

# Level 3 OCR Teaching in the Lifelong Learning Sector

## Unit 1 – Preparing to Teach in the Lifelong Learning Sector

Level 3

QCA Accreditation Number: T/501/1192

### Presentation of the unit

---

The unit is presented in the following way:

**Unit aims:** Sets out the aims of the individual unit.

**Unit synopsis:** provides a brief overview of the unit.

**Examples of teaching and learning strategies:** Sets out a range of teaching methods and learning strategies appropriate to the delivery of the unit.

**Suggested reading:** gives examples of current and relevant sources that the student-teacher may use to support their learning in this unit.

**Assessment Criteria, Knowledge and Evidence Linked to Practice:** Provides examples of the areas to be taught as part of the programme of study towards this qualification. Teachers/tutors may wish to add further content in order to reflect the specific needs of student-teachers. Identifies the evidence student-teachers will be required to produce to demonstrate they have achieved the unit outcomes.

### OCR Level 3 Award in Preparing to Teach in the Lifelong Learning Sector'

(Qualification Accreditation Number 500/1527/8)

This qualification contains one unit, listed below:

Unit 1 Preparing to Teach in the Lifelong Learning Sector

### Unit Description

---

#### Unit Aims

The unit will provide the student teacher with the skills and knowledge to create an effective learning environment through the use of a range of teaching, learning and assessment methods

and strategies. It will also encourage and develop the student teacher's ability to reflect upon and learn from their own professional practice.

Credit Value: 6

## Unit synopsis

---

This unit is about:

- identifying how to meet learner needs
- identifying ways to offer effective support for learning
- recognising learner entitlement in the learning process
- enhancing learners' access to and participation in programmes of learning
- motivating learners and fostering an enjoyment of learning
- identifying and implementing the appropriate methods and strategies for teaching and supporting learning and learning objectives
- developing effective communication and interaction skills
- designing a teaching and learning session
- choosing or designing appropriate resources to support learning
- understanding assessment theory and its application, forms and methods of assessing learning
- developing understanding how assessment decisions can be recorded and how assessment information may be used
- creating the opportunity to practice self-reflection and evaluation

## Examples of teaching and learning strategies

---

The following teaching methods and learning strategies are appropriate to the delivery and development of the knowledge, understanding and skills covered in this unit. A variety of these should be used to provide a model of good practice to the student-teacher. This list is not exhaustive:

- small group discussion (utilising student-teacher experience as a resource)
- workshop activities
- micro-teaching session
- lecture
- question and answer
- resource-based learning
- role play
- discussion

- lecture and exposition
- directed study and research
- debate
- practical activities
- ILT practical sessions
- Attendance at meetings
- Membership of relevant professional bodies
- Debate
- Professional discussion

Please note: Additional resources to aid with the delivery and assessment of this unit are available on the OCR website

## **Guidance on delivery for Centres:**

---

For many candidates this will be first opportunity to explore the skills and knowledge required to successfully teach in the lifelong learning sector. Centres will need to be able to provide the opportunity for the student teacher to engage in planning and delivering teaching .

Delivery may take the form of:

- provision of individual learning plans,
- provision of guidance on the qualification and progression routes to further development,
- provision of opportunities for learning, eg discussion fora,
- Provision of ongoing mentoring to the student teacher, including review and feedback on learning experiences and development of competence,
- Observation of peer-to-peer discussions of groups of student teachers or of students teachers and qualified teachers,
- Observation of teaching practice,
- Professional discussion with the assessor will develop and test the knowledge requirements, where these are not already met through the activities described above.

## **Guidance on Assessment for Centres:**

---

Within the context of this unit, the candidate must be able to demonstrate skills and knowledge at level 3. The ability to recognise and develop thinking across these criteria is to be encouraged. This means that while a candidate should aim to produce concise written evidence and clarity of thought, this will need to be of sufficient depth and breadth to meet the level 3 standard. There is an expectation that the written work will be presented at the appropriate level.

### **Teaching practice requirements**

There is no requirement to undertake teaching practice other than as micro teaching for assessment purposes.

