The diagram shows a coastline, CL. A and B are two rocks in the sea.

Scale: 1 cm represents 500 m

Rosie is sailing her boat. She sails on a course towards the coast so that she is an equal distance from the rocks, A and B.

When she is less than 1 km from the coast she turns and sails due West. She now sails so that she is between 500 m and 1 km from the coast.

Construct a route that Rosie could take. You must leave in all your construction lines.
