## Assessment

---

This unit needs to be assessed in line with the Skills for Care and Development QCF Assessment principles.

This unit is knowledge based. It is centre-assessed and externally moderated by OCR. Centres will be required to design their own assignments. All assignments created by centres should be reliable and fit for purpose, and should meet all of the assessment criteria.

Assignments should provide a context in which candidates can operate, or which set out tasks which can be undertaken to meet the requirements of the assessment criteria, and their associated skills, knowledge and understanding. It is therefore important that the assessment criteria are clearly indicated in the assignments briefs.

Centres should enable learners to produce evidence in a variety of different forms, including performance observation, presentations and posters or projects. Centres are encouraged to emphasise the practical application of the assessment criteria, providing a realistic scenario for learners to adopt.

Assessment of these qualifications will be conducted in accordance with the appropriate codes of practice approved and published by the regulatory authorities.

When candidates complete an assignment, the centre assessor assesses their work. Centres will need to identify staff who will act as assessors. Assessors will need to have experience in making judgments about candidates' progress.

Achievement at unit level is Pass or Fail.

Learners undertaking this unit as part of the competence based qualifications, the Level 2 Certificate in Supporting Teaching and Learning in Schools and the Level 3 Certificate in Supporting the Wider Curriculum in Schools may be assessed using any method, or combination of methods, which clearly demonstrates that the learning outcomes and assessment criteria have been met.

## Guidance on assessment and evidence requirements

---

OCR does not stipulate the mode of delivery for the teaching of the content of this unit. Centres are free to deliver this unit using any mode of delivery that meets the needs of their candidates. Centres should consider the candidates' complete learning experience when designing learning programmes.
