7 Guidance for the production of electronic Controlled Assessment 40
1 Introduction

1.1 What Is Controlled Assessment?

High, medium or limited control levels are set for each of the Controlled Assessment processes: task setting, task taking and task marking. For each stage, the level of control will ensure reliability and authenticity, and make assessments more manageable for teachers and candidates.

Weighting of Controlled Assessments is defined in the subject criteria and, depending on the subject, will be 25% or 60% of the total assessment.

1.2 What does ‘control’ actually mean?

QCA has produced a Glossary of terms for Controlled Assessment regulations. The levels of controls are defined as follows:

- **Formal supervision (High level of control)** – the candidate must be in direct sight of the supervisor at all times. Use of resources and interaction with other candidates is tightly prescribed.

- **Informal supervision (Medium level of control)** – questions/tasks are outlined, the use of resources is not tightly prescribed and assessable outcomes may be informed by group work. Supervision is confined to (i) ensuring that the contributions of individual candidates are recorded accurately, and (ii) ensuring that plagiarism does not take place. The supervisor may provide limited guidance to candidates.

- **Limited supervision (Limited level of control)** – requirements are clearly specified, but some work may be completed without direct supervision and will not contribute directly to assessable outcomes.
1.3 What is the purpose of this Guide?

This Guide provides detailed information for teachers about how to manage Controlled Assessment: some of the information applies to all GCSE subjects and some information provides subject specific guidance. It is important to make the point that this Guide plays a secondary role to the Specification itself. The Specification is the document on which assessment is based and specifies what content and skills need to be covered in delivering the course. At all times, therefore, this teacher support should be read in conjunction with the Specification. If clarification on a particular point is sought then that clarification should be found in the Specification itself.

Teaching of this qualification will vary greatly from school to school and from teacher to teacher. With that in mind, this Guide is offered as guidance but may be subject to modifications by the individual teacher.
2 Summary of the Controlled Assessment units

Unit B011: Child Development Short Tasks

For unit B011, candidates submit **three** tasks for assessment from a number of tasks offered by OCR. **One** must be selected from the list of **investigative tasks** and **two** from the list of **practical tasks**, which will assess planning, carrying out, and evaluation. These tasks can be used with a minimum amount of adaptation or they can be adapted so that they allow the use of local resources available to the centre. Each Task has a 10% weighting (20 marks each).

Unit B012: Child Study Task

For unit B012, candidates choose a set OCR theme to complete a structured child study task. This task may be personalised to be more relevant to the child being studied and the centres’ own environment, and targeted at the centres’ particular cohorts of candidates and facilities available to them. The child study task will assess research, selecting and justifying ideas, planning observations, practical observations, applying and understanding observations and conclusions and evaluation. The Child Study Task has a 30% weighting (60 marks).
3 Teacher guidance on how to plan Controlled Assessment

3.1 Controlled Assessment delivery flow chart

OCR set tasks for centres to select from

Teachers offer Limited/Generic Guidance

Candidate Work in Progress
- Task introduction
- Task research/development
- Task production
- Task evaluation

Candidate Produce Outcome for Assessment
- Task completion
- Task authentication

Teacher Assessment and Submission of marks to OCR
- Moderation by specified deadlines

Submission of marks:
- June series: 15
- May

Timetabled Lessons
- The total number of hours for each Short Task is 7
- The total number of hours for each Child Study Task is 22

Some of the work, by its very nature, may be undertaken outside the centre, eg research work, testing, etc. Using or applying this material will be undertaken under direct teacher supervision.
4 Controlled assessment in GCSE Home Economics (Child Development)

This section provides general guidance on controlled assessment: what controlled assessment tasks are, when and how they are available; how to plan and manage controlled assessment and what controls must be applied throughout the process. More support can be found on the OCR website.

Teaching and Learning

Controlled assessment is designed to be an integral part of teaching and learning. Activities which develop skills take place regularly in the classroom, using a variety of appropriate resources. These opportunities allow candidates to practise a wide range of tasks, and teachers can discuss and comment on performance as appropriate. However, once a candidate embarks on a controlled assessment task teacher intervention is limited to general advice and guidance.

When all necessary teaching and learning has taken place and teachers feel that candidates are ready for assessment, candidates can choose or be provided with an appropriate controlled assessment task.

4.1 Controlled assessment tasks

All controlled assessment tasks are set by OCR.

