# 1 Introduction

The information provided in this handbook is correct at the time of production. Occasionally we may update it so please check the qualification [webpage](#) for the most up-to-date information.

This handbook contains what you need to know about the planning, delivery and assessment of these qualifications. Staff involved in the delivery of these qualifications must have access to and understand the requirements in this handbook.

To access information on how to administer these qualifications please follow the link to the Administration area <http://www.ocr.org.uk/administration/>.

You should ensure candidates are informed of the title and level of the qualification they have been entered for and that Oxford Cambridge and RSA Examinations (OCR) is the awarding body for their chosen qualification.

These qualifications have been regulated by Ofqual for delivery in England.

## **Entry Level 1 Life and Living Skills Qualifications:**

**OCR Entry Level Introductory Award in Life and Living Skills (Entry 1) – OCR code 10160**

**OCR Entry Level Award in Life and Living Skills (Entry 1) – OCR code 10161**

**OCR Entry Level Extended Award in Life and Living Skills (Entry 1) OCR code 10162**

## **Entry Level 2 Life and Living Skills Qualifications:**

**OCR Entry Level Introductory Award in Life and Living Skills (Entry 2) – OCR code 10165**

**OCR Entry Level Award in Life and Living Skills (Entry 2) – OCR scheme code 10166**

**OCR Entry Level Certificate in Life and Living Skills (Entry 2) – OCR code 10167**

**OCR Entry Level Extended Certificate in Life and Living Skills (Entry 2) – OCR code 10182**

**OCR Entry Level Diploma in Life and Living Skills (Entry 2) – OCR code 10168**

## **Entry Level 3 Life and Living Skills Qualifications:**

**OCR Entry Level Introductory Award in Life and Living Skills (Entry 3) – OCR code 10169**

**OCR Entry Level Award in Life and Living Skills (Entry 3) – OCR scheme code 10170**

**OCR Entry Level Certificate in Life and Living Skills (Entry 3) – OCR scheme code 10171**

**OCR Entry Level Extended Certificate in Life and Living Skills (Entry 3) – OCR code 10183**

**OCR Entry Level Diploma in Life and Living Skills (Entry 3) – OCR code 10172.**

It is important that centre staff involved in the delivery of the above qualifications understand the requirements which are laid down in this handbook. Centres should therefore ensure that all staff involved in the delivery of these qualifications have access to this document.

## 1.1 The OCR Life and Living Skills suite of qualifications

---

The OCR Life and Living Skills suite of Entry Level qualifications provide learners with high quality, nationally recognised qualifications. They are credit-based qualifications that provide valuable opportunities for individuals to develop skills, gain underpinning knowledge and understanding and offers opportunities for learners to progress to higher level units in the suite or to achieve units at the same level, where progression to a higher level is not possible.

The qualifications have been designed for both young people and mature learners, including those with profound and multiple learning disabilities. Over 150 bite-sized units are available across a wide range of engaging skill areas. Any combination of units, at any level, can be selected to suit the particular needs and interests of the learner. This provides the opportunity to build a rich and varied personalised learning programme for the learner.

The suite of qualifications contains units suitable for learners working at different stages of the Entry 1 Achievement Continuum.

The awarding body for these qualifications is Oxford Cambridge and RSA Examinations (OCR) and the regulatory body is the Office of Qualifications and Examinations Regulation (Ofqual).

These Foundation Learning qualifications are regulated in the Qualifications and Credit Framework and appear on the Register of Regulated Qualifications.

## 1.2 Administration arrangements for these qualifications

---

For information on how to administer these qualifications please follow the link to OCR's Administration area, <http://www.ocr.org.uk/administration/>.

## 1.3 If centre staff have queries

---

This Centre Handbook and the Administration area on the OCR website <http://www.ocr.org.uk/administration/> contain all the information needed to deliver and administer these qualifications. If centre staff have any queries about these qualifications that are not answered, they should refer to the section [Further support and information](#) for details of who to contact. Support is also available on the OCR webpages for these qualifications.

## 1.4 Documentation updates

---

The information provided in this handbook was correct at the time of production. Occasionally OCR may update this information. Please refer to the qualification webpages at [www.ocr.org.uk](http://www.ocr.org.uk) for details regarding updates to these qualifications.

## 2.2 Target market

---

This suite of Entry Level qualifications is suitable for both young and mature learners, including those with profound and multiple learning disabilities, engaged in a variety of full or part-time learning programmes.

The qualifications include a range of Entry 1 units that are suitable for those learners working at different stages of the Entry 1 Achievement Continuum.

## 2.3 Qualification aims

---

This suite of Foundation Learning qualifications has been developed to offer a range of 'bite-sized' units which learners can use to build flexible and relevant qualifications, geared to their individual interests and skills. It has been designed for both young people and mature learners, including those with profound and multiple learning disabilities, and contains a wide range of engaging skill areas.

