13/08/2015

Dear Charlotte

As an employer which employs staff in occupations across all disciplines within the IT and communications sector, I can confirm that you have consulted with me during the development and I have seen that you have taken my views on board in the design of the qualification and the units making up the pathways listed below:

- IT Infrastructure Technician
- Emerging Digital Technology Practitioner
- Application Developer
- Data Analyst

For the following qualifications:

- 601/7099/2 - OCR Level 3 Cambridge Technical Introductory Diploma in IT (VRQ)
- 601/7100/5 - OCR Level 3 Cambridge Technical Foundation Diploma in IT (VRQ)
- 601/7101/7 - OCR Level 3 Cambridge Technical Diploma in IT (VRQ)

We believe that these qualifications cover the required skills, understanding and knowledge I expect of an 18 year old entering employment with us or entering the workplace in this sector.

We believe the skills and knowledge the students will develop when taking these qualifications will act as a basis for progression into the workplace in this sector.

We believe that these qualifications would give a student an advantage when applying for related jobs or Apprenticeships in our industry.

Yours sincerely,

David White

BT Apprentice Development Manager