Each year a number of tasks will be set for candidates to choose from. Controlled assessment tasks will be available on Interchange from 1 June and will be reviewed every two years. Guidance on how to access controlled assessment tasks from Interchange is available on the OCR website.

The tasks for B011 and B012 are sufficiently broad in nature and must not be amended or adapted.

Centres must ensure that candidates undertake a task applicable to the correct year of the examination by checking carefully the examination dates of the tasks on Interchange.

Each task includes a focus e.g. There are a range of child care facilities in your local area. The task then indicates what the candidate should do and the format of how the findings should be presented.

4.2 Planning and managing controlled assessment

Controlled assessment tasks are available at an early stage to allow planning time. It is anticipated that candidates will spend a total of about 21 hours in producing the work for Unit B011 and 22 hours producing the work for Unit B012. Candidates must be allowed sufficient time to complete these tasks.

Suggested steps follow with guidance on regulatory controls at each step of the process. Teachers must ensure that the control requirements indicated below are met throughout the process.
It is recommended that evidence is produced over several sessions, each focusing on a specific task within the overall task or scenario. These may be interspersed with opportunities to acquire knowledge and develop appropriate practical skills.

4.2.1 Preparation and research time

Preparation (informal supervision)

Informal supervision ensures that the work of the individual candidates is recorded accurately and that plagiarism does not take place.

Introduction to the task (teacher led)

Includes choice of tasks, possible approaches and sources of evidence, time allocations, programmes of work and deadlines, methods of working, control requirements.

Research (limited supervision)

Limited supervision means that candidates can undertake this part of the process without direct teacher supervision and outside the centre as required. It is important to note that when producing their final piece of work candidates must evidence all work individually.

During the research phase candidates can be given support and guidance.

Teachers can

- explain the task
- advise on how the task could be approached
- advise on resources
- alert the candidate to key things that must be included in the final piece of work.

Teachers must not

- comment on or correct the work
- practise the task with the candidates
- provide templates, model answers or feedback on drafts.

Research material can include fieldwork, internet or paper-based research, questionnaires, audio and video files etc. Candidates must be guided on the use of information from other sources to ensure that confidentiality and intellectual property rights are maintained at all times. It is essential that any material directly used from a source is appropriately and rigorously referenced.

4.2.2 Producing the final piece of work

Producing the final piece of work (formal supervision)

Formal supervision means under direct teacher supervision: teachers must be able to authenticate the work and there must be acknowledgement and referencing of any sources used. Writing up is likely to be carried out over several sessions. Centres must keep work secure between sessions.

When supervising tasks, teachers are expected to:

- exercise continuing supervision of work in order to monitor progress and to prevent plagiarism
exercise continuing supervision of practical work to ensure essential compliance with Health and Safety requirements

designed to ensure that the work is completed in accordance with the specification requirements and can be assessed in accordance with the specified marking criteria and procedures.

Candidates must work independently to produce their own final piece of work.

4.2.3 Presentation of the final piece of work

Candidates must observe the following procedures when producing their final piece of work for the controlled assessment tasks:

- work can be word processed or hand written
- tables, graphs and spreadsheets may be produced using appropriate ICT. These should be inserted into the report at the appropriate place
- any copied material must be suitably acknowledged
- quotations must be clearly marked and a reference provided wherever possible
- a completed cover sheet must be attached to work submitted for moderation. The cover sheet must include the following information as well as the marks given for each of the assessment criteria:
  - centre number
  - centre name
  - candidate number
  - candidate name
  - unit code and title
  - assignment title.

Work submitted in digital format (CD or online) for moderation or marking must be in a suitable file structure as detailed in Appendix A at the end of this specification. Work submitted on paper must be secured by treasury tags or other suitable method.

4.3 Marking and moderating controlled assessment

All controlled assessment units are marked by the centre assessor(s) using OCR marking criteria and guidance and are moderated by the OCR-appointed moderator. External moderation is either e-moderation, where evidence is online, or postal moderation (paper or CD).