This qualification contains units suitable for learners working at different stages of the Entry 1 Achievement Continuum. The qualifications provide the opportunity to build an individualised, rich and varied learning programme based around a wide range of skill areas that will suit individual learner's skills and interests.

## 2.4 Entry requirements

---

These qualifications are available to anyone who is capable of reaching the required standards. They have been developed free from any barriers that restrict access or progression thereby promoting equal opportunities.

All centre staff involved in the assessment or delivery of these qualifications should understand the requirements of the qualification and match them to the needs and capabilities of individual learners before entering them as learners for one of these qualifications.

There are no formal requirements for entry to these qualifications.

## 2.5 Unique Learner Numbers (ULN) and Personal Learner Records (PLR)

---

This is a personal ten-digit number, which is used to ensure learner achievement information can be provided to their Personal Learning Record (PLR). ULNs are provided and administered by the Learning Records Service (LRS).

Learners over the age of 14 in UK education or training can access the PLR using their ULN. Learners keep the same ULN to access their PLR throughout their lives and whatever their level of learning.

Candidates that claim certification for publically funded qualifications must have a valid ULN.

Where a candidate has a ULN, you must enter their ten digit number in the ULN field when making entries via Interchange. For candidates who do not have a ULN, a claim will still be accepted if you leave this field blank, but OCR will not be able to send these achievements to the PLR.

Further information about this can be found in the Administration area <http://www.ocr.org.uk/administration/> and at the Learner Records Service <https://www.gov.uk/government/publications/learning-records-service-personal-learning-record>

## 2.6 Progression opportunities

---

This suite of Entry Level qualifications has been designed to encourage progression through its own structure. Learners may progress to higher level units or achieve additional units at the same level where progression to a higher level is not possible. Learners may also progress to larger Life and Living Skills qualifications at Entry 1, Entry 2 or Entry 3.

Entry 1 units will be assessed against the Entry 1 Achievement Continuum and it is possible that learners could progress within the Continuum using these qualifications.

These qualifications may also be used as stepping stones towards Cambridge Progression and Functional Skills qualifications at Entry Level or Level 1 for some learners.

## 2.7 Supporting OCR learners

---

Centres should ensure that learners are informed of the title and level of the qualification they have been entered for and that Oxford Cambridge and RSA Examinations (OCR) is the awarding body for their chosen qualification.

Centre staff should provide guidance to learners on the assessment process and help learners prepare for assessment. Full details on how the units are assessed are in sections 3 and 6 of this centre handbook.

## 2.8 Guided learning hours

---

Each of the units in these qualifications is allocated a number of guided learning hours (glh) which indicates the approximate number of hours for teacher supervised or directed study time and assessment. Information on unit glh for this qualification is given against the list of Units in section 6.

## 2.9 Funding

---

Funding arrangements can be subject to change. For the latest details about approval and funding eligibility, we recommend you visit the following websites:

[Register of Regulated Qualifications](#) – Ofqual’s register of regulated qualifications

Department for Education (DfE) [Section 96](#) – for confirmation of the approval of qualifications to be delivered to specific age ranges.

[Education Funding Agency](#) for public funding information for learners (0-18) in England

[Department for the Economy](#) for public funding in Northern Ireland

[Qualifications in Wales](#) database (QiW) for public funding in Wales

[Skills Funding Agency](#) for public funding information for learners (19+) in England.

Use the Ofqual Qualification Number (QN) when you're looking for information on qualification eligibility for public funding.

If you have any queries about funding for these qualifications email us at [funding@ocr.org.uk](mailto:funding@ocr.org.uk).

---

## 2.10 Mode of delivery

OCR does not specify the mode of study or specify a time limit for the achievement of these qualifications other than the expiry dates for entry and certification laid down by the regulatory authorities.

Centres are free to deliver these qualifications using any mode of delivery that meets the needs of their learners. Whatever mode of delivery is used, centres must ensure that learners have appropriate access to the resources identified below.

Centres should consider the learners' complete learning experience when designing learning programmes.

---

## 2.11 Resources

Centres should ensure that learners have access to the resources they may require in order to achieve the learning outcomes and assessment criteria for the unit; for example access to ICT resources, or to kitchen facilities.

Staff conducting assessment must understand fully the requirements of these qualifications.

Centres will need to provide appropriate assessment facilities for learners that comply with the regulations laid down by OCR in the Administration area <http://www.ocr.org.uk/administration/> and the *JCQ Instructions for Conducting Examinations*, available on the OCR website [www.ocr.org.uk](http://www.ocr.org.uk).

Centres will need to meet the above requirements when they seek centre approval from OCR.

---

## 2.12 Delivery in Wales and Northern Ireland

The candidates in Wales or Northern Ireland shouldn't be disadvantaged by terms, legislation or aspects of government that are different from those in England. Where such situations might occur, we've used neutral terms so that candidates may apply whatever is appropriate to their own situation.

We'll provide handbooks, assessments and supporting documentation in English.

