youre on your own you will thrive in it (.) its a really good feeling	
Damien:	all these people have discovered a passion for one of the most popular recreational sports (.) SAILING (.) and as you can see (.) you can take it up at any age (1) NOW (1) sailing en (.) encompasses windsurfing (.) dinghy sailing (.) and ocean cruising (.) and if youve got millions of pounds [laughs] if youve got millions of pounds to spend you can enter the FASTNET or the ADMIRALS CUP (1) but whatever level or whatever part of sailing you want to take up (.) the basic techniques are best learnt in a dinghy or sail boat because its less expensive and a lot more simple to operate (1) and that's the purpose of this video (.) to learn the most basic techniques as quickly as possible and to be at one with the wind (2) NOW (2) now since i take to water like a duck does to orange sauce (.) i enlisted the help of INDRA here	10 15 20
	[points to Indra] because if theres any fooling in the water to be done id rather she did it and not me [laughs] thats all right by you isnt it indra	
Indra:	[laughs] well it seems just a little bit unfair but im sure i could put up with it	
Damien:	now since ive just about learnt the difference between the sharp end and	

Jon: hi damien (.) hi indra

Indra: hi

OKAY (1) now (.) launching with an onshore wind demands a positive Jon:

approach (1) walk the boat out until the water is deep enough for you to put the daggerboard down far enough so that you'll be able to sail away

now since ive just about learnt the difference between the sharp end and the blunt end of a boat [laughs] ive decided to get some expert advice from

like this Indra:

thats it (1) now push the rudder down (1) prepare everything because if you Jon:

get it wrong you'll be straight back on the beach again (1) and then climb in

and sail away

[music plays; sounds of water]

a top coach (1) JON (.) hi jon

© OCR 2014 F651/01 Jun14

25

30

35

Jon:

choose the tack which takes you most directly offshore (.) and when youre clear (.) and only then (.) its time to worry about the technique by getting the daggerboard the rest of the way down and sailing efficiently

[music and sounds of water again]

40

45

Jon:

returning with an onshore wind is potentially the most spectacular of the lot (.) if you dont do something youll sail straight up the beach and rip the bottom out of the boat (2) so (1) as you come in (.) RAISE the daggerboard (.) LIFT the rudder (1) and then when you come into shallow water turn the boat up (.) UP (.) towards the wind (.) to lose power for the sail and stop before you hit those rocks (1) then (.) as before (.) step out to the shallow water (.) LIFT out the daggerboard (.) RAISE the rudder completely (.) and

lift the boat ashore

Indra: WOW (1) that was (.) that was

that was BRILLIANT indra (.) did you

50

60

Damien: Indra:

i LOVED it

Jon:

you did really well (1) NOW (1) now weve covered the basic techniques of sailing (.) the best way of putting them into practice is by sailing round the triangular course (.) and so ive laid out these three marks

Indra:

do i start down at the far end 55

Jon:

yeah (.) we'll start down at the far end of what we call the (.) the leeward mark (.) and from there youll have to tack all the way up to this closest one (.) the windward mark

Indra: and then

Jon: from there its a reach out to the far end to the wind mark (1) drive there and

back to the beginning again

GREAT Indra:

Jon: we'll try it a few times just to put it all into practice

Indra: okay lets go