4.3.1 Applying the marking criteria

The starting point for marking the tasks is the marking criteria (see section 4.3.4 Marking criteria for controlled assessment tasks below). The criteria identify levels of performance for the skills, knowledge and understanding that the candidate is required to demonstrate. OCR provides exemplification through real candidate work which will help to clarify the level of achievement the assessors should be looking for when awarding marks.
4.3.2 Use of ‘best fit’ approach to marking criteria

The assessment tasks for each unit should be marked by teachers according to the given marking criteria within the relevant unit using a ‘best fit’ approach. For each of the assessment criteria, teachers select one of the three band descriptors provided in the marking grid that most closely describes the quality of the work being marked.

Marking should be positive, rewarding achievement rather than penalising failure or omissions. The award of marks must be directly related to the marking criteria.

Teachers use their professional judgement in selecting the band descriptor that best describes the work of the candidate.

To select the most appropriate mark within the band descriptor, teachers should use the following guidance:

- where the candidate’s work convincingly meets the statement, the highest mark should be awarded
- where the candidate’s work adequately meets the statement, the most appropriate mark in the middle range should be awarded
- where the candidate’s work just meets the statement, the lowest mark should be awarded.

Teachers should use the full range of marks available to them and award full marks in any band for work which fully meets that descriptor. This is work which is ‘the best one could expect from candidates working at that level’. Where there are only two marks within a band the choice will be between work which, in most respects, meets the statement and work which just meets the statement. For wider mark bands the marks on either side of the middle mark(s) for ‘adequately met’ should be used where the standard is lower or higher than ‘adequate’ but not the highest or lowest mark in the band.

The final mark for the candidate for each controlled assessment unit is out of a total of 60 and is found by totalling the marks for each of the marking criteria.

There should be clear evidence that work has been attempted and some work produced. If a candidate submits no work for the internally assessed unit(s), then the candidate should be indicated as being absent from that unit. If a candidate completes any work at all for an internally assessed unit, then the work should be assessed according to the marking criteria and the appropriate mark awarded, which may be zero.

4.3.3 Annotation of candidates' work

Each piece of internally assessed work should show how the marks have been awarded in relation to the marking criteria.

The writing of comments on candidates' work, and cover sheet, provides a means of communication between teachers during the internal standardisation and with the moderator if the work forms part of the moderation sample.
4.3.4 Marking criteria for controlled assessment tasks

**Unit B011: Child Development Short Tasks**

The maximum mark for this unit is 60 (20 marks per task). Candidates submit three short tasks for assessment. One investigative task and two practical tasks, each is marked out of a total of 20 marks using the marking criteria below giving a total out of 60 marks for the complete unit.

0 marks = no response or no response worthy of credit

<table>

**1-2 marks**
- Produce a quality outcome with some assistance
- Produce results from any work undertaken

**3-5 marks**
- Produce a quality outcome to the task
- Produce valid results from work undertaken

**6-8 marks**
- Produce a high quality outcome to the task
- Produce a range of detailed and accurate results

© OCR 2012
GCSE Home Economics (Child Development)
## Evaluation A

A candidate should be able to:

- Identify strengths and weaknesses in their task with help
- Make comments on the outcome of the task
- Identify some strengths and weaknesses in the task
- Suggest some ways to improve the weaknesses identified
- Refer back to the task title
- Identify strengths and weaknesses in all areas of the task independently
- Suggest ways to improve the weaknesses identified
- Interpret the results by referring back to the task title

TOTAL OUT OF 60
4.3.5 Authentication of work

Teachers must be confident that the work they mark is the candidate’s own. This does not mean that a candidate must be supervised throughout the completion of all work but the teacher must exercise sufficient supervision, or introduce sufficient checks, to be in a position to judge the authenticity of the candidate’s work.

Wherever possible, the teacher should discuss work-in-progress with candidates. This will not only ensure that work is underway in a planned and timely manner but will also provide opportunities for assessors to check authenticity of the work and provide general feedback.

Candidates must not plagiarise. Plagiarism is the submission of another’s work as one’s own and/or failure to acknowledge the source correctly. Plagiarism is considered to be malpractice and could lead to the candidate being disqualified. Plagiarism sometimes occurs innocently when candidates are unaware of the need to reference or acknowledge their sources. It is therefore important that centres ensure that candidates understand that the work they submit must be their own and that they understand the meaning of plagiarism and what penalties may be applied. Candidates may refer to research, quotations or evidence but they must list their sources. The rewards from acknowledging sources, and the credit they will gain from doing so, should be emphasised to candidates as well as the potential risks of failing to acknowledge such material. Candidates may be asked to sign a declaration to this effect. Centres should reinforce this message to ensure candidates understand what is expected of them.

