3.5 Grading and awarding grades

GCSE results are awarded on the scale A* to G. Units are awarded a* to g. Grades are indicated on certificates. However, results for candidates who fail to achieve the minimum grade (G or g) will be recorded as unclassified (U or u) and this is not certificated.

Most GCSEs are unitised schemes. When working out candidates’ overall grades OCR needs to be able to compare performance on the same unit in different series when different grade boundaries may have been set, and between different units. OCR uses a Uniform Mark Scale to enable this to be done.

A candidate’s uniform mark for each unit is calculated from the candidate’s raw mark on that unit. The raw mark boundary marks are converted to the equivalent uniform mark boundary. Marks between grade boundaries are converted on a pro rata basis.

When unit results are issued, the candidate’s unit grade and uniform mark are given. The uniform mark is shown out of the maximum uniform mark for the unit, e.g. 80/100.

These specifications are graded on a Uniform Mark Scale. The uniform mark thresholds for each of the assessments are shown below:

<table>
<thead>
<tr>
<th>(GCSE) Unit Weighting</th>
<th>Maximum Unit Uniform Mark</th>
<th>Unit Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>25% (GCSE)</td>

</tr>
<tr>
<td>50% (Short Course)</td>
<td>100</td>
<td>90 80 70 60 50 40 30 20 0</td>
</tr>
</tbody>
</table>

A candidate’s uniform marks for each unit are aggregated and grades for these specifications are generated on the following scale:

<table>
<thead>
<tr>
<th>Qualification</th>
<th>Max Uniform Mark</th>
<th>A* A B C D E F G u</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

Within the Written Language Short Course the written papers have a total weighting of 100%.

4.3 OCR support services

4.3.1 Active Results

Active Results is available to all centres offering OCR’s GCSE Modern Foreign Languages specifications.

Active Results is a free results analysis service to help teachers review the performance of individual candidates or whole schools.

Data can be analysed using filters on several categories such as gender and other demographic information, as well as providing breakdowns of results by question and topic.

Active Results allows you to look in greater detail at your results:

- richer and more granular data will be made available to centres including question level data available from e-marking
- you can identify the strengths and weaknesses of individual candidates and your centre’s cohort as a whole
- our systems have been developed in close consultation with teachers so that the technology delivers what you need.

Further information on Active Results can be found on the OCR website.
OCR Interchange has been developed to help you to carry out day-to-day administration functions online, quickly and easily. The site allows you to register and enter candidates online. In addition, you can gain immediate and free access to candidate information at your convenience. Sign up on the OCR website.
GCSEs often require assessment of a broad range of competences. This is because they are general qualifications and, as such, prepare candidates for a wide range of occupations and higher level courses.

The revised GCSE qualification and subject criteria were reviewed by the regulators in order to identify whether any of the competences required by the subject presented a potential barrier to any disabled candidates. If this was the case, the situation was reviewed again to ensure that such competences were included only where essential to the subject. The findings of this process were discussed with disability groups and with disabled people.

Reasonable adjustments are made for disabled candidates in order to enable them to access the assessments and to demonstrate what they know and can do. For this reason, very few candidates will have a complete barrier to the assessment. Information on reasonable adjustments is found in Access Arrangements, Reasonable Adjustments and Special Consideration by the Joint Council www.jcq.org.uk.

Candidates who are unable to access part of the assessment, even after exploring all possibilities through reasonable adjustments, may still be able to receive an award based on the parts of the assessment they have taken.

The access arrangements permissible for use in this specification are in line with Ofqual's GCSE subject criteria equalities review and are as follows:

5.2 Arrangements for candidates with particular requirements (including Special Consideration)

All candidates with a demonstrable need may be eligible for access arrangements to enable them to show what they know and can do. The criteria for eligibility for access arrangements can be found in the JCQ document *Access Arrangements, Reasonable Adjustments and Special Consideration*.

