Question Set 2

Disease Dilemmas

1 (a) Identify three limitations of **Fig. 1** in showing the number of deaths from cholera in 2004.

[3]

(b) Explain how disease diffusion can take place.

[6]

Total Marks for Question Set 2: 9

Fig. 1 – Number of deaths from cholera in 2004

The size of the country represents the proportion of all cholera deaths in the world that occurred in that country.

Colours are used to distinguish between different countries.

Oxford Cambridge and RSA

Copyright Information

OCR is committed to seeking permission to reproduce all third-party content that it uses in its assessment materials. OCR has attempted to identify and contact all copyright holders whose work is used in this paper. To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced in the OCR Copyright Acknowledgements Booklet. This is produced for each series of examinations and is freely available to download from our public website (www.ocr.org.uk) after the live examination series.

If OCR has unwittingly failed to correctly acknowledge or clear any third-party content in this assessment material, OCR will be happy to correct its mistake at the earliest possible opportunity.
