5<sup>th</sup> January 2015

Dear Charlotte Bosworth

As an employer that employs staff within the Health and Social Care occupational group we believe that the following qualifications will enable students in the 16-19 age range to develop specialist knowledge and skills relevant to employment in this area and that the standard of knowledge and skills is suitable for an 18 year old in full time education.

We believe a student who achieves one of the following qualifications should be effectively prepared for related jobs, apprenticeships, training or higher education courses:

**501/1244/2 OCR Level 2 Diploma in Health and Social Care (Adults) for England (QCF)**

- I believe the skills and knowledge gained by the students taking these qualifications will act as a basis for further progression either in the workplace or in further study at school or college.
- I believe that these qualifications will allow learners to develop the skills and knowledge they will need to progress into more specialist qualifications in the sector or directly into employment.
- The content within these qualifications prepares the learners for a career in this sector and I support them for inclusion in the school and college performance tables for 16-19 year olds.

I support them for inclusion onto the school and college performance tables for 16-19 year olds.

Yours

Kathleen Woodhouse  
Practice Development Officer and Assessment Centre Co-ordinator  
St Monica Trust
