Dear Charlotte,

Quality Compliance System (QCS)

QCS provides a high quality bespoke CQC Management Service for Adult Social Care providers, GP practices and Dental practices.

We currently support some 2500 SME Care provider employers within the sector, with 20,000+ users of our management systems.

Our employer base ranges from new start-up businesses to established registered Health and Social Care providers.

Our CQC system supports the CQC standards and therefore supports all Care/Health employers in ensuring management best practice and compliance. This includes the processes, procedures and practices for the employment of the 100,000+ care staff they employ.

We have reviewed the units for the following qualification detailed below:

05880 – OCR Level 2 Cambridge Technical Certificate in Health and Social Care – 603/0386/4

05881 – OCR Level 2 Cambridge Technical Diploma in Health and Social Care – 603/0388/8

We believe the skills and knowledge the students will develop when taking these qualifications will provide a basis for progression into employment within Health and Social Care.

(Continued)

In addition

- We believe that these qualification/s can lead effectively to Apprenticeships job opportunities within the Health and Social Care sector.
- We confirm that a student completing these qualifications would develop specialist knowledge and skills at a level expected for an 17 year old starting work in Health and Social Care: As such this would stand them in good stead when applying for jobs such as Care Assistant, Day Centre Assistant, Assistant Activities Co-ordinator.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Mat Whittingham', with a stylized flourish at the end.

Mat Whittingham
Managing Director
