

## Support highlights

We've collated links to some of our core resources into this one-stop guide. These highlighted resources will enable you to get up to speed quickly in the classroom and support your students in preparing for assessment. They include materials that will focus your teaching on individual abilities of students, help determine their capabilities and above all save you time. Many more resources are available from the [OCR website](#).

## ExamBuilder

[Link to ExamBuilder](#)

ExamBuilder is a user-friendly package in which you can design your own bespoke exams and tests using a library of exam questions from OCR past papers. You can select topics for assessment and part or full exam questions to test your students' understanding of the subject against genuine exam questions. Putting together a test takes minutes and they can be printed with your school's logo on an exam style front sheet.

## Best practice in delivery and assessment

[Download our best practice in delivery and assessment presentation](#)

The best practice in delivery and assessment presentation is provided as a PDF copy of the presentation slides together with a 25-minute presentation in MP4 format. They guide you through the approaches to delivery and assessment which are likely to inspire your teaching and optimise the performance of your students.

## Demystifying the assessment

[Download our demystifying the assessment videos](#)

With 12 Creative iMedia demystifying the assessment videos already on our website and more in production the support for set assignments has never been stronger. These videos are intended to help teachers understand the requirements of the assessment and provide an insight into techniques which may be needed to complete some of the tasks. They are in the public section of our website, so they may also be of use to your students as well.

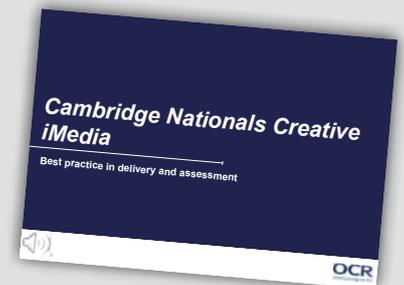

## New resources to support you

We have created a guide to building topic tests for Creative iMedia in ExamBuilder, this describes the process of selecting the content for a range of seven tests which are included as samples. We wish to encourage you to make more use of this free and easy to use resource from OCR to develop tests and assessments for your students. *Coming soon.*

Access past papers, mark schemes and examiners' reports from the [OCR website](#).

## Professional Development

We continue to offer continuous professional development opportunities during the current climate of restrictions. All of our events are now being hosted online, some events have been recorded and are available to view after the event, for example '[Understanding the Assessment of Internal Units: Making the Grade in Cambridge Nationals Levels 1 and 2 Creative iMedia](#)', '[First Teaching: Everything you need to know to get started with Cambridge Nationals Levels 1 and 2 in Creative iMedia](#)' and 'Cambridge Nationals Creative iMedia Referencing and Guidance webinar'. A full list of future and past events can be found on our [website](#).

### Find an event

See our range of professional development courses using the '[Find an event](#)' search tool.

We're now running all our CPD training online rather than face-to-face. Future courses will be in the form of a webinar, offering the same high-quality training as our face-to-face training. If you have any questions, please email [professionaldevelopment@ocr.org.uk](mailto:professionaldevelopment@ocr.org.uk).

## Publisher materials

### Hodder Education

#### Cambridge National Level 1/2 Creative iMedia

Hodder Education provide an OCR endorsed student textbook for Creative iMedia, this is available in [printed](#) and online eTextbook format to meet your student's needs; the eTextbook is available on a 30 day free trial.

### PG Online

PG Online has produced a set of [OCR endorsed lesson resources for units R081 and R082](#) of the Creative iMedia specification. Split into four packs covering the two core units of the course, these include lesson plans, presentations, in-class and homework activities as well as end of unit tests. These resources, which are similar to the teacher delivery packs provided by OCR for the OCR GCSE computer science, could save time and effort creating lessons materials allowing you to focus on your students. Free lessons are available for evaluation and the four packs are priced at £120 each.

## Other resources

### Diagnostic questions

A [free set of self-marking questions](#) which allows you to sign your class up, set tests and review the results. Masses of support already built into the platform!

## Keep connected

### Blogs

My colleague Vinay has produced a blog to supporting '[Remote learning resources for Cambridge Nationals, Information Technologies and Creative iMedia](#)', this can be accessed via the [blogs section](#) of the computer science and ICT web page.