Please note: Centres must confirm to OCR that the evidence produced by candidates is authentic. The Centre Authentication Form includes a declaration for assessors to sign and is available from the OCR website and OCR Interchange.

4.3.6 Internal standardisation

It is important that all internal assessors, working in the same subject area, work to common standards. Centres must ensure that the internal standardisation of marks across assessors and teaching groups takes place using an appropriate procedure.

This can be done in a number of ways. In the first year, reference material and OCR training meetings will provide a basis for centres’ own standardisation. In subsequent years, this, or centres’ own archive material, may be used. Centres are advised to hold preliminary meetings of staff involved to compare standards through cross-marking a small sample of work. After most marking has been completed, a further meeting at which work is exchanged and discussed will enable final adjustments to be made.

4.3.7 Moderation

All work for controlled assessment, units B011 and B012, is marked by the teacher and internally standardised by the centre. Marks are then submitted to OCR, after which moderation takes place in accordance with OCR procedures: refer to the OCR website for submission dates of the marks to OCR. The purpose of moderation is to ensure that the standard of the award of marks for work is the same for each centre and that each teacher has applied the standards appropriately across the range of candidates within the centre.

The sample of work which is presented to the moderator for moderation must show how the marks have been awarded in relation to the marking criteria defined in Section 4.3.4.

Each candidate’s work should have a cover sheet attached to it with a summary of the marks awarded for the task. If the work is to be submitted in digital format, this cover sheet should also be submitted electronically within each candidate’s files.
4.4 Submitting the moderation samples via the OCR Repository

The OCR Repository is a secure website for centres to upload candidate work and for assessors to access this work digitally. Centres can use the OCR Repository for uploading marked candidate work for moderation.

Centres can access the OCR Repository via OCR Interchange, find their candidate entries in their area of the Repository, and use the Repository to upload files (singly or in bulk) for access by their moderator.

The OCR Repository allows candidates to send evidence in electronic file types that would normally be difficult to submit through postal moderation; for example multimedia or other interactive unit submissions.

The GCSE Home Economic (Child Development) units B011 and B012 can be submitted electronically to the OCR Repository via Interchange. Please check Section 7.4.1 for unit entry codes for the OCR Repository.

There are three ways to load files to the OCR Repository:

1. Centres can load multiple files against multiple candidates by clicking on ‘Upload candidate files’ in the Candidates tab of the Candidate Overview screen.

2. Centres can load multiple files against a specific candidate by clicking on ‘Upload files’ in the Candidate Details screen.

3. Centres can load multiple administration files by clicking on ‘Upload admin files’ in the Administration tab of the Candidate Overview screen.

The OCR Repository is seen as a faster, greener and a more convenient means of providing work for assessment. It is part of a wider programme bringing digital technology to the assessment process, the aim of which is to provide simpler and easier administration for centres.

Instructions for how to upload files to OCR using the OCR Repository can be found on OCR Interchange.
5 FAQs

What are the dates in which the Controlled Assessments can be taken?

Controlled assessment tasks may still be undertaken at any point between release of the task by OCR and the examination series for which the task must be submitted. Each controlled assessment task will be valid for submission in a single examination series only. **Centres must ensure that candidates undertake a task that is valid for submission in the year in which the candidate intends to submit it.**

The series in which each task can be submitted will be clearly marked on the front cover of each task. Tasks will not be valid for submission in any examination series other than that indicated.

Tasks for the controlled assessment will be made available on OCR Interchange, ahead of the examination series for which the tasks are to be submitted. These will be removed upon expiry. Guidance on how to access controlled assessment tasks from OCR Interchange is available on the OCR website: [www.ocr.org.uk](http://www.ocr.org.uk).

It is up to the centre to decide when Controlled Assessment will be taken: guidance on this can be found in Section 4: Controlled Assessment of all revised GCSE Specifications (first teaching in September 2012).

When can teachers and candidates access the material?

Controlled Assessment tasks will be available from Interchange at an early stage to allow planning time.

Tasks will be reviewed every two years and it is the responsibility of centres to make sure that candidates are submitting the correct task.

Can any preparation work be done out of the classroom?

Yes. Controls are set at the level of tasks setting, task taking and task marking. Preparation work comes into the task taking level, under Research and Data Collection, which have a limited level of control i.e. work can be carried out without direct supervision.

