Dear Charlotte Bosworth

As an employer that employs staff within the digital media occupational group we believe that the following qualifications will enable students in the 16-19 age range to develop specialist knowledge and skills relevant to employment in this area and that the standard of knowledge and skills is suitable for an 18 year old in full time education. We believe a student who achieves one of the following qualifications should be effectively prepared for related jobs, apprenticeships, training or higher education courses:

OCR Level 2 Certificate for Creative iMedia (500/8529/3)  
OCR Level 2 Diploma for Creative iMedia (500/8531/1)

We believe the skills and knowledge the students taking these qualifications will act as a basis for further progression either into the workplace or in further study at school or college. We also believe that the core skills within these qualifications will support the learners progression into more specialist qualifications in the sector.

The content within these qualifications prepares the learners for a career in this sector and I support them for inclusion in the school and college performance tables for 16-19 year olds.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Darshan Sanghrajka".
