Introduction

This section contains the qualification entry information for Cambridge OCR's Cambridge Technicals.

Rules of combination calculators, which help you and your learners to make sure that the right number and combination of units is chosen for a selected pathway are also available on the [qualification pages](#) of the Cambridge OCR website.

If there are any subsequent changes or additions to this booklet, we will update the online version, available to download from the [Cambridge OCR website](#).

Any changes will be clearly identified in the version control table below and the version number will be updated in the footer.

We will also notify centres of any amendments in a [subject update](#).

The following qualifications have their own entry codes booklets, which can be downloaded from the [Cambridge OCR website](#):

- General qualifications (AS and A Level, Core Maths, Entry Level Certificate, Extended Project, FSMQ, GCSE, Level 3 Certificate in Sustainability)
- Cambridge Nationals
- Vocational qualifications.

Version control

Version number	Page	Details of change	Date changed
Version 1.0 published online September 2021

Cambridge Technicals (2016 suite)

The entry codes and rules of combination for Cambridge Technicals (2016 suite) qualifications are provided within this section. Centres must adhere to the JCQ [General Regulations](#) and the [Instructions for Conducting Examinations](#). The key to the form of assessment is as follows:

- E = Externally assessed timetabled paper-based exam
- O = Externally assessed timetabled on-screen test
- M = Internally assessed and externally moderated unit

The external assessments are provided in January and June series.

Depending on the optional units chosen, it is possible for learners to achieve more guided learning hours (GLH) than are needed for the qualification as all units within a qualification may not have the same GLH. Where this happens, in order to calculate the overall qualification grade, we remove the 'surplus' GLH from the optional unit with the weakest grade. This has no effect on the unit achievement.

Re-entry codes

For learners who have failed the same externally assessed unit twice (Level 2) or three times (Level 3), the qualification can no longer be achieved under the original entry. In these circumstances, a re-entry will be required. To do this, when making the entry via interchange please select the 'Re-entry' radio button or use the entry code ending in 'OR' if entering via EDI. Any previously achieved units will be carried forward from the original entry.

CAMBRIDGE
UNIVERSITY PRESS & ASSESSMENT

Cambridge OCR is part of Cambridge University Press & Assessment, a department of the University of Cambridge.

Cambridge OCR is a Company Limited by Guarantee and an exempt charity. Registered in England.

Registered office: The Triangle Building, Shaftesbury Road, Cambridge, CB2 8EA. Registered company number: 3484466.

We operate academic and vocational qualifications regulated by Ofqual, Qualifications Wales and CCEA as listed in their qualifications registers.

We are committed to providing a fully accessible experience across all our products, platforms, and websites. Find out more about our [accessibility standards](#).

© Cambridge OCR 2025. All rights reserved. We retain the copyright on all our publications. However, our registered centres are permitted to copy and distribute our material for their own internal use, in line with any specific restrictions detailed in the publication. Find out more about our [copyright policies](#).

We update our publications regularly so please check you have the most up-to-date version.

We cannot be held responsible for the persistence or accuracy of URLs for external or third-party internet websites referred to in this publication and do not guarantee that any content on such websites is, or will remain, accurate or appropriate.

When we update our specifications, you'll see a new version number and a summary of the changes. While we do our best to reflect these changes in all associated resources on [Teach Cambridge](#), if you notice any discrepancies, please refer to the latest specification on our website and [let us know](#).

Our resources do not represent any teaching method we expect you to use. We cannot be held responsible for any errors or omissions in our resources.
