SECTION B

My Life TV is a new local television station that will specialise in the broadcast of reality documentaries. The documentaries will be a mixture of light hearted reality programmes alongside harder hitting stories, featuring real people from the community of different age groups and cultures. The station content will be distributed online and via digital television services.

My Life TV will launch at the start of December, with the hope that local digital media students will contribute to the creation of content when they start their courses in the September. The first show to be launched will be 'Search for a Star', featuring local 16-19-year old musicians hoping to get a record contract.

Initial research by My Life TV has shown that people from the local area will want to watch and star in the programmes. Local businesses and organisations, including the Audio Rack guitar store and the City Council, have expressed an interest in advertising on the channel.

The main presenters of the magazine programmes at My Life TV are two local musicians who are in a famous indie band called 'The Racers'.

The producers at My Life TV have already set up Facebook, Twitter and Instagram accounts to start promoting the station.

6* Develop a marketing campaign for the launch of My Life TV that includes the use of social media channels.

In your campaign, you must include the following aspects:

- Key activities and content as part of the campaign.
- Main advertising and marketing channels that will target your audience to make them aware of the new station.
- Legal and ethical considerations.

You should justify your choices and decisions made.