---

## 2.13 Accessibility

Reasonable adjustments and access arrangements allow candidates with special educational needs, disabilities or temporary injuries to access the assessment and show what they know and can do, without changing the demands of the assessment. It's important that you identify as early as possible whether candidates have disabilities or particular difficulties that will put them at a

disadvantage in the assessment situation and choose a qualification or adjustment that will allow them to demonstrate attainment.

The responsibility for providing adjustments to assessment is shared between your centre and us; for further information please read the Joint Council of Qualifications' (JCQ) booklet Access Arrangements and Reasonable Adjustments [www.jcq.org.uk](http://www.jcq.org.uk).

For more information on access arrangements refer to the Administration area, preparation at <http://www.ocr.org.uk/administration/>.

If you think any aspect of these qualifications unfairly restricts access and progression, please email or call our Customer Contact Centre by phone on 02476851509 or by email at [vocational.qualifications@ocr.org.uk](mailto:vocational.qualifications@ocr.org.uk).

## 2.14 Results enquiries and appeals

---

Under certain circumstances, you may wish to query the result(s) issued to one or more candidates. To find out more about this, please refer to the JCQ *Post-Results Services* booklet and the Administration area, post results services, <http://www.ocr.org.uk/administration/>

# 3 Assessment

## 3.1 Assessment: How it works

---

All units are internally assessed by centre staff and externally moderated by us. The methods of moderation available are:

- postal moderation
- submission by email.

Assessment and moderation can take place at any time.

In order for learners to be able to effectively progress towards meeting the requirements of each assessment criterion, teachers/tutors must make sure that the supporting knowledge, understanding and skills required for each criterion are fully addressed. The identified examples of how the assessment criteria could be met in the unit (the third column) are not exhaustive and may be expanded upon or tailored to particular contexts to which the unit is being taught and the assessment criteria applied.

Ideally, evidence could be generated as part of an activity that the learner has to carry out in the context of their main programme/curriculum activity.

When assessors are satisfied that the learner has met all of the requirements for a unit, they must confirm this by completing and signing the relevant evidence recording document(s) for that unit to show that the assessment process is complete. Each unit has a Record of Assessment and Evidence which must be individually completed for each learner.

If the OCR Examiner-moderator withdraws a unit, the learner may be entered again by the centre. There is no restriction, other than the life of the qualification, on the number of times a learner may be entered for a unit.

### Centre assessed and OCR moderated units

---

All units are centre-assessed and postally externally moderated by OCR. Centres may be able to identify opportunities in the learner's main programme/curriculum for generating evidence, or they may need to devise activities that enable learners to meet all of the assessment criteria in these units.

To help centres with this, OCR has provided suggested ways in which the assessment criteria may be met, which can be found within each unit. It may be possible for learners to generate evidence for more than one unit at the same time – eg producing evidence for a Communication and a World of Work unit through completing one activity.

Centre assessors must be familiar with the content of the unit before assessing learners. Some units specify that learners must complete an activity more than once in order to meet the evidence requirements. Centre assessors must ensure this forms part of the assessment for the unit, and is recorded on the assessment recording documentation that is submitted for external moderation.

Key features of the assessment for these qualifications are:

- Assessment can take place as and when the learner is ready
- Units may be assessed by any method, or combination of methods, that clearly demonstrate that learning outcomes and assessment criteria have been met by the learner

- OCR recording documents are provided for each unit and completed by the assessor to record and track learners' individual assessment and evidence.
- All units are centre-assessed and all evidence is sent by post or email, to an appointed OCR Examiner-moderator to be moderated. Only units where the learner has clearly demonstrated they have met the evidence requirements should be submitted to the OCR Examiner-moderator
- Achievement at unit level is Pass or Fail.

Assessment of these qualifications will be conducted in accordance with the appropriate codes of practice approved and published by the regulatory authorities.

When learners complete an evidence-generating activity, the centre assessor (usually the teacher/tutor) assesses their work. Centres will need to identify staff who will act as assessors. Assessors will need to have experience in making judgments about learners' progress.

Assessors must:

- identify opportunities in the learner's main programme/curriculum for generating evidence
- plan assessment activities to ensure the learner is able to produce evidence that meets the learning outcomes and assessment criterion
- explain to the learner what needs to be done
- judge the learner's work against the standard identified to meet the assessment criterion
- identify valid and sufficient evidence unique to each candidate
- identify gaps in evidence
- give feedback to learners
- liaise with other assessors in the centre to ensure standards are consistent
- make sure learners know they must comply with the Data Protection Act when they are producing work for assessment. Learners must not reference another individual's personal details in any evidence produced for assessment. It is the learner's responsibility to make sure evidence that includes another individual's personal details is anonymised
- verify learner achievement by completing and signing OCR assessment recording documentation – Record of Assessment and Evidence
- maintain records of learners' achievements.

