**NEWS ANCHOR:** Hello and welcome to the news at when. When? Prehistoric time, when caveman slowly evolved into modern man, very slowly and in many different stages. Here to guide you through them is Bob Hale, with the Stone Age Report. Bob.

**BOB HALE:** Thanks, Anne. Well, as you can see it's about 750,000 years ago. That, believe it or not, is Britain and here comes the Stone Age. And there go the stones. There's plenty to go around because the ground's about 125 metres higher than it is today. In fact, you could walk to France, but please don't, because we have guests, starting with... ta-ta-da-da... Homo heidelbergensis. Or Heidi to his friends.

There he is, he's 6 foot 1 and he is tons of fun and hard as nails. And Heidi likes to hunt animals in big groups. Animals like hippos, and elephants and hamsters and lions, except no hamsters, and it's all jolly good fun until, suddenly, they're gone! And why? Because it's cold like ice, for an age. It's called an ice age. And the whole country empties and after here nothing happens.

But not for long! The sun comes out and the melting ice makes the English Channel. We are now an island, hooray! But no one can get here because they haven't invented boats. So the only things in Britain are animals. Animals like mammoths, and wolves and, best of all, megabears. Yes, megabears, like a grizzly bear but twice the size. No, it's bigger than that. Always bigger than that. There it is! It's mean, it's lean and you wouldn't want to run into it on a dark night. And then one dark night someone runs into it!

Yes, the humans are back. But it's not Heidi anymore. He's evolved into Neanderthal, big brow, big nose, big news! And he loves to hunt. He chases bears, he's chased by bears. He chases mammoths, he's chased by mammoths. It's all one big party until in 35,000 BC another guest turns up.

Do you recognise this fellow? It's you, it's me, it's modern man. Yes, homo sapiens, our great great great great tons of million grandparents are here to hang out with the Neanderthals, and I hope they brought their kilts because, wouldn't you know it? Here comes another ice age. And when it's over, only Homo sapiens are left. No more Neanderthals. And since the weather's nice, great, great, great, grand-dad gets a few jobs done.

He invents the wheel, beer, painting, archery, and most important of all, farming, which gets even easier when... bronze is invented. Yes, it's goodbye Stone Age, hello Bronze Age. Then it's Iron Age, Roman Age, Middle Age, Industrial Age, Modern Age, Act-Your-Age, Old Age, and then death... Uhg.

**Text B**

- ED LEIGH: The eyes of the world are on this man. The king of snowboarding. His throne is under threat. Shaun White gets the 'yeah Shaun' from Bud Keene, the man who stood by his side over the last eight years through every Olympic cycle.
- TIM WARWOOD: Sit back and watch this.
- ED LEIGH: Can Shaun White handle the pressure? Huge backside air. Bit of a sketch there. Front side 1080. That was ... oh, he's gone down!
- TIM WARWOOD: Oh, it was good, it was really high. It wasn't as good. He wanted the double there. He sat down on that,
- ED LEIGH: But he's gone for the Double McTwist. He's landed that one as well – enormous backside rodeo.
- TIM WARWOOD: Oh how did he land that?
- ED LEIGH: That's against the laws of physics.
- TIM WARWOOD: He had no business landing that.
- ED LEIGH: He had no business. Now the replay... the replay is key. This is by no means clear cut.
- TIM WARWOOD: I think the judges... well the judges don't get a chance here now. They don't get the luxury of having the replays that we've just seen.
- ED LEIGH: Now Shaun is claiming this. I think he deserves to claim the fact he survived the run, but I don't think that was a clear. This is not a clear cut decision by any means.
- TIM WARWOOD: I think that was Shaun's attempt at swaying the judges' decision there.
- ED LEIGH: He actually looked into the judges' booth as well.
- TIM WARWOOD: Right.
- ED LEIGH: This is it. This is it the third hit. How badly does he sit down here?
- TIM WARWOOD: Well, he gets the grab.
- ED LEIGH: His bum was on the snow there.
- TIM WARWOOD: Ooh, I don't know.
- ED LEIGH: The strength required in his legs to pick that up.
- TIM WARWOOD: It's undeniable how talented this boy is but.
- ED LEIGH: I tell you what – this was more like magic than snowboarding. How he got away with this I have no idea.
- TIM WARWOOD: Alley-ooop.