### Observed and assessed practice

- Candidates should be involved in at least one hour of microteaching. Each candidate must deliver at least one 15 minute microteaching session which should be observed and assessed by a member of the delivery team. For the additional 45 minutes, candidates can either deliver additional microteaching sessions or observe the microteaching sessions of other candidates. Observed and assessed practice can be within an appropriate teaching practice location.
- For each of the observed sessions the student teach must produce a self-evaluation detailing how their experience/reflection on the session will help to shape future practice. An observation report from the tutor/mentor/manager identifying how performance criteria (*Communicate effectively with learners and Facilitate and encourage individual and group learning*) have been met should also be submitted for each observed session. Student-teachers must produce an original **lesson plan** that shows clearly how the lesson plan meets the needs of the learners and the learning aim.
- Lesson **plans** should be produced in a format that makes clear the link between learning outcomes, learner activity and assessment strategy. This could be laid out in a grid format, for example:

Time	Lesson content	Learning outcomes	Teaching Method	Learner activity	Assessment	Resources
09.00	Re-cap of previous lesson	Learners will be able to identify key points of previous lesson	Question and answer	Answer (and raise questions)	Student-teacher observes learner response	Whiteboard

*What the learner will be able to do*

*The activity which allows the learner to demonstrate the required knowledge /skills*

*How the student-teacher will assess whether the learner can do it*

The assessment can include:

- professional discussions with the student teacher and their colleagues,
- witness statements,
- Reviewing documentation, including minutes, reports, and presentations, schemes of work, lesson plans, assessment plans and marking schemes
- Video recordings
- Observation of practice using a range of teaching and learning methods.

- Written assignment
- Case studies
- Research projects
- Written review of students progress

## Suggested reading

---

The following list is not intended to be exhaustive, but provides suggested texts which student-teachers may find helpful. It is not compulsory for students to read all publications in the list; they are identified for reference only.

Ainley, P. and Bailey, B. (1997) *The Business of Learning: Staff and Student Experiences of Further Education in the 1990s*. London: Cassell

## Assessment Criteria, Knowledge and Evidence Linked to Practice

### 1. Understanding own role, responsibilities and boundaries of role in relation to teaching.

Assessment Criteria		Knowledge	Evidence Linked to Practice
1.1	Explain own role and responsibilities, and boundaries of own role as a teacher	<ul style="list-style-type: none"> <li>• Understand own role, responsibilities and boundaries of role in relations to teaching.</li> <li>• Understand the teacher's contractual obligations</li> <li>• Recognise the limits of the teacher's own authority and responsibility</li> <li>• Understand the Appropriate national codes of professional practice and their relevance to current adult learning.</li> <li>• Understand how to plan for inclusiveness (ensuring that the planned learning activities meet the needs of all learners)</li> <li>• Demonstrate how to make learning programmes more accessible, and why this is important (link to recent White Papers, lifelong learning, etc)</li> <li>• Understand widening participation and how the individual can contribute to widening participation.</li> <li>• Understand the organisation's recording procedures</li> <li>• Identify appropriate assessment procedures for evaluating learners' potential to achieve required learning outcome.</li> <li>• Demonstrate an appropriate range of techniques for basic skills screening and diagnostic testing</li> <li>• Understands how to interpret the results of such initial assessments</li> </ul>	<p>Where possible the student teacher should include real-life examples of their own experiences.</p> <p>Evidence of practice can include:</p> <ul style="list-style-type: none"> <li>• A succinct report on one or more assessment criteria .</li> <li>• a draft form or submit one that you already use in your position</li> <li>• A report on how the results are used and why the identified recording methods and processes are used</li> <li>• Journal entries which relate the criteria, suitably annotated .</li> <li>• A report on how they have provided equal opportunity for learning for a diverse range of learner experiences.</li> <li>• A report linked to the journal which demonstrates professionalism in practice.</li> </ul>
1.2	Identify key aspects of relevant current legislative requirements and codes of practice within a specific context.		
1.3	Identify others points of referral available to meet the potential needs of learners		
1.4	Identify issues of equality and diversity, and ways to promote inclusion		
1.5	Explain the need for record keeping		

This learning outcome may be presented as one report, presentation or video, providing all scope and knowledge are identified.

