Instructions to Invigilators

Before the start of the examination, please ask candidates to amend their question papers as follows (please read out this message **twice** to ensure understanding):

There are two corrections to make to this paper.

1. Please turn to **page 6, Question 3, part (c), Table 3.1**

The heading within column two currently reads:

'probability of remaining leukamia-free for five years (%)'

The word '**leukamia**' is spelt incorrectly and should read '**leukaemia**'.

Please amend your copy of the paper by inserting the letter 'e' after the letter 'a' and before the letter 'm' within the word 'leukamia' in the heading of column two of Table 3.1.

2. Please turn to **page 9, part (d), Fig. 4.1.**

The horizontal axis label of the spirometer trace currently reads:

'time (min)'

This should read:

'time (s)'

Please amend your copy of the paper by changing the word '**min**' to '**s**'.