Is there a minimum or maximum time that can be spent on the assessments?

Suggested time limits vary per subject: there are suggested time limits given in Section 4: Controlled Assessment of all revised GCSE Specifications (first teaching in September 2012).

Where can the Controlled materials be accessed and by whom?

Controlled Assessment tasks and other documents are accessed via Interchange.

Centre access to the Interchange Controlled Assessment area will be available to the registered Centre User (normally the Examinations Officer). However, the Centre User can set access permissions to others within their centre, eg HODs, subject leaders or subject teachers.

How long is each assessment valid for i.e. can we use last year’s assessment this year?
Tasks will be reviewed every two years and it is the responsibility of centres to make sure that candidates are submitting the correct task. Tasks will be taken off Interchange on 15 May every two years.

Where can the Mark Schemes be accessed?

Mark Schemes are included in the specifications and can also be accessed from the OCR website: Mark Schemes are attached at the end of each Sample Assessment Material.

Do we have to take the Controlled Assessment under exam conditions/teacher supervision?

Yes, but only for task taking, i.e. the last part of Controlled Assessment when candidates are producing their final piece of work – note that this can be over more than one supervised session. More guidance on this can be found in Section 5: Controlled Assessment of all revised GCSE Specifications (first teaching in September 2009).

Will candidates be able to re-enter units?

Yes. Control assessment units can be carried forward with the moderator mark from one session to the next i.e. June 2014 to June 2015. There is a separate ‘carry over’ code to re-enter the unit.

Are materials sent based on estimated entries or can we download them from Interchange?

Tasks will only be available as downloads from Interchange: they will not be sent in hard copy to centres.

Do we mark them or do OCR?

Controlled Assessment tasks for ALL subjects are internally marked by centres and externally moderated by OCR.

When do we start and finish Controlled Assessment?

Controlled assessment tasks may still be undertaken at any point between release of the task by OCR and the examination series for which the task must be submitted. Each controlled assessment task will be valid for submission in a single examination series only. **Centres must ensure that candidates undertake a task that is valid for submission in the year in which the candidate intends to submit it.**

The series in which each task can be submitted will be clearly marked on the front cover of each task. Tasks will not be valid for submission in any examination series other than that indicated.

Tasks for the controlled assessment will be made available on OCR Interchange, ahead of the examination series for which the tasks are to be submitted. These will be removed upon expiry. Guidance on how to access controlled assessment tasks from OCR Interchange is available on the OCR website: **www.ocr.org.uk**.

It is up to the centre to decide when Controlled Assessment will be taken: guidance on this can be found in Section 4: Controlled Assessment of all revised GCSE Specifications (first teaching in September 2012).
Can I devise my own Tasks?

No. OCR has chosen a high level of control for task setting giving centres much more freedom to decide for themselves how candidates approach their work and centres manage facilities.

Unit B011 – Short Tasks

Do I have to use Board set Tasks?

Yes.

Can I adapt Board set Tasks slightly to suit my own school?

Yes.

Can I make up my own tasks?

No.

What are the recommended time allocations?

1 hour planning, 4 to 5 hours execution, 1 hour evaluation

Total 7 hours

How does an investigation task differ from the other tasks?

It assesses investigative skills such as comparison and experimental skills.

How do the short tasks differ from the resource tasks in the old specification?

• They are board set
• Candidates must submit 3 of them to the exam board
• Candidates must do one task that is an investigation

Does Controlled Assessment mean under exam conditions?

No, they are still an integral part of the learning experience.

Can a candidate submit two tasks that demonstrate similar areas of the specification?

No, a range of different skills must be demonstrated throughout the tasks that are submitted.

For example investigative, practical, item.
Do Practical Items have to be sent for moderation?

No, but it is still necessary to record outcomes in the form of photographs and written comments.

Unit B012 – Child Study Task

Do I have to use Board set Themes?

YES

How many Board set Themes will there be each year?

6

What are the recommended time allocations?

22 Hours

What age does the Child Study have to cover?

The child being observed must be between 0 to 5 years of age.

Do candidates have to write their own task title from a chosen theme?

Yes, although teachers can give candidates a task title but this must be reflected in the marking of the work.

Do candidates have to undertake all of the Child Study in school?