- ED LEIGH: Interestingly, there's a lot of boot grabs in there. And that.
- TIM WARWOOD: Well it wasn't a clean landing that. It's not...
- ED LEIGH: He's yanking his fist away from the snow.
- TIM WARWOOD: It's not enough. It's not enough in my opinion. Let's wait for the scores.
- ED LEIGH: 90.25. Shaun White has missed out on a medal. Not just a gold medal, he has missed out on a medal. In bronze medal position Taku Hiraoka. In silver medal position Ayumu Hirano, the 15 year old Japanese rider. But with the gold medal Iouri Podladtchikov.

**SAMPLE MARK SCHEME**

**Duration** 1 hour 30 minutes

**MAXIMUM MARK 50**

**This document consists of 20 pages**

**MARKING INSTRUCTIONS****PREPARATION FOR MARKING****SCORIS**

1. Make sure that you have accessed and completed the relevant training packages for on-screen marking: *scoris assessor Online Training*; *OCR Essential Guide to Marking*.
2. Make sure that you have read and understood the mark scheme and the question paper for this unit. These are posted on the RM Cambridge Assessment Support Portal <http://www.rm.com/support/ca>
3. Log-in to Scoris and mark the [insert number] practice responses (“scripts”) and the [insert number] standardisation responses.

YOU MUST MARK 10 PRACTICE AND 10 STANDARDISATION RESPONSES BEFORE YOU CAN BE APPROVED TO MARK LIVE SCRIPTS.

**MARKING**

1. Mark strictly to the mark scheme.
2. Marks awarded must relate directly to the marking criteria.
3. The schedule of dates is very important. It is essential that you meet the Scoris 50% and 100% deadlines. If you experience problems, you must contact your Team Leader (Supervisor) without delay.
4. If you are in any doubt about applying the mark scheme, consult your Team Leader by telephone, by email or via the Scoris messaging system.
5. Work crossed out:
  - a. where a candidate crosses out an answer and provides an alternative response, the crossed out response is not marked and gains no marks
  - b. if a candidate crosses out an answer to a whole question and makes no second attempt, and if the inclusion of the answer does not cause a rubric infringement, the assessor should attempt to mark the crossed out answer and award marks appropriately.

6. Always check the pages (and additional objects if present) at the end of the response in case any answers have been continued there. If the candidate has continued an answer there then add a tick to confirm that the work has been seen.
7. There is a NR (No Response) option.
8. Award NR (No Response)
- if there is nothing written at all in the answer space
  - OR if there is a comment which does not in any way relate to the question (e.g. 'can't do', 'don't know')
  - OR if there is a mark (e.g. a dash, a question mark) which isn't an attempt at the question.
- Note: award 0 marks - for an attempt that earns no credit (including copying out the question).
9. The Scoris **comments box** is used by your team leader to explain the marking of the practice responses. Please refer to these comments when checking your practice responses. **Do not use the comments box for any other reason.**  
If you have any questions or comments for your team leader, use the phone, the Scoris messaging system or e-mail.
10. Assistant Examiners will send a brief report on the performance of candidates to your Team Leader (Supervisor) by the end of the marking period. The Assistant Examiner's Report Form (AERF) can be found on the RM Cambridge Assessment Support. Your report should contain notes on particular strengths displayed as well as common errors or weaknesses. Constructive criticism of the question paper/mark scheme is also appreciated.
11. For answers marked by levels of response
- a. **To determine the level** – start at the highest level and work down until you reach the level that matches the answer.
  - b. **To determine the mark within the level**, consider the following:

Descriptor	Award mark
On the borderline of this level and the one below	At bottom of level
Just enough achievement on balance for this level	Above bottom and either below middle or at middle of level (depending on number of marks available)
Meets the criteria but with some slight inconsistency	Above middle and either below top of level or at middle of level (depending on number of marks available)
Consistently meets the criteria for this level	At top of level

**INTRODUCTION**

Your first task as an Examiner is to become thoroughly familiar with the material on which the examination depends. This material includes:

- the specification, especially the assessment objectives
- the question paper and its rubrics
- the texts which candidates have studied
- the mark scheme.