## Amount of evidence needed

---

It is difficult to give detailed guidance regarding the amount of evidence needed as it depends on the assessment criteria requirements, the type of evidence collected and the judgement of assessors. For many units, completed observation statements or witness testimonies may be sufficient evidence, whereas other units may require evidence of activities to be submitted to the OCR moderator, e.g. printout of sent email, photographs of the learner undertaking an activity, written information produced by the learner. For a learner to be judged competent in a unit, the evidence presented must satisfy all the assessment requirements and assessment criteria. The quality and breadth of evidence provided should determine whether a centre assessor is confident that a learner is competent or not. Centre assessors must be convinced that learners working on their own can work independently to the required standard.

Evidence will not be returned to the centre after it has been externally moderated. It is inappropriate to send a learners' complete portfolio of work; only evidence supporting the achievement by the learner of the assessment criteria and learning outcomes is required. OCR recommends centres keep a copy of the evidence submitted for external moderation.

OCR is not able to moderate evidence provided in an electronic format (eg CDs, datasticks etc) for this qualification, however email submission is permitted. Please contact the OCR Customer Contact Centre if you want to find out your moderator's OCR email address.

For further guidance, please go to the website where there are FAQs and sample portfolios.

## 3.2 Method of assessment

---

OCR has identified the following main assessment methods which are suitable for these qualifications:

- **direct observation** of the learner
- **questioning** of the learner or **discussion**
- **examining the product** or the **learner's work**

These assessment methods may be carried out by an assessor or by a person who is familiar with the learning outcomes and assessment criteria for the relevant unit.

Units may be assessed by any method, or combination of methods, that clearly demonstrate that learning outcomes and assessment criteria have been met by the learner. It is the assessor's responsibility to agree the best method of assessing a learner in relation to their individual circumstances. The methods agreed must be:

- valid
- reliable
- safe and manageable
- suitable to the needs of the learner.

### Valid

---

A valid assessment method is one that is capable of measuring the knowledge or skills in question. For example, a written test cannot measure a learner's practical skills or their ability to work well with others.

Validity can be compromised if a learner does not understand what is required of them. For example, one valid method of assessing a learner's knowledge and understanding is to question them. If the questions posed are difficult for the learner to understand (not in terms of the content but the way they are phrased, for example), the validity of the assessment method is questionable.

As well as assessment methods being valid, the evidence presented must also be valid. For example, it would not be appropriate to present an organisation's guidelines on data security as evidence towards the requirement of unit F11 "Know how to use ICT safely", unless developed by the learner, as it would not allow for valid assessment. It may be more appropriate for the learner and assessor to have a discussion about the guidelines and for the learner to explain how they are relevant, illustrated with examples of how they could be applied in a practical situation. This discussion could then be assessed by the assessor and recorded as evidence.

Any evidence generated as a result of a learner working with others in a group, must be clearly attributable to the individual learner.

When witness and observations statements are recorded, it must be clear to the Moderator that these are produced in relation to an individual learner. The witness and observation statements should be unique to the individual learner and should be recorded accurately, identifying how the particular learner demonstrated their skills, knowledge and understanding. It would not be expected that every learner would complete a task exactly the same way, and therefore validity is compromised if all Records of Assessment and Evidence are identical.

## Reliable

---

A reliable method of assessment will produce consistent results for different assessors on each assessment occasion. Internal quality assurance personnel must make sure that all assessors' decisions are consistent through internal standardisation.

## Safe and manageable

---

Assessors and internal quality assurance personnel must make sure that the assessment methods are safe and manageable and do not put unnecessary demands on the learner.

## Suitable to the needs of the learner

---

OCR has tried to make sure that there are no specific barriers to assessment. OCR aims to make sure that centres give learners equal opportunity to demonstrate their competence for the units against specified criteria. All of the specified criteria must be met by learners independently and may not be reworded or omitted in any circumstances.

Reasonable adjustments may be made for learners with a disability in order for them to be able to access assessments. Please see Section 2.14 for more detail.

If centre staff believe that any aspect of these qualifications unfairly restricts access and progression, they should contact our Customer Contact Centre by phone on 02476 851509.

## 3.3 Internal standardisation

---

Internal standardisation is an important part of the local assessment process. Centres are required to demonstrate that a system is in place which ensures that all assessment is being carried out in a similar way and to an equivalent standard across all teachers/tutors acting as assessors. OCR may require evidence of this process. Centres are required to keep evidence of standardisation and records of any decisions/issues for a minimum of one year.

In order to maintain a consistent approach to internal standardisation, internal quality assurance personnel should be nominated. This person will be responsible for:

- maintaining a list of current assessors
- ensuring that all current assessors are working to the same standard
- arranging regular meetings
- ensuring cross-moderation of work between assessors
- maintaining records of the outcome of cross-moderation activities
- regularly sampling the assessment of all assessors and documenting the outcome
- advising assessors of any discrepancies in assessment and suggesting ways in which assessment may be brought into line with the work of other assessors
- completing centre standardisation document(s) – centres should use their own documentation.