No, the research can be done outside of lesson time. It is advisable that selecting and planning is carried out in school. However, observations due to their very content can be undertaken out of school and then assessed by the teacher.

Does the work have to word processed?

No.

Do candidates have to provide photographs of their practical observations?

It is a desirable method of recording evidence or work although not essential.

How many practical observations are expected for the Child Study?

Candidates should carry out at least five practical observations but it is dependent on the focus of development and age of child being studied. In most studies six practical observations would be more acceptable.
Can I include photographs of the child?

No, these are not required unless relevant to the area of development being studied and then full faces should not be taken for child protection purposes.

Can I award full marks for an evaluation?

Only if the candidate has demonstrated very good communication skills in addition to their high standard evaluative skills – see Child Study marking criteria.
6   Guidance on downloading Controlled Assessment task from Interchange

Before you start

Controlled Assessment materials will be available to download from OCR Interchange. In order to use Interchange for the first time, you just need to register your centre by returning the Interchange Agreement. This can be downloaded from the OCR website at http://www.ocr.org.uk/interchange

If your centre already has an Interchange user account, you will need to be assigned the ‘Tutor / teacher’ Interchange role to access Controlled Assessment materials. Your Interchange Centre Administrator can assign this for you.
Step 1 – Log into Interchange

Click on the following link  https://interchange.ocr.org.uk

Enter your log in details
Step 2 – Navigate to Controlled Assessment materials area

Click on ‘Coursework and tests’

Click on ‘Controlled Assessment materials’

** If you are unable to see either of these menu items then it is likely that you do not have the ‘Tutor / teacher’ role assigned to you.
Step 3 – Search for materials

You can search for materials by unit code. Enter the unit code and click on the ‘search’ button.

Or, you can search for materials by subject information by selecting from the ‘drop down’ options.

All available documents will be displayed below the search.
Step 4 – Open materials

Click on the document link, the document will open in your browser.

Click on ‘Save As’ to save to a location of your choice.
Step 5 – Troubleshooting

If you search for an invalid unit code, the following error message will be displayed.
If you search for a valid unit code but there is no document currently available, the following message will be displayed.
If you search via the ‘drop down’ menus but there is no document currently available, the following message will be displayed.
7 Guidance for the production of electronic Controlled Assessment

The Controlled Assessment in Unit B011 comprises three elements. For each candidate, the three elements together form a Controlled Assessment portfolio, stored electronically. The Controlled Assessment in Unit B012 comprises one task. Evidence for each unit must be stored separately.

Structure for evidence

A Controlled Assessment portfolio is a collection of folders and files containing the candidate's evidence. Folders should be organised in a structured way so that the evidence can be accessed easily by a teacher or moderator. This structure is commonly known as a folder tree. It would be helpful if the location of particular evidence is made clear by naming each file and folder appropriately and by use of an index, called ‘Home Page’.

There should be a top-level folder detailing the candidate’s centre number, candidate number, surname and forename, together with the Unit code (B011 or B012), so that the portfolio is clearly identified as the work of one candidate.

Each candidate’s Controlled Assessment portfolio should be stored in a secure area on the centre network. Prior to submitting the Controlled Assessment portfolio to OCR, the centre should add a folder to the folder tree containing Controlled Assessment and summary forms.

Data formats for evidence

In order to minimise software and hardware compatibility issues, it will be necessary to save candidates’ work using an appropriate file format.

Candidates must use formats appropriate to the evidence that they are providing and appropriate to viewing for assessment and moderation. Open file formats or proprietary formats for which a downloadable reader or player is available are acceptable. Where this is not available, the file format is not acceptable.

Electronic Controlled Assessment is designed to give candidates an opportunity to demonstrate what they know, understand and can do using current technology. Candidates do not gain marks for using more sophisticated formats or for using a range of formats. A candidate who chooses to use only digital photographs (as required by the specification) and word documents will not be disadvantaged by that choice.

Evidence submitted is likely to be in the form of word-processed documents, PowerPoint presentations, digital photos and digital video.

To ensure compatibility, all files submitted must be in the formats listed below. Where new formats become available that might be acceptable, OCR will provide further guidance. OCR advises against changing the file format that the document was originally created in. It is the centre’s responsibility to ensure that the electronic portfolios submitted for moderation are accessible to the moderator and fully represent the evidence available for each candidate.
