Set Assignment 1

OCR Level 1/2 Cambridge National Certificate in Health and Social Care

OCR Level 1/2 Cambridge National Diploma in Health and Social Care

Unit R027: Creative activities to support individuals in health, social care and early years settings

Please note:

This OCR set assignment is to be used to provide evidence for the unit identified above. Alternatively, centres may 'tailor' or modify the assignment within permitted parameters (see Information for Teachers). It is the centre's responsibility to ensure that any modifications made to this assignment allow learners to show that they can meet all of the learning outcomes and provide sufficient opportunity for learners to demonstrate achievement across the full range of marks.

INSTRUCTIONS TO TEACHERS

The OCR administrative codes associated with this unit are:

- Unit entry code R027
- Certification code Certificate J811/Diploma J821

The qualification numbers associated with this unit are:

- Unit reference number T/503/6240
- Qualification numbers J811 - 600/4780/X, J821 - 600/4771/9

Duration: Approximately 10 hours

ALL OF THIS MATERIAL MAY BE PHOTOCOPIED. Any photocopying will be done under the terms of the Copyright Designs and Patents Act 1988 solely for the purposes of assessment.

Version 2 April 2019 - Change of title to set assignment, no other changes.

Set Assignment: Information for Learners

OCR Level 1/2 Cambridge National Certificate in Health and Social Care

OCR Level 1/2 Cambridge National Diploma in Health and Social Care

Unit R027: Creative activities to support individuals in health, social care and early years settings

Scenario for the assignment

Setting the scene – Producing materials about creative activities; planning and carrying out a creative activity.

The local authority has advertised for young people interested in volunteering to work in a range of different health, social care and early years settings.

You are interested in a career in health, social care or early years services and are keen to gain experience that will help you achieve this goal. You have applied for a volunteer placement and have been invited for interview. There is a lot of competition for the placements and they specifically wish to appoint someone who is able to show an understanding of the importance of developing effective creative activities for individuals in health, social care and early years settings.

The selection panel has set you a number of tasks in preparation for your interview.

Read through all of the tasks carefully, so that you know what you will need to do to complete this assignment.

Your tasks

Task 1: Creative activities in health, social care and early years settings

This task covers all of Learning Outcome 1: Understand the different types of creative activities available in health, social care and early years settings and Learning Outcome 2: Understand the benefits of participating in creative activities

For your interview you have been asked to present information, that shows your understanding of a wide range of different creative activities and the individuals or groups who may benefit from them in health, social care and early years settings.

You must:

- describe different types of creative activities and their purpose
- explain how the activities meet the needs of the following different groups:
 - children and young people
 - adults
 - older adults
- explain the relevant P.I.L.E.S benefits to individuals of participating in creative activities.

Task 2: Planning a creative activity

This task covers part of Learning Outcome 3: Be able to carry out creative activities in a health, social care or early years setting

The interview panel were impressed by your knowledge and the quality of the materials that you produced. You have been offered, and have accepted, the voluntary placement.

The first project you are given is to plan a creative activity that meets individual or group needs in your choice of setting from:

- health
- social care
- early years.

You must produce a plan for the creative activity which includes:

- why the activity is suitable for the individual or group
- the aim and objectives for the activity
- the timescales, methods, communication and resources to be used
- roles and responsibilities
- an explanation of health and safety issues
- pre-set criteria to measure the success of the activity.

Task 3: Carrying out and evaluating a creative activity

This task covers part of Learning Outcome 3: Be able to carry out creative activities in a health, social care or early years setting

You now have to deliver and evaluate the planned creative activity.

You must:

- carry out the creative activity
- review the creative activity
- make suggestions for improvement.

A witness statement will need to be provided commenting on how you carried out your creative activity.

