

Oxford Cambridge and RSA

Wednesday 13 May 2015 – Morning

LEVEL 1/2 CAMBRIDGE NATIONAL IN ICT

R001/01 Understanding Computer Systems

Candidates answer on the Question Paper.

OCR supplied materials:

- Clean Copy Case Study

Other materials required:

None

Duration: 1 hour

Candidate forename		Candidate surname	
--------------------	--	-------------------	--

Centre number						Candidate number				
---------------	--	--	--	--	--	------------------	--	--	--	--

INSTRUCTIONS TO CANDIDATES

- Write your name, centre number and candidate number in the boxes above. Please write clearly and in capital letters.
- Use black ink. HB pencil may be used for graphs and diagrams only.
- Answer **all** the questions.
- Read each question carefully. Make sure you know what you have to do before starting your answer.
- Write your answer to each question in the space provided. Additional paper may be used if necessary but you must clearly show your candidate number, centre number and question number(s).
- Do **not** write in the bar codes.

INFORMATION FOR CANDIDATES

- The number of marks is given in brackets [] at the end of each question or part question.
- The total number of marks for this paper is **60**.
- This document consists of **12** pages. Any blank pages are indicated.

SECTION A

The questions in this section are based on scenario 1 in the case study and your background research.

Answer all the questions.

1 Employees at Animated World Books use a range of output devices to create the animated cartoons.

(a) Draw a line from each output device to the most appropriate description of its purpose.

Output Device

Purpose

Monitor

To create a hardcopy of a frame from a cartoon

Printer

To listen to sound files

Speaker

To view images as they are being created

[3]

(b) Animated cartoons need sound files.

(i) Identify one input device that could be used to record voices for an animated cartoon.

..... [1]

(ii) Describe two ways the sound file could be edited.

1

.....

.....

.....

2

.....

.....

.....

[4]

2 Illustrators at Animated World Books use graphics software to create the graphics for animated cartoons.

(a) Identify **two** benefits of using graphics software rather than drawing each graphic by hand on paper.

1.....
.....
2.....
.....

[2]

(b) Identify **one** possible disadvantage of using graphics software rather than drawing each graphic by hand on paper.

.....
.....

[1]

(c) Identify **three** security methods that Animated World Books could use to protect graphics files from theft.

1.....
.....
2.....
.....
3.....
.....

[3]

3 The designs for the next cartoon have been stolen from Animated World Books. Catherine has been asked to create a new character and storyline. She has been given seven days to do this.

She will collaborate with Ali to design and create this character. Ali is based in California. They do not have time to visit each other.

(a) Catherine and Ali will need to quickly decide on a new character.

Describe **three** ways that Catherine and Ali can share their initial design ideas for the character.

1.....
.....
.....
.....
.....

2.....
.....
.....
.....
.....

3.....
.....
.....
.....
.....

[6]

- (b) Ali has used software to create some possible storylines and characters. He wants to send them electronically to Catherine.

Explain **two** factors that will affect his choice of method to send the files.

1.....
.....
.....
.....

2.....
.....
.....
.....

[4]

- (c) Animated World Books will pay Ali for the actual hours that he works over the seven days.

Describe how a spreadsheet could be used to record and calculate the hours worked each day and the total hours worked over the seven days.

.....
.....
.....
.....
.....
.....

[3]

SECTION B

The questions in this section are based on scenario 2 in the case study and your background research.

Answer **all** the questions.

- 5 Customers who buy artwork from Richard’s website will need to provide personal information on a data capture form on the website.

Customers are asked to provide an email address in case there is a problem with the order.

- (a) Identify **one** input device that could be used to enter an email address on a data capture form.

..... [1]

- (b) When customers enter their email address, they are asked to do so twice.

Explain why customers are asked to enter their email address twice.

.....
.....
.....
..... [2]

- (c) The data that is collected on the data capture form is automatically added to a database.

Explain how the data capture form can be designed so that the data captured on the form is suitable for use in a database.

.....
.....
.....
.....
.....
.....
.....
.....
.....
..... [4]

(d) Richard will need to keep the data that he collects secure.

Identify **three** implications to customers if the data Richard collects about them is not kept secure.

- 1.....
.....
- 2.....
.....
- 3.....
.....

[3]

(e) Give **two** reasons why the loss of customers' data would have a negative effect on Richard's own business.

- 1.....
.....
- 2.....
.....

[2]

7 Richard frequently has headaches caused by eye strain.

(a) Identify **one** way that his computer may be configured to reduce the chances of Richard having headaches caused by eye strain.

.....
..... [1]

(b) Describe **one** other action Richard may take to reduce the chances of having headaches caused by eye strain.

.....
.....
.....
..... [2]