## 2. Understanding appropriate teaching and learning approaches in the specialist area

Assessment Criteria		Knowledge	Evidence Linked to Practice
2.1	Identify and demonstrate relevant approaches to teaching and learning in relation to the specialist area	<ul style="list-style-type: none"> <li>• Understand teaching and learning approaches</li> <li>• Recognise the advantages and disadvantages of a range of methods (eg lecture, discussion, role play)</li> <li>• Understand how to choose the method appropriate to the topic and the learners' needs</li> <li>• Recognises Group methods and understands how to use them</li>   <li>• Understands ways for the teacher to offer learning support</li> <li>• Understands how to encourage learner motivation</li> <li>• Understands how to provide learner "ownership" of their learning</li> <li>• Recognises ways in which teacher can provide learning support</li> <li>• Identifies the limits of the teacher's competence to deal with learners' concerns</li>   <li>• Explores other sources of learning support for the learner</li> <li>• Understands the Institutional structures for providing learners with support</li>   <li>• Recognises Learning styles</li> <li>• a range of theories to understand learning</li> </ul>	<p>Where possible the student teacher should include real-life examples of their own experiences.</p> <p>Evidence of practice can include:</p> <ul style="list-style-type: none"> <li>• Assessors Observation Record Form (Provided on page 32)</li> <li>• Self Evaluation Form (Provided on page 35)</li> </ul> <p>NB Additional sheets identifying candidate aims may be included but are not essential.</p>
2.2	Explain ways to embed elements of functional skills in the specialist area		
2.3	Justify selection of teaching and learning approaches for a specific session		

		<p>styles</p> <ul style="list-style-type: none"> <li>• Identifies learners learning styles</li> <li>• Understands how the teaching strategy identified accommodates learning styles</li> <li>• Knows how to define and record aims clearly on schemes of work and lesson plans</li> </ul>	
--	--	---	--

### 3. Demonstrating session planning skills

Assessment Criteria		Knowledge	Evidence Linked to Practice
3.1	Plan a teaching and learning session which meets the needs of individual learners	<ul style="list-style-type: none"> <li>• Understands how to select and sequence lesson content in order to enable learners to meet the outcomes</li> <li>• Understands how to use the specified learning outcomes as a basis around which to draw up a lesson plan</li> <li>• Knows how to incorporate into the lesson plan a coherence between outcomes, learner activity and assessment strategy</li> <li>• Recognises that each lesson plan should clearly identify its aims and outcomes/objectives.</li> <li>• Identifies the appropriate range of equipment and its uses in supporting learning (eg OHP, PowerPoint, Whiteboard)</li> <li>• Understands how to prepare resources</li> </ul>	<p>Where possible the student teacher should include real-life examples of their own experiences.</p> <p>Evidence of practice can include:</p> <ul style="list-style-type: none"> <li>• Session plans representing delivery of a minimum of 1 hour of teaching</li> <li>• Planned sessions must be those recorded in observation records and self evaluation forms for choice of resources.</li> <li>• Review of resources used in identified and observed lessons and explanation of effectiveness.</li> <li>• A total of 1 hour's teaching, one session of which must be at least 15 minutes in length.</li> </ul>
3.2	Justify the selection of resources for a specific session		

		<p>such as handouts/overhead transparencies</p> <ul style="list-style-type: none"> <li>• Understand how to develop teaching materials such as worksheets, gapped handouts, game cards, individual task sheets</li> <li>• Knows how to access the necessary resources</li> <li>• Understands how to use resources to support individual learning</li> </ul>	<ul style="list-style-type: none"> <li>• Self-evaluation forms for observed sessions</li> </ul> <p>This learning outcome may be presented as one report, presentation or video, providing all scope and knowledge are identified.</p>
--	--	--	---