## 3.4 Completion of assessment recording documentation

---

The following documents must be provided as evidence of achievement for each unit completed by the learner:

### **Entry Level 1 units:**

- Record of Assessment and Evidence (RAE)
- Supporting evidence where appropriate

### **Entry Level 2 units:**

- Record of Assessment and Evidence (RAE)
- Supporting evidence where appropriate

### **Entry Level 3 units:**

- Record of Assessment and Evidence (RAE)
- Supporting evidence where appropriate

For each unit within the qualification OCR has produced a template for the Record of Assessment and Evidence. These templates can be downloaded from the 'Forms' section of the Life and Living Skills qualification page on the OCR website. These can be completed electronically or by hand.

## Entry 1 Achievement Continuum

---

The Entry 1 Achievement Continuum is a 10 stage continuum that identifies the achievement characteristics of each stage in the continuum and provides a descriptor for each stage. This document should be used when assessing the Entry 1 units and the assessment outcome should be recorded at the end of the Record of Assessment and Evidence sheet (RAE). A copy of this can be retained and then attached to the certificate to confirm what stage the learner has reached on the continuum. The Achievement Continuum can be downloaded from the 'Key Documents' section of the Life and Living Skills qualification page on the OCR website.

Learners who progress at least one stage along the Entry 1 Achievement Continuum may be assessed for the same unit more than once. In this instance a new Record of Assessment and Evidence (RAE) should be completed to reflect this achievement. As each unit can only be certificated by OCR once, centres should not submit this second Record of Assessment and Evidence to OCR.

## Record of Assessment and Evidence - Entry 1, Entry 2 and Entry 3

---

The Record of Assessment and Evidence (RAE) is used to record and track the assessment of a learner's evidence for each assessment criterion in the unit.

## Completion of the Record of Assessment and Evidence

---

A Record of Assessment and Evidence (RAE) must be completed for each unit achieved by the learner. The RAE must clearly show that evidence has been generated for all of the assessment criteria in the unit and that the evidence has been assessed.

When completing the RAE the assessor must ensure that:

- the learner details are completed at the top of the record
- the method(s) used to assess the evidence is ticked
- the relevant evidence section(s) are completed and they include details of how the evidence was generated and assessed (this should be unique to the individual learner) and if other evidence is being submitted
- if the Observation section of the RAE is used to record observation statements, it must be signed and dated by the person who made the observation
- evidence includes details of the assessment criteria covered
- the learner has completed the unit and provided sufficient evidence for all the assessment criteria in the unit
- when the unit has been completed the RAE is signed and dated by the assessor.

There is no requirement to provide three types of evidence for each assessment criteria.

The RAE must be submitted to OCR for moderation along with any other assessment documents/product evidence for the unit.

Teachers/tutors must check that each assessment criterion has been successfully met by the learner before work is signed and sent for external moderation.

### 3.5 External moderation

---

External moderation ensures centres' internal assessments meet the national requirements of these qualifications.

OCR Examiner-moderators are allocated by OCR to moderate centre assessment decisions.

OCR requires centres to submit only the appropriate documentation and relevant evidence for specific units claimed for moderation. Any evidence submitted will not be returned to the centre it is therefore recommended that centres retain a copy of the evidence. OCR does not require centres to submit for moderation additional evidence produced by the learner in the course of an activity. OCR, however, anticipates that centres will wish to create programmes for learners towards the completion of these units that will generate additional items of evidence. Centres are free to do this, but OCR does not require these items for accreditation of unit achievement.

Centres must complete a Submission Cover Sheet for each learner to send to their OCR Examiner-moderator together with the relevant assessment recording documents and accompanying evidence for the unit(s) being claimed. The template for the Submission Cover Sheet can be found on the 'key documents' section of the Life and Living Skills qualification pages on the OCR website. This form can be completed electronically or by hand.

External moderation of a centre's assessment decisions is achieved through systematic sampling. The assessment decisions of each assessor submitting work will be sampled by the OCR moderator. The outcomes of moderation will apply to all work submitted in each batch for moderation.

The Examiner-moderator will complete a Centre Feedback Report Form (eNQF6) for the batch. If the centre assessment is satisfactory, arrangements will be made for certification.

If an Examiner-moderator disagrees with an assessor's assessment decision; the claims from that assessor will be rejected. The Examiner-moderator will record the information on the Centre Feedback Report Form (eNQF6). This report should be disseminated to all Life and Living Skills assessors in the centre.

Examiner-moderators are not empowered to enter into direct contact with centres. In no circumstances must centres attempt to contact their Examiner-moderator in any way other than through posting learner work to the address provided to them by OCR. Any queries concerning the units or assessment must be directed to OCR, Coventry.

