INSTRUCTIONS TO CANDIDATES

- Write your name, centre number and candidate number in the boxes above. Please write clearly and in capital letters.
- Use black ink. HB pencil may be used for graphs and diagrams only.
- This paper contains two questions – you are to answer both questions.
- You are advised to spend 30 minutes on each question.
- Read each question carefully. Make sure you know what you have to do before starting your answer.
- Write your answer to each question in the space provided. If additional space is required, you should use the lined page(s) at the end of this booklet. The question number(s) must be clearly shown.
- You may use annotated sketches to support your written answer.
- Do not write in the barcodes.

INFORMATION FOR CANDIDATES

- The number of marks is given in brackets [ ] at the end of each question or part question.
- You should have the Workbook that you produced in sessions 1 and 2 to assist you during this paper.
- The total number of marks for this paper is 20.
- This document consists of 12 pages. Any blank pages are indicated.
Inclusive design is an important issue for any designer; the transportation hub is keen to provide a fully inclusive environment that caters for all users.

Prepare a discussion about your product that reflects on these issues surrounding inclusive design.

You should include:

• Details of how your product is already inclusive.
• Design modifications that you would make to your product to make it more inclusive.
• Details of specific materials and technologies that can be used for these modifications.
Fashion trends are important factors for designers to consider when a product is to be used in a modern transport hub.

Prepare a discussion that reflects on your product and considers recent trends that might affect your design.

You should include:

- Details of the functional qualities of your product and how it will fit into the modern transport hub.
- Any modifications you could make to your product to fit with modern trends.
- Details of any specific materials and manufacturing methods that would be used to make your product.
If additional space is required, you should use the following lined page(s). The question number(s) must be clearly shown in the margin(s).
