Level 3 Certificate of Professional Competence for Transport Managers (Road Haulage) Unit R2

Friday 13 March 2020
1.00 PM – 3.15 PM

Time Allowed: 2 hours 15 minutes

You must have:
• the case study

You may use:
• a calculator
• a dictionary
• any written materials

INSTRUCTIONS
• Fill in all the boxes above, in capital letters.
• Answer ALL the questions.
• Write clearly using black or blue ink.
• Write your answer to each question in the space provided.
• If additional space is required, you should use the lined page(s) at the end of this booklet.
• Additional paper may be used if required but you must clearly show your candidate number, centre number and question number(s).
• Do all calculations and rough work in this booklet. Cross out any work you do not wish to have marked.

INFORMATION
• The total mark for this paper is 60.
• The number of marks is given in brackets at the end of each question or part question.
• This document consists of 12 pages. Any blank pages are indicated.
• Assessment material has been prepared in line with legislation current at the time of production. Any subsequent changes to legislation have not been taken into account, however, responses that refer to amended legislation will be credited.

FOR EXAMINERS’ USE ONLY

Ann Brown requires you to calculate the funds to which each client must have access to meet financial standing requirements. She has asked you also to identify any other operator licence issues that should be drawn to any client’s attention.

(a) Use the information provided in the case study to calculate each client’s current Financial Standing requirement and give the amount by which each exceeds or falls short of these levels.

**Note:**

You must complete Column 1 and either Column 2 or Column 3 for each client.

<table>
<thead>
<tr>
<th>CLIENT</th>
<th>Column 1</th>
<th>Column 2</th>
<th>Column 3</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Current Financial Standing required in £</td>
<td>Surplus amount in £</td>
<td>Deficit amount in £</td>
</tr>

<tbody>
<tr>
<td>Operator licence issue</td>
<td>Action to be taken</td>
</tr>
</tbody>
</table>
Client A intends to operate a delivery route to Minehead and Reading. Ann Brown has asked you to prepare a schedule for the route, using one driver.

Complete the table below for one delivery to Minehead and Reading. Your schedule must begin when the driver starts work in Norwich and end when the goods have been unloaded in Reading.

Notes:

You MUST show a start time, a finish time and a clear description of each activity, including break periods and rest periods.

You MUST show the destination for each driving period.

Tachograph modes are NOT required.

<table>

</table>
3  Client A intends to operate a delivery route to Minehead and Reading.

Use the information provided in the case study to calculate the cost of one of these journeys, starting and finishing in Norwich.

Notes:

You MUST show all your workings.

You MUST name each cost and give a total for each.

You MUST show all costs to the nearest 1p.
4. Client C contracts with its local authority to collect waste, as described in the case study.

Ann Brown has asked you to provide answers to the following questions:

(a) How many vehicles over 3,500kg GVW (at least) are required every week to complete the work described in the case study?

Note:

You MUST show all your workings.

...........................................................................................................................................
...........................................................................................................................................
...........................................................................................................................................
........................................................................................................................................... [3]

(b) State which drivers' hours rules (if any) apply to the:

(i) drivers working on trade waste collection from industrial estates.
............................................................................................................................................... [1]

(ii) drivers working solely on household collection routes, returning directly to base.
............................................................................................................................................... [1]

(iii) drivers working on household collection routes, also delivering new bags for rubbish bins in three shopping areas and collection of filled bins from its operatives on site.
............................................................................................................................................... [1]

(iv) supervisors when they are driving the 3,500kg GVW vans to spot check the company's routes.
............................................................................................................................................... [1]
Client D is planning to change its drivers’ shift patterns. The company’s Managing Director is concerned about the impact of working time rules. Ann Brown has told you to prepare notes for her to advise the client.

Describe **EIGHT** provisions of the Road Transport (Working Time) Regulations 2005 that relate to breaks or to maximum working hours.
Client D’s transport manager wants to upgrade Colin’s driving entitlements, so that Colin can drive the articulated combination and a lorry towing the company’s drawbar trailer, as described in the case study.

Describe **NINE** actions that Colin must complete, to achieve the required driving entitlement.

**Note:**

You MUST state which driving entitlement(s) are required, where relevant