Candidates who have been fully prepared for the assessment but who have been affected by adverse circumstances beyond their control at the time of the examination may be eligible for special consideration. As above, centres should consult the JCQ document *Access Arrangements, Reasonable Adjustments and Special Consideration*.
In December 2011 the GCSE qualification criteria were changed by Ofqual. As a result, all GCSE qualifications have been updated to comply with the new regulations.

The most significant change for all GCSE qualifications is that, from 2014, unitised specifications must require that 100% of the assessment is terminal.

Please note that there are no changes to the terminal rule and re-sit rules for the June 2013 examination series:

- at least 40% of the assessment must be taken in the examination series in which the qualification is certificated
- candidates may re-sit each unit once before certification, i.e. each candidate can have two attempts at a unit before certification.

For full information on the assessment availability and rules that apply in the June 2013 examination series, please refer to the previous version of these specifications GCSE Dutch/Gujarati/Persian/Portuguese/Turkish and GCSE (Short Course) in Dutch/Gujarati/Persian/Portuguese/Turkish Spoken Language and Dutch/Gujarati/Persian/Portuguese/Turkish Written Language (May 2011) available on the website.

The sections below explain in more detail the rules that apply from the June 2014 examination series onwards.

### 6.1 Availability of assessment from 2014

There is one examination series available each year in June (all units are available each year in June).

GCSE Dutch/Gujarati/Persian/Portuguese/Turkish certification is available in June 2014 and each June thereafter.

GCSE (Short Course) in Dutch/Gujarati/Persian/Portuguese/Turkish certification is available in June 2014 and each June thereafter.

### 6.2 Certification rules

For GCSE Dutch/Gujarati/Persian/Portuguese/Turkish and GCSE (Short Course) in Dutch/Gujarati/Persian/Portuguese/Turkish, from June 2014 onwards, a 100% terminal rule applies. Candidates must enter for all their units in the series in which the qualification is certificated.

These GCSEs and GCSE Short Courses can be certificated concurrently if all units are taken in the same series.

Candidates who have claimed the Spoken Language or Written Language Short Course GCSE and decide to move on to the Full Course GCSE will need to re-take all of the Spoken Language or Written Language Short Course GCSE units alongside the additional units required for the Full Course GCSE. The new results for the units that have been re-taken will then be used to calculate the GCSE grade. Any results previously achieved cannot be re-used.
6.3 Rules for re-taking a qualification

Candidates may enter for the qualification an unlimited number of times.

Where a candidate re-takes a qualification, **all** units must be re-entered and all units must be re-taken in the same series as the qualification is re-certificated. The new results for these units will be used to calculate the new qualification grade. Any results previously achieved cannot be re-used.

6.4 Making entries

6.4.1 Unit entries

Centres must be approved to offer OCR qualifications before they can make any entries, including estimated entries. It is recommended that centres apply to OCR to become an approved centre well in advance of making their first entries. Centres must have made an entry for a unit in order for OCR to supply the appropriate forms and administrative materials.

**It is essential** that correct unit entry codes are used when making unit entries.

6.4.2 Certification entries

Candidates must be entered for qualification certification separately from unit assessment(s). If a certification entry is not made, no overall grade can be awarded.

Candidates may be entered for one or both of the following:

- GCSE certification code Dutch J733/Gujarati J734/Persian J735/Portuguese J736/Turkish J737
- GCSE (Short Course) Spoken Language certification code Dutch J033/Gujarati J034/Persian J035/Portuguese J036/Turkish J037
- GCSE (Short Course) Written Language certification code Dutch J133/Gujarati J134/Persian J135/Portuguese J136/Turkish J137.

6.5 Enquiries about results

Under certain circumstances, a centre may wish to query the result issued to one or more candidates. Enquiries about results for GCSE units must be made immediately following the series in which the relevant unit was taken and by the relevant enquiries about results deadline for that series.

Please refer to the JCQ Post-Results Services booklet and the OCR Admin Guide: 14–19 Qualifications for further guidance on enquiries about results and deadlines. Copies of the latest versions of these documents can be obtained from the OCR website at www.ocr.org.uk.