### 3.6 Reporting suspected malpractice

---

It is the responsibility of the Head of Centre<sup>[1]</sup>, to report all cases of suspected malpractice involving centre staff or learners. A JCQ Report of Suspected Malpractice form (JCQ/M1 for candidate suspected malpractice or JCQ/M2a for staff suspected malpractice) is available to download from the [JCQ website](#) and should be completed as soon as possible and emailed to [malpractice@ocr.org.uk](mailto:malpractice@ocr.org.uk).

When asked to do so by OCR, Heads of Centres are required to investigate instances of malpractice promptly and report the outcomes to OCR.

Further information regarding reporting and investigating suspected malpractice and the possible sanctions and penalties which could be imposed, is contained in the JCQ publication: *General and Vocational Qualifications – Suspected Malpractice in Examinations and Assessments*; this is available from the [JCQ website](#). Centres may also like to refer to the [OCR Website](#) for more details.

---

[1] The Head of Centre is defined as the most senior officer in the organisation, directly responsible for the delivery of OCR qualifications, e.g. the Principal of a College, the Head Teacher of a school, the Managing Director of a Private Training Provider or the Group Training Manager of a major company.

# 4 Assessor Requirements

## 4.1 Assessment Centre Requirements

---

The Assessment Centre must:

- Ensure that there are a sufficient number of people to assess the number of learners they anticipate to register
- Ensure that there is a system of standardisation in place to ensure that all assessments are consistent and fair
- Ensure that those undertaking the roles of assessment maintain their skills, knowledge and understanding regarding assessment and the associated qualification.

The integrity of assessments is of paramount importance. Centres must ensure that there is sufficient time to conduct effective assessment.

## 4.2 Assessors

---

Assessment is an activity that can be performed by a dedicated individual or as part of an individual's wider role eg supervisor, manager, tutor, support worker.

The Assessment centre must ensure that those making assessment decisions have the necessary expertise to do so.

All assessors must:

- be familiar with the content of the unit before assessing learners
- be familiar with the units that relate to the qualification and must be able to interpret and make judgements relating to the skill area being assessed
- individually complete and sign all the relevant assessment recording documentation to confirm the learner has met the unit evidence requirements

# 5 Certification

Learners who achieve the full qualification will receive:

- a certificate listing the unit(s) achieved with their related credit value, and
- a certificate giving the full qualification title and qualification number.

Learners achieving one or more units but who do not meet the credit requirements for a full qualification will receive a certificate listing the units they have achieved along with their credit value.

## 5.1 Claiming certificates

---

Certificates will be issued directly to the centre for successful learners. In order to ensure that these are automatically issued centres must ensure that the OCR learner number is **always** used where a learner has already achieved one or more units.

For further information regarding making claims, please refer to the Administration area, certificates, <http://www.ocr.org.uk/administration/>.

## 5.2 Replacement certificates

---

For details on replacement certificates refer to the Administration area, certificates, <http://www.ocr.org.uk/administration/>.

# 6 Qualification structure and units

## 6.1 Qualification structure and unit titles

---

Learners do not have to achieve units in any particular order and teachers/tutors should tailor learning programmes to meet individual learner needs.

There are no minimum entry requirements. The qualifications offer 151 units that can be combined to build a rich and varied personalised learning programme.

All units are available for selection for each of the qualifications, eg learners can complete Entry 1, Entry 2 and Entry 3 units within the same qualification (spiky profile).

All units are available to all Awarding Organisations for inclusion in their own qualifications. Some of the units in the Life and Living Skills qualifications have been developed by other Awarding Organisations, and have been included in their own qualifications; in particular, the Personal Progress qualification. Therefore, learners may have already achieved particular units through completion of previous qualifications. Centres should ensure that learners' prior achievements are considered when planning their learning programme for Life and Living Skills, and that learners do not re-do units they have already achieved.

If learners have previously achieved a unit included in the Life and Living Skills, they can use it to contribute to their Life and Living Skills qualification. Please see the Administration area, <http://www.ocr.org.uk/administration/> for how to submit evidence of prior unit achievement.

The rules regarding the minimum number of credits to be achieved at the level of the qualification are shown below.

If a learner is not able to complete a full qualification, their achievements will be recognised through the issue of a unit certificate listing the units achieved.

## Qualifications

The following table shows the number of credits required for each qualification in the suite. The level of the qualification is determined by the number of credits achieved at a level eg to achieve an Entry 2 Award the learner must achieve at least 6 credits, 4 of which must be at Entry 2.

OCR code	Level	Qualification title	Credits	Minimum credit at level	GLH	QCF qual code
10160	Entry 1	Introductory Award	2	Min 2 credits	20	501/0958/3

10171	Entry 3	Certificate	13	Min 7 credits	115 - 130	501/1033/0
10183	Entry 3	Extended Certificate	25	Min 13 credits	235 - 250	501/1492/X
10172	Entry 3	Diploma	37	Min 19 credits	335 - 370	501/1204/1

## Units

The following table contains the units available in all of the qualifications. There are no mandatory units, or barred combinations. The skill area does not appear on the learner's certificate, only the unit title, level, QCF unit number and credit value.

