

2019 Summer Highlights

 **Things that went well**

Candidates showed improvement in the structure of written answers to levelled response questions.

Evidence of candidates having an increase in understanding of command verbs.

Candidates had improved in their ability to use subject specific terminology.

Evidence of good knowledge of the specification.

 **Exam Tips**

- Develop candidates exam technique so that appropriate knowledge is used for the question being attempted.
- Encourage candidates to read the question twice, carefully, to reduce interpretation errors particularly for levels of response type questions.
- Know the values of care and how to apply them.
- Refer back to the setting in the scenario where one is given.

 **Areas for improvement**

- Being able to apply knowledge to the context of the scenario.
- Distinguishing between individuals rights and values of care.
- Interpreting the question.
- Candidates need to know examples for the different settings e.g. nursery is early years, GP surgery is health care.
