

**For issue on or after: 13 March 2024**

**A Level Chemistry B (Salters)**

**H433/02 Scientific literacy in chemistry**

**Advance Notice Article – Teacher Instructions**

**To prepare candidates for the examination taken on  
Tuesday 18 June 2024 – Morning**

## GUIDANCE NOTES

- 1 The Advance Notice Article should be issued to candidates on or after the date shown on the front cover, at a convenient time for the centre. Candidates can be given the article at any point, but it is suggested that this should be at least four weeks before the exam date.
- 2 Candidates will need to read the article carefully. Time can be built into the teaching programme to introduce the article content and to provide support and advice in the interpretation of the content. Candidates should be able to discuss the article freely and should be encouraged to investigate the topics covered in the article for themselves.
- 3 The exam will include questions based on the article. The questions are worth 20–25 marks. Candidates will be expected to apply their knowledge and understanding of the content in A Level Chemistry B (Salters) to questions based on the article.
- 4 The Advance Notice Article must not be taken into the exam. The question paper H433/02 will contain a clean copy of the article, as an insert. Candidates should be reminded that they will not have time during the exam to read the article for the first time. They should, however, refer to the article to help them to answer the questions.

## Copyright Information

OCR is committed to seeking permission to reproduce all third-party content that it uses in its assessment materials. OCR has attempted to identify and contact all copyright holders whose work is used in this paper. To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced in the OCR Copyright Acknowledgements Booklet. This is produced for each series of examinations and is freely available to download from our public website ([www.ocr.org.uk](http://www.ocr.org.uk)) after the live examination series.

If OCR has unwittingly failed to correctly acknowledge or clear any third-party content in this assessment material, OCR will be happy to correct its mistake at the earliest possible opportunity.

For queries or further information please contact The OCR Copyright Team, The Triangle Building, Shaftesbury Road, Cambridge CB2 8EA.