Units included in Life and Living Skills which have been developed by OCR are indicated by an asterisk in the table below. Any other units not marked with an asterisk have been developed by other Awarding Organisations. If learners have achieved a unit within Life and Living Skills previously, they can use it to contribute to Life and Living Skills. Please refer to the Administration area, <http://www.ocr.org.uk/administration/> for details on how to claim in this instance.

The following units will be removed from the Life and Living Skills suite from September 2015:

- G2 Producing a product (H/501/6369)
- N18 Investigating rights and responsibilities (J/501/6333)
- C9 Introduction to the local community (F/500/4682)
- I1 Identification of basic external and internal car parts (L/500/5561)
- M21 Introduction to issues of substance misuse (A/500/5524)
- M22 Personal body hygiene awareness (F/500/4729)

**You will not be able to make claims for certification for these units after 30 September 2015.** Please note that certification claims cannot be made for units after this date, nor will these units count towards full awards/certificates. Therefore, please ensure any claims that include these units are made prior to 30 September 2015.

# 7 Administration arrangements

This section provides an overview of the administration arrangements operating for these qualifications. For information on how to administer these qualifications please follow the link to OCR's Administration area, <http://www.ocr.org.uk/administration/>. In particular, centres should refer to:

1 – Introduction

4 – Entries

5 – Access arrangements and special consideration

6 – Remote assessment arrangements (which includes details about claiming certification)

10 – Certification

These qualifications are administered via the OCR Interchange secure website. Centres may also find the following documents useful:

OCR website: Interchange, Documents and links  
<http://www.ocr.org.uk/interchange/docs/index.html>

- OCR Interchange Agreement (Key Documents)
- Getting Started with Interchange (Key Documents)
- Making entries for vocational qualifications via Interchange (Step-by-step guides for centres)
- Making online claims for QCF and Functional Skills qualifications (Step-by-step guides for centres)

## 7.1 How to gain centre approval

---

Centres can download and complete the electronic Centre Approval Form from the OCR website and return it to OCR Operations (or complete and submit it electronically) <http://www.ocr.org.uk/i-want-to/become-an-approved-centre/>. Alternatively contact the OCR Customer Contact Centre on 024 7685 1509.

Further guidance on completion of the Centre Approval Form is provided in the Administration area, <http://www.ocr.org.uk/administration/>.

## 7.2 How to enter learners

---

In order to let OCR know which qualifications learners wish to take, you need to make entries. Making entries must be carried out via OCR Interchange - OCR's secure extranet facility. For full details of the process please see OCR's Administration area, Entries <http://www.ocr.org.uk/administration/>.

## 7.3 What are learner entries?

---

In order to let OCR know which qualifications your learners wish to take, you need to make entries.

There are two ways to enter learners:

- **Full award entry** – Learners can be entered for the full award when they are intending to complete the whole qualification rather than just individual units. This is often a more cost-effective way to make entries. Please note, however, if a learner does not complete the full award, the remaining units cannot be transferred to another learner. Following qualification achievement, if a learner wishes to upgrade to the next size of qualification e.g. from an Award to a Certificate, they should claim **unit entry** for the additional units required, indicating that they are being claimed for the larger qualification.
- **Unit entry** – It is possible for learners to build up their qualification unit by unit. This may be useful if a centre is unsure whether a learner is intending to complete the full qualification.

Learners should be entered either for the full award **or** individual units. They should **not** be entered for both.

## 7.4 Entry routes

---

There are two main routes for making entries:

- **Named entry** – This is where you provide specific learner information (e.g. name and date of birth) for each qualification. The advantage of named entry is that materials we supply are personalised, requiring less manual work later. In general, this is OCR's preferred entry route.
- **Unnamed entry** – This allows you to order a number of units or qualifications in bulk, without specifying who will be taking them. Although this increases the flexibility of the administration, it may increase the administrative burden later in the process.

## 7.5 How to make claims

---

All claims should now be carried out via OCR Interchange. For full details of the process please see [Making a claim using OCR Interchange](#)

**Please note that completed work must be sent to the Life and Living Skills Examiner-moderator within 24 hours of the claim being made.**

## 7.6 Submission Cover sheet

---

A Submission Cover Sheet must be completed for each learner and attached to their evidence when it is submitted to the OCR Examiner-moderator for moderation.

The Submission Cover Sheet confirms the qualification and units being claimed for each learner. It is available in the forms section of the Life and Living Skills web page and can be completed electronically or by hand.

## 7.7 Overview of full process

---

For detailed information on the administration process for these qualifications centres must refer to the Administration area, <http://www.ocr.org.uk/administration/>.

The following flow chart provides a brief summary of how these qualifications are delivered.

# 8 Supporting Documentation

## 8.1 OCR Life and Living Skills assessment support documents

---

A range of documents have been produced to support centres in the delivery and assessment of these qualifications.