You should ensure that you have copies of these materials.

You should ensure also that you are familiar with the administrative procedures related to the marking process. These are set out in the OCR booklet **Instructions for Examiners**.

Please ask for help or guidance whenever you need it. Your first point of contact is your Team Leader.

**Subject-specific marking instructions**

Candidates answer **one** question from Section A and **one** question from Section B. Assessment objectives AO1, AO2, AO3 and AO4 are assessed in Section A. Assessment objectives AO3 and AO5 are assessed in Section B. For each section the level descriptors are organised with the dominant assessment objective first. The question-specific guidance on the tasks provide an indication of what candidates are likely to cover in terms of AOs 1, 2, 3, 4 and 5. The guidance and indicative content are neither prescriptive nor exhaustive: candidates should be rewarded for any relevant response which appropriately addresses the Assessment Objectives.

**Awarding Marks**

- (i) Section A has one question worth 30 marks. In Section B candidates choose one question worth 20 marks.
- (ii) For each answer, award a single overall mark out of 30 (Section A) and 20 (Section B), following this procedure:
- refer to the question-specific Guidance for descriptions of Higher and Lower response and indicative content
  - using 'best fit', make a holistic judgment to locate the answer in the appropriate level descriptor
  - place the answer precisely within the level and determine the appropriate mark out of 30 (Section A) and 20 (Section B) considering the relevant AOs
  - bear in mind the weighting of the AOs, and place the answer within the level and award the appropriate mark out of 30 (Section A) and 20 (Section B)
  - if a candidate does not address one of the assessment objectives tested in the question, they cannot achieve all of the marks in the given level.

Mark positively. Use the lowest mark in the level only if the answer is borderline / doubtful.

Use the full range of marks, particularly at the top and bottom ends of the mark range.

(iii) When the complete script has been marked:

- if necessary, follow the instructions concerning rubric infringements;
- add together the marks for the two answers, to arrive at the total mark for the script.

**Rubric Infringement**

Candidates may infringe the rubric in one of the following ways:

- only answering one question;
- answering two or three questions from Section B;

If a candidate has written three or more answers, mark all answers and award the highest mark achieved in each Section of the paper.

**USING THE MARK SCHEME**

Study this Mark Scheme carefully. The Mark Scheme is an integral part of the process that begins with the setting of the question paper and ends with the awarding of grades. Question Papers and Mark Schemes are developed in association with each other so that issues of differentiation and positive achievement can be addressed from the very start.

This Mark Scheme is a working document; it is not exhaustive; it does not provide 'correct' answers. The Mark Scheme can only provide 'best guesses' about how the question will work out, and it is subject to revision after we have looked at a wide range of scripts. The Examiners' Standardisation Meeting will ensure that the Mark Scheme covers the range of candidates' responses to the questions, and that all Examiners understand and apply the Mark Scheme in the same way. The Mark Scheme will be discussed and amended at the meeting, and administrative procedures will be confirmed. Co-ordination scripts will be issued at the meeting to exemplify aspects of candidates' responses and achievements; the co-ordination scripts then become part of this Mark Scheme. Before the Standardisation Meeting, you should read and mark in pencil a number of scripts, in order to gain an impression of the range of responses and achievement that may be expected. In your marking, you will encounter valid responses which are not covered by the Mark Scheme: these responses must be credited. You will encounter answers which fall outside the 'target range' of levels for the paper which you are marking. Please mark these answers according to the marking criteria. Please read carefully all the scripts in your allocation and make every effort to look positively for achievement throughout the ability range. Always be prepared to use the full range of marks.

These are the **Assessment Objectives** for the English Language and Literature specification as a whole.