6.6 Prohibited qualifications and classification code

Every specification is assigned a national classification code indicating the subject area to which it belongs. The classification codes for these specifications are 5630 (Dutch), 5970 (Gujarati), 6150 (Persian), 5730 (Portuguese) and 6110 (Turkish).

Centres should be aware that candidates who enter for more than one GCSE qualification with the same classification code will have only one grade (the highest) counted for the purpose of the School and College Performance Tables.

Centres may wish to advise candidates that, if they take two specifications with the same classification code, colleges are very likely to take the view that they have achieved only one of the two GCSEs. The same view may be taken if candidates take two GCSE specifications that have different classification codes but have significant overlap of content. Candidates who have any doubts about their subject combinations should seek advice, either from their centre or from the institution to which they wish to progress.
Other information about GCSE Modern Foreign Languages

7.1 Overlap with other qualifications

There is no overlap between the content of these specifications and that for other GCSE qualifications.

7.2 Progression from this qualification

GCSE qualifications are general qualifications which enable candidates to progress either directly to employment, or to proceed to further qualifications.

Progression to further study from GCSE will depend upon the number and nature of the grades achieved. Broadly, candidates who are awarded mainly Grades D to G at GCSE could either strengthen their base through further study of qualifications at Level 1 within the National Qualifications Framework or could proceed to Level 2. Candidates who are awarded mainly Grades A* to C at GCSE would be well prepared for study at Level 3 within the National Qualifications Framework.

7.3 Avoidance of bias

OCR has taken great care in preparation of these specifications and assessment materials to avoid bias of any kind. Special focus is given to the 9 strands of the Equality Act with the aim of ensuring both direct and indirect discrimination is avoided.

7.4 Regulatory requirements

These specifications comply in all respects with the current: General Conditions of Recognition; GCSE, GCE, Principal Learning and Project Code of Practice; GCSE Controlled Assessment regulations and the GCSE subject criteria for Modern Foreign Languages. All documents are available on the Ofqual website.

7.5 Language

Whilst the language being assessed is Dutch, Gujarati, Persian, Portuguese or Turkish, these specifications are designed for candidates whose first language is English and so English is the carrier language for all parts of the Assessment section.

7.6 Spiritual, moral, ethical, social, legislative, economic and cultural issues

These specifications can contribute to an understanding of these issues during the study of relevant language topic areas. For example add spiritual, moral, ethical, social and cultural issues may arise in the study of all the topic areas. Legislative and economic issues could appear in topic areas 2 and 5.

7.7 Sustainable development, health and safety considerations and European developments, consistent with international agreements

Consistent with current EU regulations, these specifications necessarily address the issues of Health and Safety considerations, sustainable development and European development as part of the study of relevant language topic areas.
7.8 **Key Skills**

These specifications provide opportunities for the development of the Key Skills of *Communication, Application of Number, Information and Communication Technology, Working with Others, Improving Own Learning and Performance* and *Problem Solving* at Levels 1 and/or 2. However, the extent to which this evidence fulfils the Key Skills criteria at these levels will be totally dependent on the style of teaching and learning adopted for each unit.

The following table indicates where opportunities may exist for at least some coverage of the various Key Skills criteria at Levels 1 and/or 2 for each unit.

7.9 **ICT**

In order to play a full part in modern society, candidates need to be confident and effective users of ICT. Where appropriate, candidates should be given opportunities to use ICT in order to further their study of Modern Foreign Languages.

The assessment of this course requires candidates to read and respond to texts from ICT-based sources. In paper 4 (*Writing*), candidates may be required to draft faxes and e-mails, but this will be done on the examination paper using pen.

This section offers guidance on ICT opportunities which may or may not contribute to the provision of evidence for IT Key Skills.

Since September 2002, the National Curriculum for England at Key Stage 4 has included a mandatory programme of study for Citizenship. Parts of this Programme of Study may be delivered through an appropriate treatment of other subjects.

This section offers guidance on opportunities for developing knowledge, skills and understanding of citizenship issues during the course.

It is recognised that the limited level of mastery of a modern foreign language will affect candidates' performance in all the above activities.