## 8.2 Assessment recording form templates

---

OCR assessment and evidence recording documents have been produced for each unit in the suite of qualifications. These have been designed to support centres and learners in recording assessment and tracking evidence. The recording documents should be used in conjunction with the related unit.

**Entry Level 1, 2 and 3 units:** Record of Assessment and Evidence (RAE)

The above assessment forms must be completed and submitted to the OCR Examiner-moderator as evidence of achievement for each unit completed by the learner. Details on how to complete the assessment documents can be found in Section 3 of this handbook.

## 8.3 Sample completed assessment forms and evidence

---

Completed OCR Life and Living Skills sample assessment and evidence recording documents for Entry 1, Entry 2 and Entry 3 units are available on the OCR website. These documents provide an example of the type of evidence which may be submitted, and the OCR forms that need to be completed and submitted for moderation at each level. Standardisation points for each unit are also available.

## 8.4 Entry 1 Achievement Continuum

---

The Entry 1 Achievement Continuum is a 10 stage continuum that identifies the characteristics of each of the 10 stages of achievement at Entry 1 and provides a descriptor for each stage. Where centres choose to complete the continuum, this document should be used to help identify which stage the learner is at.

## 8.5 Guide to stages on the Achievement Continuum covered by Entry 1 units

---

This guide shows the stages of the Entry 1 Achievement Continuum covered by each Entry 1 unit in the Life and Living Skills qualification. This enables centres to easily identify which Entry 1 units may be suitable for their learners.

The above supporting documents can be downloaded from the [Life and Living Skills webpage](#).

# 9 Guidance For Learners

## 9.1 What are the Life and Living Skills qualifications?

---

Life and Living Skills qualifications offer more than 150 'bite-sized' Entry Level units over a wide range of skill areas. Any of these units can be combined to build a Life and Living Skills qualification that reflects your individual interests and skills.

There are no minimum entry requirements, and the qualifications are suitable for both young people and mature learners, including those with profound and multiple learning disabilities. The qualifications contain units suitable for learners working at different stages of the Entry 1 Achievement Continuum.

A range of different sized qualifications at Entry Level 1, Entry Level 2 and Entry Level 3 are available. This choice of qualifications allows you to progress to higher level qualifications or achieve more units at the same level if you are unable to progress to a higher level.

## 9.2 What do I have to do to achieve this qualification?

---

Each unit in the qualifications has a credit value. To achieve any of the above Life and Living Skills qualifications you must achieve the required number of credits by selecting a combination of units from those listed in Section 6 of this handbook. You can choose any unit from any skill area at any level. The level and size of qualification you achieve will depend on the number of credits you achieve at a particular level. Refer to section 6 for full details of the qualification structure and units.

## 9.3 What if I cannot gain enough credits for a full qualification?

---

These qualifications are very flexible and allow you to achieve recognition for what you have achieved even if you do not finish the full qualification. OCR has systems in place which allow you to be awarded a certificate listing the unit (or units) you have achieved even if you are unable to complete the full qualification.

## 9.4 How do I know that these qualifications are right for me?

---

These qualifications are designed to recognise learners' development of knowledge and/or skills to operate independently and be effective in life, learning and work.

These qualifications may also form a progression route to higher level courses such as Level 1 Functional Skills qualifications, where appropriate for learners.

## 9.5 How are the units assessed?

---

All of the units are assessed by centre staff, who will have a good understanding of the content of the units and the ability of the learner. When the centre claims the certificates for their learners, the work is sent to an OCR Examiner-moderator, who checks the assessor's work before approving the certificate claim.

## 9.6 Do I need to pass all of the units?

---

The units that need to be passed in order to achieve a full Life and Living Skills qualification are detailed in section 6 – Qualification Structure and Units. However, each unit represents a worthwhile achievement in its own right, and certification is also available for individual units.

## 9.7 Can my work for these qualifications prepare me for Functional Skills?

---

The work that you do for these qualifications may help to prepare you for the functional skills assessments, particularly units from the Communication, Numeracy and ICT skill areas.

**OCR wishes you every success in your achievement of these qualifications.**

# 10 Mapping and Signposting

## 10.1 Entry level 1 Achievement Continuum mapping

---

Life and Living Skills units at Entry Level 1 have been developed to allow recognition within the QCF of achievement below Entry Levels 2 and 3. This achievement is measured against the 10 stage Entry 1 Achievement Continuum. The Entry 1 Achievement Continuum spans a wide range of achievement from the ability to encounter experiences to the ability to apply basic skills, knowledge and understanding to a range of familiar experiences.

The [‘Guide to stages on the Achievement Continuum covered by Entry 1 units’](#) provides an ‘at-a-glance’ guide to the stages of the Achievement Continuum covered by each Entry 1 unit in the OCR Life and Living Skills qualifications. This will enable centres to easily identify which units may be suitable for their Entry 1 learners. The stages indicated on the document against each Entry 1 unit are provided as a guide for centres; units can be achieved outside the range shown.
