

## GCSE Design & Technology (Food Technology)

### What was the specification?

- 4 (a) A food manufacturer wants to develop a new salad product.

The design specification points for the salad are:

- must be colourful
- have a variety of textures
- contain vitamin C
- include a staple food

Use labelled sketches and/or notes to design a new salad that meets the specification.

State clearly how your design meets the specification needs.

**Do not draw any packaging.**