Unit R027: Creative activities to support individuals in health, social care and early years settings

General guidance on using this assignment

1 General guidance

- 1.1 OCR assignments are available to download free of charge from our website:
www.ocr.org.uk
- 1.2 OCR assignments are intended to be used for summative assessment of learners. The OCR specification for this qualification gives more information on the arrangements for assessing internally assessed units.
- 1.3 This assignment has been designed to meet the full assessment requirements of the unit. Learners will need to take part in a planned learning programme that covers the underpinning knowledge, understanding and skills of the unit.

2 Before carrying out this assignment

- 2.1 Learners should be provided with a copy of the *Information for Learners* section of this assignment.
- 2.2 Learners will not need to carry out any preparations prior to undertaking the assessment tasks, such as collating resources to use in the assessment.
- 2.3 We have estimated that it will take approximately ten hours to complete all tasks. Learners would need approximately 4 hours to complete task 1, 3 hours to complete task 2 and 3 – 3.5 hours to complete task 3. These timings are for guidance only but should be used by the teacher to give learners an indication of how long to spend on each task. Centres can decide how the time can be allocated between each part of the task. Centres are also permitted to spread the tasks across several sessions and therefore it is permissible for evidence to be produced over several sessions.

3 When completing the assignment and producing evidence

- 3.1 Each learner must produce individual and authentic evidence for each task within the assignment.
- 3.2 Centre staff may give support and guidance to learners. This support and guidance should focus on checking that learners understand what is expected of them and giving general feedback that enables the learner to take the initiative in making improvements, rather than detailing what amendments should be made. It is not acceptable for teachers/deliverers to provide answers or to work through answers in detail.
- 3.3 Learners may use information from any relevant source to help them with producing evidence for the tasks.

- 3.4 Learners must be guided on the use of information from other sources to ensure that confidentiality is maintained at all times. It is acknowledged that learners in their responses may refer to situations in the scenario we have provided but as the scenario is fictitious this does not break any rules of confidentiality.
- 3.5 We have specified what evidence the learner is expected to produce. Usually, the type of evidence provided may be modified, with the exception of certain types of evidence listed below under '*Permitted changes*'. Format must not be confused with the content or the type of evidence to be produced and it is important to note that it is possible to generate the evidence in a variety of formats. Centres must advise learners as to the most appropriate format of evidence. The assessment is structured so that learners are required to provide evidence of using appropriate Health and Social Care techniques to meet specified purposes. It is unlikely that evidence of the techniques used will, on their own, provide sufficient evidence to judge the extent to which they have been used appropriately. Annotations may help to provide this additional context. The section *Evidence Summary* at the back of this document will guide you on the type of evidence and formats for evidence.

4 Presentation of work for marking and moderation

- 4.1 Centres wishing to produce digital evidence in the form of an e-portfolio should refer to the appendix in the specification on guidance for the production of electronic assessment.
- 4.2 Centres may wish to discourage learners from excessive use of plastic wallets for presentation of their evidence as this may hinder the assessment process. Instead centres may wish to encourage learners to present their work so that it is easily accessible, e.g. spiral bound, stapled booklet, treasury tag.

5 Scope of permitted set assignment modification

The set assignment is very self-contained in its present form. The set of tasks form a coherent whole addressing all the learning outcomes and allowing access to the full range of marks.

You **must not** change the following:

- the learning outcomes
- the marking criteria
- the requirements for supervision and authentication as described in the specification (section *The internally assessed units*)
- the requirement to produce a plan for the creative activity
- the requirement to carry out the creative activity.

Permitted changes:

The set assignment can be modified in terms of the areas described below at the permission of OCR but centres must be sure that learners still have the opportunity to cover all of the learning outcomes and to access the full range of marks:

- The learner's assignment may be contextualised or amended to suit local needs. Any local health, social care or early years setting could be used as a focus for the creative activity.
- Who the individual is and what their needs are.
- Each specific task may be appropriately contextualised to match with any permitted changes you have made to the scenario.
- The type of evidence required and the format it takes.