#### 4. Understanding delivery of inclusive sessions which motivate learners

Assessment Criteria		Knowledge	Evidence Linked to Practice
4.1	Explain ways to establish ground rules with learners which underpin appropriate behaviour and respect for others	<ul style="list-style-type: none"> <li>• Understand how to work within the required structures of communication and authority within the chosen sector.</li> <li>• Recognise the rights of learners, equality and diversity in learning</li> <li>• Identify the information needs of others</li> <li>• Identify ways of integrating one's own teaching with that of others within a team</li> <li>• Understand how to communicate effectively with colleagues.</li> <li>• Recognises the limits of ones own competence and when to seek advice.</li> <li>• Understands how to create an environment conducive to learning</li> <li>• Understands how to create situations that provide opportunities to learn from others (eg peer observation)</li> <li>• Recognises the advantages and disadvantages of a range of methods (eg lecture, discussion, role play)</li> </ul>	<p>Where possible the student teacher should include real-life examples of their own experiences.</p> <p>Evidence of practice can include:</p> <ul style="list-style-type: none"> <li>• A single report, presentation or video, providing all scope and knowledge are identified.</li> <li>• Assessors Observation Record Form (Provided on page 32)</li> <li>• Self Evaluation Form (Provided on page 35)</li> <li>• Reference to lesson plans</li> <li>• Self evaluation or audits of own competence in delivering inclusive sessions.</li> </ul> <p>NB Additional sheets identifying candidate aims may be included but are not essential.</p>
4.2	Use a range of appropriate and effective teaching and learning approaches to engage and motivate learners		
4.3	Explain and demonstrate good practice in giving feedback		
4.4	Communicate appropriately and effectively with learners		
4.5	Reflect and evaluate the effectiveness of own teaching		

		<ul style="list-style-type: none"> <li>• Knows how to choose the method appropriate to the topic and the learners' needs</li> <li>• Recognises ways of conducting debriefing and providing constructive feedback to learners</li> <li>• Understands how to give feedback in such ways as to encourage learners and reinforce learning</li> <li>• Understands how to select and organise information effectively and ways of presenting information and ideas</li> <li>• Understands concepts and benefits of keeping a reflective journal</li> <li>• Understand how to plan own personal development and identify areas for improvement.</li> </ul>	
--	--	---	--

## 5. Understanding the use of different assessment methods and the need for record keeping

Assessment Criteria		Knowledge	Evidence Linked to Practice
5.1	Identify different assessment methods.	<ul style="list-style-type: none"> <li>• Distinguishes between formative and summative assessment procedures</li> <li>• Recognises the role of assessment in the overall evaluation of learning programmes (summative)</li> <li>• Understand the purpose of self-, peer- and tutor assessments, and how these relate to one another</li> <li>• Understands the purpose of continuous assessment and end-of-programme assessment processes and when to use them</li> <li>• Recognises the advantages and disadvantages of different forms of</li> </ul>	<p>Where possible the student teacher should include real-life examples of their own experiences.</p> <p>Evidence of practice can include:</p> <ul style="list-style-type: none"> <li>• A single report, presentation or video, providing all scope and knowledge are identified.</li> <li>• Guidance to students on the purpose of and nature of the assessment process</li> <li>• A report explaining the choice of assessment methods and how they are relevant to the learning programme,</li> </ul>
5.2	Explain the use of assessment methods in different contexts, including reference to initial assessment (EP 1.2)		

		<p>assessment (eg practical, question and answer, short answer test)</p> <ul style="list-style-type: none"> <li>• Understand how to identify the criteria for evaluating learners' experience, attainment and progress.</li> <li>• Understands how to map assessment methods against specified curricula, syllabuses and standards</li> <li>• Understands the range of assessment methods</li> <li>• Knows how to establish what constitutes acceptable levels of work to enable learners to meet learning outcomes.</li> </ul>	<p>creating a coherent assessment process. The report should also justify the validity and reliability of the assessment methods chosen.</p> <ul style="list-style-type: none"> <li>• An annotated assessment plan to show how equality of opportunity is assured.</li> <li>• An annotated assessment plan showing how the assessment is realistic, relevant and meets internal and external requirements.</li> </ul>
<b>5.3</b>	Explain the need for record keeping in relation to assessment (AP 6.3)	<ul style="list-style-type: none"> <li>• Understands practical procedures for conducting and recording assessments</li> <li>• Understands the recording procedures used by awarding bodies</li> </ul>
