Level 3 Certificate of Professional Competence for Transport Managers
(Road Haulage) Unit R2

Friday 12 June 2015 – 1.00 PM – 3.15 PM
Time Allowed: 2 hours 15 minutes

INSTRUCTIONS
- Fill in all the boxes above. Please write clearly and in capital letters.
- Use black ink.
- Answer ALL the questions.
- Write your answer to each question in the space provided.
- If additional space is required, you should use the lined page(s) at the end of this booklet.
- Additional paper may be used if required but you must clearly show your candidate number, centre number and question number(s).
- Do all calculations and rough work in this booklet. Cross out any work you do not wish to have marked.

INFORMATION
- The total mark for this paper is 60.
- The number of marks is given in brackets at the end of each question or part question.
- This document consists of 12 pages. Any blank pages are indicated.
- Assessment material has been prepared in line with legislation current at the time of production. Any subsequent changes to legislation have not been taken into account, however, responses that refer to amended legislation will be credited.

1. Using the information provided in the Case Study, prepare a driver schedule for Route 27.

Your schedule must start when the driver begins work and finish when she arrives back at OCR’s base.

Notes:
You **MUST** state the destination for all driving periods.

(15 marks)
2 You believe that OCR's Dutch supplier is charging too much for delivering cheese to London and you have decided to prepare a budget for OCR to collect the cheese from the Netherlands.

Use the information provided in the Case Study to calculate the annual cost to OCR of carrying out these monthly journeys in the 18,000kg GVW vehicle.

Show ALL of your workings in £ and express the total annual cost in both £ and Euros, to allow comparison with the supplier's price.

You MUST name each cost and give your answer to the nearest penny/cent.

OCR may transport chilled cheese from Moordrecht, the Netherlands to its London base. The board of directors has asked you to advise them about regulations that would apply to this operation.

In respect of these proposed journeys:

a) Give the name of the international agreement that would apply to this carriage of food AND explain why it would apply

(7 marks)
You must plan to replace the drivers who are likely to retire. You intend to promote some of the current drivers to fill such vacancies as they arise.

a) Describe **SEVEN** actions as **minimum** requirements that one of the 3,499kg GVW van drivers would have to complete to allow him to drive a lorry for OCR up to 7,499kg GVW.

b) Describe **TWO** further actions that this van driver would have to complete to allow him to drive an 18,000kg GVW lorry for OCR, after he has obtained entitlement to drive a 7,499kg GVW vehicle.
OCR Foods Ltd has a company policy that drivers must carry out a vehicle walkround check at the beginning of every day. The company employs a "nil defect" system and uses a standard defect report form for drivers to complete each day. The OCR form is taken from Annex 3A of the DVSA Guide to Maintaining Roadworthiness.

The standard form already includes a list of the specific items to be checked on each vehicle.

In addition to the list of safety related items to be checked, give SEVEN items of information that should appear on OCR's defect report form.