OCR has ensured that in the language used and the tasks and scenario provided we have avoided discrimination, bias and stereotyping and support equality and diversity. In the development of qualifications and assessments we use the guidance given in the Ofqual publication *Fair access by design*, notably this includes:

- using language and layout in assessment materials that does not present barriers to learners
- using stimulus and source materials in assessment materials (where appropriate) that do not present barriers to learners.

If centres wish to adapt the set assignment we strongly advise that staff responsible for modifying the set assignment and quality assuring it refer to the publication *Fair access by design*.

If modifications are made to the set assignment, whether to just the scenario or to both the scenario and individual tasks, it is up to the centre to ensure that all learning outcomes can be met and that learners can access the full range of marks.

Specific guidance on the tasks

Introduction to the tasks

These guidance notes should be used in conjunction with the specification.

The tasks have been designed to enable learners to demonstrate their knowledge and understanding of the different types of creative activities that are available to individuals in health, social care and early years settings. Learners will gain an understanding of the benefits of creative activities for individuals and will be able to carry out a creative activity in a health, social care or early years setting.

If learners produce evidence in the context of children, the children must be between 4-10 years.

Specific guidance on Tasks 2 and 3: planning, carrying out and evaluating a creative activity

The work for Learning Outcome 1 is generic, but for Learning Outcome 2 and Learning Outcome 3 learners need to select a health or social care or early years setting on which to base their work.

When preparing for the creative activity, the learner must produce a fully detailed plan, taking into consideration the criteria for Learning Outcome 3.

Ideally when carrying out the creative activity this would take place with individuals or a small group from an actual health, social care or early years setting. However, learners could carry out the activity as a role-play in a simulated environment. Participants in the role-play must be able to demonstrate realistic characteristics of the intended group. For example it would not be possible to role-play an activity in an early years setting due to the age of participants. However, an activity for chair bound adults could be realistically simulated.

The creative activity should last for a minimum of 15 minutes and a maximum of 30 minutes.

Evidence summary

When completing this assignment it may be possible to generate evidence for completing a task in a variety of formats. This list provides examples of the format that can be used, it is not exhaustive. In some cases the task or assignment will require a specific format for the outcome and this will be clearly marked with an asterisk in the table.

Task number	What learners need to produce (evidence)	Format of evidence (this list is not exhaustive)
Task 1	<ul style="list-style-type: none"> • Different types of creative activities • How activities meet needs • Benefits to individuals of participating in creative activities 	<ul style="list-style-type: none"> • Posters • Collage • Presentation slides • Mind map • Wall chart
Task 2	<ul style="list-style-type: none"> • Fully detailed plan for a creative activity 	<ul style="list-style-type: none"> • Written activity plan • Checklist
Task 3	<ul style="list-style-type: none"> • Carry out a creative activity • Review the creative activity • Suggestions for improvement 	<ul style="list-style-type: none"> • Witness/observation statement • Video evidence • Feedback sheets from participants • Written evaluation

Witness Statement – Task 3

LO3 Be able to carry out creative activities in a health, social care or early years setting.

ASSESSOR SIGNATURE:		Date	

ASSESSOR FEEDBACK – please give detail of how learners have met the criteria for the grade awarded.

Carrying out a creative activity in a health, social care or early years setting		
ORGANISATION	Please tick	Assessor comments
MB1 Carries out a simple activity. There may be limited structure.		
MB2 Carries out an appropriate creative activity which is structured and mostly follows to time.		
MB3 Carries out a well structured creative activity effectively , which meets time requirements.		
DELIVERY		Assessor comments
MB1 Demonstrates a limited confidence when delivering the creative activity and needed guidance and support to complete.		
MB2 Confidently delivered the creative activity, with no support necessary.		
MB3 Confidently and effectively delivers the creative activity, engaging their participants and adapting to ensure that the individuals or groups needs are met.		

AREAS FOR IMPROVEMENT/GENERAL COMMENTS
