

Multiple choice topic quizzes – Digital version instructions

This set of resources have been produced as digital versions of the Multiple choice topic quizzes available on the GCSE (9–1) Science qualification Planning and teaching webpages.

To use the digital quizzes follow these instructions:

1. Create/log in to a Google Drive Account.
2. Click on the link for the quiz you want to set.
3. Click 'Make a copy'.
4. You are now able to make edits to the form as required.
5. Open up your quiz for responses. Go to 'Responses' then click the slider next to 'Accepting Responses'.
6. To set the quiz click the 'Send' button on the top right of the page. You can either send the form directly via email (this will come from the email address associated with the Google Drive Account), or create a link which you can share. **If you create a link you can share it without revealing the email address associated with the Google Drive account.**
7. To view responses, click on the 'Responses' tab in the middle of the screen. From here you can:
 - a. Under 'Summary' view average scores, frequently missed questions and common responses.
 - b. Under 'Question' view responses by question.
 - c. Under 'Individual' view responses by respondent.
 - d. Export data to a spreadsheet.

Forms are prepopulated with questions and answers. Where available, feedback is given for correct and incorrect responses.

Key edits:

- **Before sharing these quizzes with your students you must turn responses on by going to 'Responses' and clicking the slider next to 'Accepting Responses.'**
- To collect/not collect respondent email addresses click the settings wheel (top right of the screen) and go to 'General' – by default it is set to collect respondent email addresses to allow feedback.
- To email respondents their marks immediately or later, click the settings wheel and go to 'Quizzes' – by default it is set to release marks immediately by email to respondents.

- To turn on/off if a response to an individual question is required go to the question, click on it to edit and move the slider next to 'Required' – by default it is set to all responses being required.

This formative assessment resource has been produced as part of our free Science teaching and learning support package. All the Science teaching and learning resources, including delivery guides, topic exploration packs, lesson elements and more are available on the qualification webpages.

If you are looking for examination practice materials, you can find Sample Assessment Materials (SAMs) and a link to the Practice Papers on the qualification webpages.

OCR's resources are provided to support the teaching of OCR specifications, but in no way constitute an endorsed teaching method that is required by the Board, and the decision to use them lies with the individual teacher. Whilst every effort is made to ensure the accuracy of the content, OCR cannot be held responsible for any errors or omissions within these resources.

We'd like to know your view on the resources we produce. By clicking on '[Like](#)' or '[Dislike](#)' you can help us to ensure that our resources work for you. When the email template pops up please add additional comments if you wish and then just click 'Send'. Thank you.

Please get in touch if you want to discuss the accessibility of resources we offer to support delivery of our qualifications: resources.feedback@ocr.org.uk

If you do not currently offer this OCR qualification but would like to do so, please complete the [Expression of Interest Form](#).
