- If you use extra paper, make sure that it has your name, candidate number, centre number and task reference on it and is securely attached to this booklet.
- When you have finished, hand this booklet to the supervisor.
WRITING TASKS (34 marks)

You have 55 minutes to do tasks A and B.

For both tasks, remember to write in sentences, using accurate spelling, punctuation and grammar. Allow time to check your work.

Writing Task A (21 marks)

Scenario

You have seen the following article in a local newspaper.

**COMPUTER GAMES CAUSE CHILDHOOD OBESITY**

The percentage of obese children in the UK is rising rapidly and shows little sign of slowing down. Experts blame our sedentary, couch-potato lifestyles on too much TV and too many video games. Some children spend more time sitting in front of a computer screen than doing anything else. This must stop!

You have also seen the following advertisement.

**Get Fit with the Zii Fit Console**

Get fit and carry on gaming. What a great idea! Here’s how to burn fat and lose weight with the Zii.

1. Wear comfortable clothes. Take the Zii body test and set your goals.
2. Now you are ready to begin training. Try a new activity every day. Make sure you come back every single day.
3. Start losing weight. It’s as simple as that!

Write to the Letters Page of the newspaper which printed the article (Advertising Post, Chiburn Way, Horsen, NE22 3QQ) giving your views on whether computer games are good for children’s health.

You should spend approximately 35 minutes writing this letter.

Remember to write in sentences, using accurate spelling, punctuation and grammar.
Writing Task B (13 marks)

Scenario

You work at ‘Comga’ – a computer games shop. Your manager is worried about the following short article that appeared in the local newspaper.

COMPUTER GAMES – BAD FOR YOUR CHILD’S HEALTH?

A recent survey suggests that computer games can be bad for your child – and for you – in more ways than one.

Computer games encourage children to sit down hour after hour and become couch potatoes.

Controllers can cause blisters, friction burns, lacerations and other injuries.

Violent computer games can cause anti-social behaviour and violence towards other people.

Computer games are addictive, and children often have to be dragged away from the screens by their parents. Lack of sleep can cause behavioural problems at home and at school.

‘Computer rage’ is also a growing problem. Some people will hit keyboards and controllers, or even hurl them across the room in frustration.

Write a leaflet giving advice to parents about children and computer games. Make sure that this leaflet does not frighten the customers and stop them buying games.

You should spend approximately 20 minutes writing this leaflet.

Remember to write in sentences, using accurate spelling, punctuation and grammar.
