Contextual Challenges

You should explore the contextual challenges given below to choose one of the set challenges.

Recognising that all design and technology practice takes place within contexts which inform outcomes, you should explore the context of your chosen challenge to identify problems and opportunities that offer possibilities when writing your own design brief.

You must create a portfolio to support the iterative process of developing your design solution. The portfolio must deliver:

- a chronological account of your design process
- photographs and videos of your final prototype(s) that clearly demonstrate your practical outcome.

The challenges must not be altered.

EITHER

1. Sustainable living
   In today’s world, consumers are increasingly concerned about buying products that are quickly outgrown or that become obsolete before they cease to function. Explore the role of design in creating products that have an extended lifespan.

OR

2. Travel disruption
   From time to time events happen that can delay or disrupt travel. Explore the role that design can play in meeting the needs of people involved in this situation.

OR

3. Countryside
   Exploring the countryside and getting closer to nature and wildlife can have beneficial effects on a person’s health and wellbeing. Explore ways that design can enhance the experience of people, young or old, when spending time enjoying the countryside.
