

OCR External Copyright Policy for Website

1. General

All the materials we publish are protected by copyright legislation. However, we allow OCR centres to access our materials for some purposes and in certain contexts. Please read more below.

This document covers all material published by OCR in print, on CD-ROM, on the OCR website, on Interchange and on all other secure sites unless otherwise stated.

2. Question Papers and Mark Schemes

If you are an approved OCR centre you don't need to apply for permission to reproduce question papers or mark schemes or parts of them subject to the following conditions:

- Photocopies and print outs from website downloads (or CD-ROM) are for use in practice examinations or revision or for teaching purposes within the centre (except those marked * below).
- No charge is made to students or others for copies.

It is not permitted to reproduce examination questions from the following examinations:

- Certificate of Professional Competence for Transport Managers (multiple choice papers for Passenger Transport and Road Haulage)
- Any ITQ or CLAiT (including ITQ Apprenticeship, ITQ Levels 1-3 in IT User Skills, New CLAiT- International and CLAiT Plus-International)

Some question papers contain third party materials the copyright of which is not held by OCR; because those copyright owners have not given permission for OCR to use beyond the original examination those papers will have the third party content removed. This will be clearly indicated on the question paper or in a separate copyright acknowledgement booklet.

3. Intranets, Moodles or VLES

Centres may use OCR materials on their internal intranets, Moodle's or VLEs in accordance with the following:

- The materials are used for teaching purposes only
- The materials are restricted to access within the centre only and cannot be accessed publicly
- The materials are not offered for sale
- The integrity of the original materials must be retained; no alterations or abridgements can be made.
- Past question papers and mark schemes are retained on the intranet for no longer than 5 years after the examination series
- If OCR issues an updated or amended version of a document (eg. a specification) your centre is responsible for ensuring that the updated or amended version of the document replaces the earlier version on your intranet

4. Audio Components

Music and language CD's and files must not be copied or digitised.

5. Secure Confidential Materials

Centres must not pass on, upload onto school websites/intranets or discuss on any forums (such as twitter etc.) any materials which are marked confidential or which by their nature are deemed confidential and are available from Interchange e.g. pre-release materials for live examinations.

6. Centre Public Websites

Centres must not reproduce OCR materials on their public websites.

7. Publishers

Requests from publishers for permission to use any OCR materials should be sent to the Publisher Relationship Manager, Progress House, Coventry.
